Important Information

The Statement of Operating Expenses is designed to help investors understand the impact of operating expenses on financial performance.

Operating expenses are NOT deducted from the value of an investor's shareholding, which is derived from the share price.

The market value (share price) of all publicly traded companies reflects a wide range of factors, including the estimated impact of operating expenses on future financial performance.

The market value of an investment trust may diverge materially, both positively and negatively, from the reported net asset value.
