

Aberdeen Standard Multi-Asset Real Return Fund

Class A

30 June 2021

Investment objective

To achieve a real return equivalent to 5% per annum above inflation (before fees) over a full market cycle (generally 3 to 5 years).

Investment strategy

The Fund will apply dynamic asset allocation to a diversified portfolio of traditional and alternative assets, without reference to a benchmark.

The Fund may shift its investments quickly and significantly, based on valuations and expected returns, and may completely divest from a particular asset class.

Fund volatility will be controlled through the use of dynamic asset allocation and effective diversification of assets.

¹ Net performance figures are for Class A units in the Fund and are calculated using end-of-month exit prices, post standard fees, reflect the annual reinvestment of distributions and make no allowance for tax. If investing through an IDPS Provider, the total after fees performance returns of your investment in the Fund may be different from the information we publish due to cash flows specific to your portfolio and any fees charged by the IDPS Provider.

² Gross performance figures are calculated using end-of-month exit prices, pre-fees, reflect the annual reinvestment of distributions and make no allowance for tax. These returns are provided for the purpose of wholesale investors only. Retail investors should refer to net returns.

Please note: Prior to 1 September 2012 the Fund was known as the Aberdeen Capital Growth Fund and was managed to achieve a different investment objective using an alternate investment strategy.

Past performance is not a reliable indicator of future results.
