MyFolio Managed Funds

For retail audience

The MyFolio Managed Funds aim to help you achieve your long-term investment goals with confidence. To do this, each fund includes a variety of different investments. All you need to do is select the right option for you with your adviser.

Why should I invest in the MyFolio Managed Funds?

We designed the MyFolio Managed Funds to make investing quick and easy. You simply decide how much risk you are comfortable taking and select the appropriate fund. We then do the rest to manage it in line with your chosen level of risk.

Our experts will:

Decide what to invest in and when

Actively manage the fund to try and produce the best possible return

Regularly check the fund is still in line with your chosen risk level

You can be assured that your investment is being managed by experts to help support your long-term investment goals. We do recommend that you regularly review your chosen fund to make sure it is still right for you

and your appetite for risk hasn't changed. As with any investment, the value of the funds you are invested in can go up and down, and may be worth less than you paid in.

Which MyFolio Managed Fund is right for me?

Deciding which fund is right for you is very straightforward. Simply decide how much risk you are willing to take.

Investor guide

What does MyFolio Managed invest in?

Our experts invest across a range of funds run by abrdn, combining defensive and growth asset classes. Defensive assets are usually seen as less risky, including funds that typically hold investments such as cash and bonds. Meanwhile, growth assets are usually seen as more risky, including funds that typically hold investments such as company shares and property. By combining different types of investment, we believe we can achieve the best possible return for each risk level.

Defensive

Growth

As you move up the risk levels, you would typically expect to see a higher proportion of the portfolio invested in growth assets and less in defensive assets.

Who runs the MyFolio Managed Funds?

The responsibility for the MyFolio Funds lies across experienced portfolio managers, who are all part of the Multi-Manager Strategies Team. The Managed Funds are managed by Katie Trowsdale and Rob Bowie.

abrdn is a leading global asset manager, managing 508 billion of assets for clients (as at 30 June 2022).
