d.	What are the key risks that are specific to the issuer?
iv.	<p>Risks relating to the Company</p> <ul style="list-style-type: none"> The Company has no employees and the Directors have been appointed on a non-executive basis. The Company is therefore reliant upon the performance of third-party service providers for its executive functions and is exposed to the risk that misconduct by employees of those service providers, any failure by any service provider to carry out its obligations to the Company in accordance with the terms of its appointment, or the termination of those appointments could have an adverse effect on the Portfolio and the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares <p>Risks relating to the investment policy</p> <ul style="list-style-type: none"> There can be no guarantee that the Company will achieve its investment objective or that investors will get back the full value of their investment. The investments of the Company are subject to the risk of changes in market prices or macroeconomic factors. Any such changes could have an adverse effect on the value of the Portfolio, the Company's financial condition, results of operations and prospects, with a consequential adverse effect on returns to Shareholders and the market value of the Shares. The Company's NAV is inherently sensitive to the performance of Chinese equity markets which could result in the Company's Shares trading at a discount and consequently being less liquid. The Portfolio will be concentrated in a single country and will therefore be exposed to risks associated with geographical concentration, including being exposed to the fluctuations of a more limited geographical market and fewer currencies than a less concentrated portfolio. The Company is exposed to particular economic, regulatory, political, geopolitical, environmental and taxation risks associated with investments in the People's Republic of China, which could have an adverse effect on the Portfolio, the Company's financial condition, results of operations and prospects were they to materialise, with a consequential adverse effect on the market value of the Shares. The Company is exposed to currency and foreign exchange risk as a result of holding investments denominated in currencies other than Sterling which could have an adverse effect on the Portfolio and the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares. <p>Risks relating to the Investment Manager</p> <ul style="list-style-type: none"> The success of the Company is dependent on the AIFM and the Investment Manager and their expertise, key personnel, and ability to source and advise appropriately on investments. As a result of this, the Company's Portfolio, financial condition, results of operations, prospects and the value of the Shares could be adversely affected by: competitive pressures on the AIFM or the Investment Manager's ability to source and make successful investments; any failure by the AIFM or the Investment Manager to carry out due diligence and obtain relevant information on prospective investments; or any loss of key personnel of the AIFM or the Investment Manager and any inability to recruit appropriate replacements in a timely fashion. <p>Risks relating to regulation, taxation and the company's operating environment</p> <ul style="list-style-type: none"> The COVID-19 pandemic may adversely affect the performance of Investee Companies due to ongoing macroeconomic and market uncertainty, which may in turn adversely impact the Company's financial performance and prospects and the value of its Portfolio. Changes in the laws or regulations in Guernsey or the UK which govern the Company's and the Investment Manager's operations may have an adverse effect on the ability of the Company and the Investment Manager to carry on their respective businesses and any such changes could have an adverse effect on the Portfolio and on the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.
3.	Key information on the securities
a.	What are the main features of the securities?
i.	Type, class and ISIN of the securities being admitted to trading on a regulated market The Shares being offered under the Issue and the Placing Programme are ordinary shares in the capital of the Company. The ISIN of the Shares is GG00B45L2K95.
ii.	Currency, denomination, par value, number of securities issued and term of the securities The Shares will be denominated in Sterling and will be ordinary shares of £0.01 par value in the capital of the Company. The issue price of the Shares to be issued pursuant to the Issue will be determined on the Calculation Date. The issue price of the Shares which may be issued pursuant to the Placing Programme will be not less than the NAV per Share at the time of issue (plus issue expenses). The Shares have an infinite term.
iii.	Rights attached to the securities <i>Life</i> The Company has been established with an unlimited life but, pursuant to the Articles, an ordinary resolution for the continuation of the Company was required to be proposed at the Company's annual general meeting in 2013 and must be proposed at every fifth annual general meeting thereafter. Conditional on the approval by Shareholders of an amendment to the Articles at the Extraordinary General Meeting, the next annual general meeting at which such a continuation resolution must be proposed will take place in 2027. <i>Variation of rights</i> If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue) may, whether or not the Company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class or with the sanction of a special resolution of the holders of the shares of that class. <i>Dividends</i> The holders of Shares are entitled to such dividends as may be declared by the Company from time to time. Shares held in treasury do not receive dividends.

	<p><i>Distribution of assets on a winding up</i></p> <p>On a winding up, the ordinary shares (excluding treasury shares) shall rank <i>pari passu</i> for the nominal capital paid up thereon and in respect of any surplus.</p> <p><i>Voting rights</i></p> <p>Holders of ordinary shares are entitled to attend, speak and vote at general meetings of the Company. Each ordinary share (excluding shares in treasury) carries one vote. Treasury shares do not carry voting rights.</p>
iv.	<p>Relative seniority of the securities</p> <p>The Scheme Shares and the Placing Shares are ordinary shares and will, when issued and fully paid, have the same rights as the existing Shares, including in respect of rights to dividends and in respect of a winding up of the Company.</p>
v.	<p>Restrictions on free transferability of the securities</p> <p>At their absolute discretion, the Directors may refuse to register the transfer of a share in certificated form which is not fully paid provided that, if the share is traded on a regulated market, such refusal does not prevent dealings in the shares from taking place on an open and proper basis. The Directors may also refuse to register a transfer of a share in certificated form unless the instrument of transfer:</p> <ul style="list-style-type: none"> • is lodged, duly stamped, at the registered office of the Company or such other place as the Directors may appoint and is accompanied by the certificate for the share to which it relates and such other evidence as the Directors may reasonably require to show the right of the transferor to make the transfer and/or the transferee to receive the transfer (including such written certifications in form and substance satisfactory to the Company as the Directors may determine in accordance with applicable law); • is in respect of only one class of share; and • is not in favour of more than four transferees. <p>The Directors may refuse to register a transfer of a share in uncertificated form to a person who is to hold it thereafter in certificated form in any case where the Company is entitled to refuse (or is excepted from the requirement) under the Uncertificated Securities (Guernsey) Regulations, 2009 (as amended from time to time) to register the transfer.</p>
vi.	<p>Dividend policy</p> <p>The Company's intention is to achieve its results primarily through capital appreciation. As such, no specific dividend policy has been established and any distributions will be made as required to maintain the Company's intended status as an investment trust under UK tax legislation and otherwise entirely at the discretion of the Board, subject to compliance with the solvency test prescribed by Guernsey law.</p>
b.	<p>Where will the securities be traded?</p>
i.	<p>The Shares will be admitted to listing on the premium listing category of the Official List and to trading on the Main Market.</p>
c.	<p>What are the key risks that are specific to the securities?</p>
i.	<p>Risks relating to an investment in the Shares</p> <ul style="list-style-type: none"> • It may be difficult for Shareholders to realise their investment as there may not be a liquid market in the Shares, and Shareholders have no right to have their Shares redeemed or repurchased by the Company. In particular, the Company's free float is presently calculated at approximately 16 per cent. of the Shares and is therefore below the usual minimum level of 25 per cent under the Listing Rules. Whilst the Proposals may result in an improvement in the Company's free float and the FCA has agreed to modify the relevant Listing Rule for an initial period to 6 March 2022, there can be no guarantee that the Proposals will have such an effect or that the FCA will extend its modification beyond such date. • Investors may not recover the full amount of their investment in the Shares. • The Shares may trade at a discount to Net Asset Value and the price that can be realised for Shares will be subject to market fluctuations.

RISK FACTORS

An investment in the Shares carries a number of risks including the risk that the entire investment may be lost. In addition to all other information set out in this Prospectus, the following specific factors should be considered when deciding whether to make an investment in the Shares. The risks set out below are those which are considered to be the material risks relating to an investment in the Shares but are not the only risks relating to the Shares or the Company. No assurance can be given that the Shareholders will realise profit on, or recover the value of, their investment in the Shares, or that the Company will achieve any of its target returns. It should be remembered that the price of securities and the income from them can go down as well as up.

The success of the Company will depend on the ability of the Investment Manager to pursue the investment policy of the Company successfully and on broader market conditions and the risk factors set out below in this section.

Additional risks and uncertainties of which the Company is presently unaware or that the Company currently believes are immaterial may also adversely affect its business, financial condition, results of operations and the value of the Shares.

Prospective investors should note that the risks relating to the Company, its investment policy and strategy and the Shares summarised in the section of this Prospectus headed “*Summary*” are the risks that the Directors believe to be the most essential to an assessment by a prospective investor of whether to consider an investment in the Shares. However, as the risks which the Company faces relate to events and depend on circumstances that may or may not occur in the future, prospective investors should consider not only the information on the key risks summarised in the section of this Prospectus headed “*Summary*” but also, among other things, the risks and uncertainties described in this “*Risk Factors*” section of this Prospectus. Additional risks and uncertainties not currently known to the Company or the Directors or that the Company or the Directors consider to be immaterial as at the date of this Prospectus may also have a material adverse effect on the Company’s financial condition, business, prospects and results of operations and, consequently, the Company’s NAV and/or the market price of the Shares.

Potential investors in the Shares should review this Prospectus carefully and in its entirety and consult with their professional advisers before purchasing Shares.

RISKS RELATING TO THE COMPANY

The Company has no employees and is reliant on the performance of third-party service providers

The Company has no employees and the Directors have been appointed on a non-executive basis. Whilst the Company has taken all reasonable steps to establish and maintain adequate procedures, systems and controls to enable it to comply with its obligations, the Company is reliant upon the performance of third-party service providers for its executive functions. In particular, the Investment Manager, the Registrar, the Administrator and the Depositary will be performing services which are integral to the operation of the Company. Misconduct by employees of those service providers, any failure by any service provider to carry out its obligations to the Company in accordance with the terms of its appointment, or the termination of those appointments could have an adverse effect on the Portfolio and the Company’s financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

RISKS RELATING TO THE INVESTMENT POLICY

There can be no guarantee that the Company will achieve its investment objective or that investors will get back the full value of their investment

The success of the Company is dependent on the continued ability of the Investment Manager to pursue the Company’s investment policy successfully and on broader market conditions as discussed elsewhere in this Prospectus. There can be no assurance that the Investment Manager will continue to be successful in pursuing the Company’s investment policy or that the Investment Manager will be able to invest the Company’s assets on attractive terms, generate any investment

returns for the Company's investors, pay a dividend or avoid investment losses. In addition, the success of the Company will depend on the performance of the Chinese stock and securities market and the Chinese economy more broadly.

The investment objective of the Company is a target only and should not be treated as an assurance or guarantee of performance. There is no assurance that any appreciation in the value of the Shares will occur or that the investment objective of the Company will be achieved. This could have an adverse effect on the Portfolio and the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

The investments of the Company are subject to the risk of changes in market prices or macroeconomic factors

The Company is at risk from the failure of the entire investment strategy followed by the Investment Manager resulting from changes in market prices or macroeconomic factors. While the Company will hold a diversified portfolio, there are certain general market conditions in which any investment strategy is unlikely to be profitable. The Investment Manager does not have the ability to control or predict such market conditions.

The performance of the Company's investments depends to a great extent on correct assessments of the future course of market price movements and economic cycles. There can be no assurance that the Investment Manager will be able to predict accurately these price movements or cycles. The global financial markets have in recent years been characterised by great volatility and unpredictability.

General economic and market conditions, such as currency exchange rates, interest rates, availability of credit, inflation rates, economic uncertainty, changes in laws, trade barriers, currency exchange controls and national and international political circumstances may affect the price level, volatility and liquidity of securities and result in losses for the Company. This could have an adverse effect on the value of the Portfolio, the Company's financial condition, results of operations and prospects, with a consequential adverse effect on returns to Shareholders and the market value of the Shares.

This risk may be increased due to the concentration of the Portfolio in particular sectors or industries. For more information, please also see the risk factor entitled "*The Company's investments may be adversely affected by poor performance of a particular sector or industry*" below.

The Company's NAV is inherently sensitive to the performance of Chinese equity markets and volatility in the Company's NAV could cause the Company's Shares to trade at a discount, which may reduce their liquidity

Given that the Company invests predominantly in listed or quoted securities, the Company's NAV is inherently sensitive to the performance of Chinese equity markets. If Chinese capital markets experience volatility and disruption, the Company's NAV could also become volatile and it is likely that the Company's Shares will trade at a discount to the Company's NAV. In any event, although the Company has the ability to provide liquidity in the form of share buybacks, trading at a discount to the Company's NAV could make the Company's Shares less liquid and more difficult to sell.

Risks associated with geographical concentration

Pursuant to the New Investment Policy, the Company will invest in companies listed, incorporated or domiciled in the People's Republic of China (the "PRC"), or companies that derive a significant proportion of their revenues or profits from China operations or have a significant proportion of their assets there. Having a portfolio which is concentrated in a single country is generally considered to be a higher risk investment strategy than investing more widely, as it exposes the investor to the fluctuations of a limited geographical market and fewer currencies. Any adverse effect on the relevant markets and/or the value of the relevant currencies could have an adverse effect on the Portfolio and on the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

Economic and regulatory risks associated with investments in the People's Republic of China

Pursuant to the New Investment Policy, the Company will make investments in securities and instruments that are economically tied to the PRC. Such investment may be made through various

available market access programmes including, but not limited to, PRC Qualified Foreign Institutional Investor (“QFII”) programme and/or the Renminbi Qualified Foreign Institutional Investor (“RQFII”) programme.

The risks of investing in the PRC include (without limitation): (a) inefficiencies resulting from erratic growth; (b) the unavailability of consistently reliable economic data; (c) potentially high rates of inflation; (d) dependence on exports and international trade; (e) relatively high levels of asset price volatility; (f) potential shortage of liquidity and limited accessibility by foreign investors; (g) greater competition from regional economies; (h) fluctuations in currency exchange rates or currency devaluation by the PRC government or central bank, particularly in light of the relative lack of currency hedging instruments and controls on the ability to exchange local currency for Sterling; (i) the relatively small size and absence of operating history of many PRC companies; (j) the developing nature of the legal and regulatory framework for securities markets, custody arrangements and commerce; (k) uncertainty and potential changes with respect to the rules and regulations of the QFII / RQFII programme and other market access programmes through which such investments are made; (l) the commitment of the PRC government to continue with its economic reforms; (m) Chinese regulators may suspend trading in Chinese issuers (or permit such issuers to suspend trading) during market disruptions, and that such suspensions may be widespread; (n) different regulatory and audit requirements related to the quality of financial statements of Chinese issuers; (o) limitations on the ability to inspect the quality of audits performed in China, particularly the lack of access to inspect accounting firms in China; (p) limitations on the ability of outside authorities to enforce actions against companies and persons operating in China; and (q) limitations on the rights and remedies of investors as a matter of law.

The Company may have exposure to a number of companies with all or part of their business in variable interest entity (“VIE”) structures in China. A VIE structure facilitates foreign investment in sectors of the Chinese domestic economy which prohibit foreign ownership. The essential purpose of the VIE structure is to convey the economic benefits and operational control of ownership without direct equity ownership itself. As these entities have a controlling interest that is not based on the majority of voting rights, there is a risk of investors being unable to enforce their ownership rights in certain circumstances. In addition, investment through a VIE structure carries the risk of the structure being deemed tax resident in China such that the worldwide income of the VIE becomes subject to Chinese enterprise income tax, and of the Chinese government enforcing the prohibition on VIE structures.

In addition, there also exists control on foreign investment in the PRC and limitations on repatriation of invested capital. Under the QFII / RQFII programme, there are certain regulatory restrictions particularly on aspects including (without limitation to) investment scope, repatriation of funds, foreign shareholding limit and account structure. Although the relevant QFII / RQFII regulations have recently been revised to relax regulatory restrictions on onshore capital management by QFII / RQFII (including removing investment quota limits and simplifying the process for repatriation of investment proceeds), it is a very new development and therefore subject to uncertainties as to whether and how it will be implemented in practice, especially at this early stage. As a result of PRC regulatory requirements, the Company may be limited in its ability to invest in securities or instruments tied to the PRC and/or may be required to liquidate its holdings in securities or instruments tied to the PRC. Under certain instances such as when the price of the securities is at a low level, the involuntary liquidations may result in losses for the Company. In addition, securities exchanges in the PRC typically have the right to suspend or limit trading in any security traded on the relevant exchange. The PRC government or relevant PRC regulators may also implement policies that may adversely affect the PRC financial markets. Such suspensions, limitations or policies may have a negative impact on the performance of the Company’s investments.

Political, geopolitical and environmental risks associated with investments in the People’s Republic of China

Although the PRC has experienced a relatively stable political environment in recent years, there is no guarantee that such stability will be maintained in the future or that existing geopolitical tensions, including between China and the US, will not increase. The Company may be precluded from investing in certain Chinese issuers due to compliance with US sanctions or other investment restrictions that may be introduced from time to time, such as the list of Chinese Military-Industrial Complex Companies (“CMICs”) issued by executive order of President Biden on 3 June 2021. There is a risk that such sanctions or restrictions will be extended to further issuers and therefore that the

Company may, in order to ensure its compliance, be obliged to sell investments in Chinese issuers at a disadvantageous time.

The PRC is ruled by the Communist Party. Investments in the PRC are subject to risks associated with greater governmental control over and involvement in the economy. Unlike in the United States, the PRC's currency is not determined by the market, but is instead managed at artificial levels relative to the US Dollar. This type of system can lead to sudden and large adjustments in the currency, which, in turn, can have a disruptive and negative effect on foreign investors. The PRC also may restrict the free conversion of its currency into foreign currencies, including the US Dollar. Currency repatriation restrictions may have the effect of making securities and instruments tied to the PRC relatively illiquid, particularly in connection with redemption requests (where relevant). In addition, the government of the PRC exercises significant control over economic growth through direct and heavy involvement in resource allocation and monetary policy, control over payment of foreign currency denominated obligations and provision of preferential treatment to particular industries and/or companies. Economic reform programmes in the PRC have contributed to growth, but there is no guarantee that such reforms will continue.

The PRC has historically been prone to natural disasters such as droughts, floods, earthquakes and tsunamis, and the region's economy may be affected by such environmental events in the future. Any investment by the Company in the PRC is, therefore, subject to the risk of such events. In addition, the relationship between the PRC and Taiwan is particularly sensitive, and hostilities between the PRC and Taiwan may present a risk to the Company's investments in the PRC.

Crystallisation of any of these risks could have an adverse effect on the Portfolio and on the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

Taxation risks associated with investments in the People's Republic of China

Tax laws in the PRC are burdensome to private enterprises and individuals. The Company may be subject to income tax or other tax in the PRC. New tax laws, possibly with retroactive effect, may be enacted in the PRC. Changes to taxation treaties (or their interpretation) may adversely affect the Company's ability to efficiently realise income or capital gains. Consequently, it is possible that the Company may face unfavourable tax treatment in the PRC, which may materially adversely affect the value of the Company's investments.

The use of intermediate holding companies may be challenged by the PRC tax authorities under anti-avoidance rules. The State Administration of Taxation has introduced a series of regulations on the PRC tax treatment of an indirect transfer of assets by a non-resident intermediate holding company. In particular, under Bulletin 7 issued on 3 February 2015, when a non-resident enterprise engages in an indirect transfer of Chinese taxable assets through an arrangement that does not have a *bona fide* commercial purpose in order to avoid paying PRC Enterprise Income Tax, the transfer should be re-characterised as a direct transfer of the Chinese assets.

Because the rules governing taxation of investments in securities and instruments economically tied to the PRC are not always clear, the Company may provide for capital gains taxes if it invests in such securities and instruments by reserving both realised and unrealised gains from disposing or holding securities and instruments economically tied to the PRC. This approach is based on current market practice and the Investment Manager's understanding of the applicable tax rules. Changes in market practice or understanding of the applicable tax rules may result in the amounts reserved being too great or too small relative to actual tax burdens.

Crystallisation of any of these risks could have an adverse effect on the Portfolio and on the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

Currency and foreign exchange risk

The Company has and may in the future have further investments denominated in currencies other than Sterling. The Company therefore is and will continue to be exposed to foreign exchange risk. Changes in the rates of exchange between Sterling and any currency will cause the value of any investment denominated in that currency, and any income arising out of the relevant investment, to go down or up in Sterling terms. The Company may enter into hedging transactions to mitigate its exposure to fluctuations in foreign exchange rates. However, such currency exposure could have an

adverse effect on the Portfolio and the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

The due diligence process that the Investment Manager undertakes in evaluating the Company's investments may not reveal all facts that may be relevant in connection with such investments

Before making investments, the Investment Manager conducts such due diligence as it deems reasonable and appropriate based on the facts and circumstances applicable to each investment. There can be no assurance that due diligence investigations with respect to any investment opportunity will reveal or highlight all relevant facts that may be necessary or helpful in evaluating that investment opportunity.

Any failure by the Investment Manager to identify relevant facts through the due diligence process may lead to inappropriate investment decisions being made, or investments being made at a higher value than their fair value, which could have an adverse effect on the value of the Portfolio, the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the returns to Shareholders and the market value of the Shares.

The Company is subject to risks associated with any hedging or derivative transactions in which it participates

The Company may engage in derivative transactions in limited circumstances for the purposes of efficient portfolio management. Derivative instruments in which the Company may invest may include foreign exchange forwards, exchange-listed and over-the-counter options, futures, options on futures, swaps and similar instruments. Derivative transactions may be volatile and involve various risks different from, and in certain cases, greater than the risks presented by other instruments. The primary risks related to derivative transactions include counterparty, correlation, illiquidity, leverage, volatility and OTC trading risks.

Counterparty risk is the risk that a counterparty in a derivative transaction will not fulfil its contractual or financial obligations to the Company or the risk that the reference entity in a swap or similar derivative will not fulfil its contractual or financial obligations. Correlation risk is the risk that an imperfect or variable degree of correlation between price movements of the derivative instrument and the underlying investment sought to be hedged may prevent the Company from achieving the intended hedging effect or expose the Company to the risk of loss. Liquidity risk is the risk that derivative transactions may not be liquid in all circumstances, such that in volatile markets it may not be possible to close out a position without incurring a loss. Volatility risk is the risk resulting from the fact that the prices of many derivative instruments, including many options and swaps, are highly volatile, due to being influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programmes and policies of governments, and national and international political and economic events and policies, as well as (in the case of options and swaps agreements) the price of the securities or currencies underlying the relevant derivative agreement.

A small investment in derivatives could have a large potential impact on the Company's performance, effecting a form of investment leverage on the Portfolio. In certain types of derivative transactions, the entire amount of the investment could be lost. In other types of derivative transactions, the potential loss is theoretically unlimited.

The Company may invest in securities, including debt securities or equities, which rank behind other outstanding securities and obligations of the issuer

The Company may invest in securities, including debt securities or equities, which rank behind other outstanding securities and obligations of the issuer, all or a significant proportion of which may be secured on substantially all of that issuer's assets. The Company may, therefore, be subject to credit and liquidity risk in relation to such investments.

In the event of the liquidation of an issuer, holders of listed securities would typically be paid after the holders of other securities. To the extent that the Company holds equity securities, it would typically be paid in respect of such equity securities after holders of debt securities have been paid. Consequently, there is no guarantee that the Company would receive any value for its holdings of an issuer's listed securities if the issuer were to go into liquidation. This could have a significant adverse effect on the value of the Portfolio, the Company's financial condition, results of operations

and prospects, with a consequential adverse effect on returns to Shareholders and the market value of the Shares.

The Company's investments may be adversely affected by poor performance of a particular sector or industry

The Company's investments are intended to be diversified by sector and industry. The diversification of its investments is intended to mitigate the Company's exposure to adverse events associated with specific investments and sectors. The Company's returns may, however, still be adversely affected by the unfavourable performance of particular sectors or industries if they affect the performance or prospects of Investee Companies. This adverse effect may be amplified if more Investee Companies are in, or connected to, the affected sector or industry (in other words, if the Portfolio has a greater concentration of investments in any affected sector or industry). This could have an adverse effect on the Portfolio and on the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

The Company's investment strategy may involve the use of leverage, which exposes the Company to risks associated with borrowings

Pursuant to its investment policy, the Company may borrow an aggregate amount equivalent to 20 per cent. of the then gross asset value, calculated at the time of drawdown. The Company will pay interest on any borrowing it incurs. As such, the Company may be exposed to interest rate risk due to fluctuations in the prevailing market rates.

While leverage presents opportunities for increasing total returns, it can also have the opposite effect of increasing losses. If income and capital appreciation on investments made with borrowed funds are less than the costs of the leverage, the Net Asset Value of the Company will decrease. The effect of the use of leverage is to increase the investment exposure, the result of which is that, in a market that moves adversely, the possible resulting loss to investors' capital would be greater than if leverage were not used.

Leverage may be generated through the use of options, futures, options on futures, swaps and other synthetic or derivative financial instruments. Such financial instruments inherently contain much greater leverage than a non-margined purchase of the underlying security or instrument. This is due to the fact that, generally, only a very small portion (and in some cases none) of the value of the underlying security or instrument is required to be paid in order to make such leveraged investments. As a result of any leverage employed by the Company, small changes in the value of the underlying assets may cause a relatively large change in the Net Asset Value of the Company. Many such financial instruments are subject to variation or other interim margin requirements, which may force the premature liquidation of investment positions. This could have an adverse effect on the value of the Portfolio, the Company's financial condition, results of operations and prospects, with a consequential adverse effect on returns to Shareholders and the market value of the Shares.

The Company may be exposed to market risks, principally equity securities price risk, as a result of its equity investments in Private Investee Companies that subsequently become Public Investee Companies

The Company may be exposed to market risks, principally in the form of equity securities price risk, including as a result of investments in Private Investee Companies that the Company continues to hold after the relevant Investee Companies become admitted to trading on a public stock exchange.

The market value of the Company's holdings in Public Investee Companies could be affected by a number of factors including, but not limited to: a change in sentiment in the market regarding the Public Investee Companies; the market's appetite for specific asset classes; and the financial or operational performance of the Public Investee Companies, which may be driven by, amongst other things, the cyclical nature of some of the sectors in which some or all of the Public Investee Companies operate.

Equity prices and returns from investing in equity markets are sensitive to various factors including but not limited to: expectations of future dividends and profits; economic growth; exchange rates; interest rates; and inflation. The value of any investment in equity markets is therefore volatile and it is possible, even when an investment has been held for a long time, that an investor may not get back the sum invested. Any adverse effect on the value of any equities in which the Company invests from time to time could have an adverse effect on the Portfolio and on the Company's

financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

The Company may make short term investments in Unquoted Companies which are not and will not be liquid, which may limit its ability to realise investments at short notice, at a fair value or at all

The Company may make investments in Unquoted Companies where the Investment Manager has a reasonable expectation that such companies will seek a listing in the near future. Investments in Unquoted Companies are highly illiquid and have no public market. There may not be a secondary market for interests in Unquoted Companies and such illiquidity may affect the Company's ability to vary its Portfolio or dispose of or liquidate part of its Portfolio, in a timely fashion (or at all) and at satisfactory prices in response to changes in economic or other conditions. If the Company were required to dispose of or liquidate an investment on unsatisfactory terms, it may realise less than the value at which the investment was previously recorded, which could result in a decrease in Net Asset Value. This could have an adverse effect on the Portfolio and the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

Furthermore, there may be restrictions on the transfer of interests in Unquoted Companies that mean that the Company will not be able to freely transfer its interests. For instance, the sale or transfer of interests in Unquoted Companies is normally subject to the consent or approval of the issuer or (other) holders of the relevant interests and obtaining such consent or approval cannot be guaranteed. Contractual restrictions on transfer may exist in shareholder agreements or the issuer's constitutional documents. Accordingly, if the Company were to seek to exit from any of its investments in Unquoted Companies while they remain private, the sale or transfer of the interests in those Unquoted Companies may be subject to delays or additional costs or may not be possible at all. This could have an adverse effect on the Portfolio and the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

RISKS RELATING TO THE AIFM AND THE INVESTMENT MANAGER

The success of the Company is dependent on the AIFM and the Investment Manager and their expertise, key personnel, and ability to source and advise appropriately on investments

In accordance with the Management Agreement, the AIFM is solely responsible for the management of the Company's investments, with the AIFM delegating its portfolio management responsibilities to the Investment Manager. The Company does not have any employees and its Directors are appointed on a non-executive basis. All of its investment and asset management decisions are in the ordinary course made by the AIFM and the Investment Manager (and any of their delegates) and not by the Company. The Investment Manager is not required to and generally does not submit individual investment decisions for approval to the Board. The Company is therefore reliant upon, and its success depends on, the AIFM and the Investment Manager and their personnel, services and resources.

Returns on Shareholders' investments in Shares will depend upon the AIFM's and the Investment Manager's ability to source and make successful investments on behalf of the Company in the face of competition from other entities seeking to invest in investment opportunities identified for the Company. Those entities may be more established or have greater financial, technical or other resources than the Company. Competition can create significant upward pressure on pricing, thereby reducing the potential investment returns. Competition may also limit the AIFM's and the Investment Manager's negotiating position and access to information. These competitive pressures may prevent the AIFM and the Investment Manager from identifying investments that are consistent with the Company's investment objectives or that generate attractive returns for Shareholders or from matching future investment prices, structures and terms offered by competitors. There is no guarantee that competitive pressures will not have a material adverse effect on the Company's financial position and returns for investors.

Many of the AIFM's and the Investment Manager's investment decisions will depend upon the ability of their employees and agents to carry out due diligence and obtain relevant information. There can be no guarantee that such information will be available or that the AIFM and the Investment Manager and their employees and agents will be able to obtain it. The AIFM and the Investment

Manager may be required to make investment decisions without complete information, or in reliance upon information provided by third parties that is impossible or impracticable to fully verify. Further, the AIFM and the Investment Manager may not conduct due diligence which is wide enough in scope to reveal the potential risks of a particular investment. There can be no assurance that the AIFM and the Investment Manager will correctly identify and evaluate the nature and magnitude of the various factors that could affect the value of and return on the Company's investments. Any failure by the AIFM and the Investment Manager to perform effective due diligence on potential investments may adversely affect the investment returns expected from a particular investment.

Further, the ability of the Company to pursue its investment policy successfully depends on the continued service of key personnel of the AIFM and the Investment Manager, and/or the AIFM's and the Investment Manager's ability to recruit individuals of similar experience and calibre. Whilst the AIFM and the Investment Manager seek to ensure that the principal members of its management teams are suitably incentivised, the retention of key members of those teams cannot be guaranteed. There is no guarantee that, following the death, disability or departure from the AIFM or the Investment Manager of any key personnel, the AIFM or the Investment Manager would be able to recruit a suitable replacement or avoid any delay in doing so. The loss of key personnel and any inability to recruit an appropriate replacement in a timely fashion could have an adverse effect on the Portfolio and on the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

There can be no assurance that the Board would be able to find a replacement AIFM or investment manager if the AIFM or the Investment Manager were to resign or the Management Agreement were to be terminated

Under the terms of the Management Agreement, the AIFM may resign as the Company's manager by giving the Company not less than six months' written notice. Further, the Management Agreement may be terminated immediately upon notice by the AIFM or by the Company in certain circumstances.

The Board would, in such circumstances, have to find a replacement AIFM and/or investment manager for the Company. There can be no assurance that a replacement with the necessary skills and experience would be available and could be appointed on terms acceptable to the Company. If the Management Agreement is terminated and a suitable replacement is not secured in a timely manner, this could have an adverse effect on the Portfolio and on the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

The past performance of investments made by the AIFM and the Investment Manager is not a guarantee or an indication of the future performance of the Company

The information contained in this Prospectus relating to the prior performance of investments made by the AIFM and the Investment Manager on behalf of the Company is being provided for illustrative purposes only and is not indicative of the likely performance of the Company. As the Board intends to adopt the New Investment Policy, the relevance of information in this Prospectus relating to the Company's historic performance to the Company's future performance is low as there is not expected to be any continuity between the current and future investment portfolios. In considering the prior performance information contained in this Prospectus, prospective investors should bear in mind the proposed adoption of the New Investment Policy, that past performance is not necessarily indicative of future results and there can be no assurance that the Company will achieve comparable results or be able to avoid losses.

Operational risks may disrupt the AIFM's and the Investment Manager's businesses, result in losses or limit the Company's growth

The Company relies heavily on the financial, accounting and other data processing systems of the AIFM and the Investment Manager. If any of these systems do not operate properly or are disabled, the Company could suffer financial loss or reputational damage. A disaster or a disruption in the infrastructure that supports the Company, or a disruption involving electronic communications or other services used by the AIFM or the Investment Manager or third parties with whom the Company conducts business, could have a material adverse impact on the ability of the Company to continue to operate its business without interruption. The disaster recovery programmes used by the AIFM or the Investment Manager or third parties with whom the Company conducts business

may not be sufficient to mitigate the harm that may result from such disaster or disruption. As such, this may have an adverse effect on the value of the Portfolio, the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the returns to Shareholders and the market value of the Shares.

The AIFM's and the Investment Manager's information and technology systems may be vulnerable to cyber security breaches

The AIFM's and the Investment Manager's information and technology systems may be vulnerable to damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorised persons and security breaches, usage errors by its professionals, power outages and catastrophic events such as fires, tornadoes, floods, hurricanes and earthquakes. Although the AIFM and the Investment Manager have implemented various measures to manage risks relating to these types of events, if the AIFM's and/or the Investment Manager's information and technology systems are compromised, become inoperable for extended periods of time or cease to function properly, the AIFM and/or the Investment Manager may have to make a significant investment to fix or replace them. The failure for any reason of these systems and/or of disaster recovery plans could cause significant interruptions in the AIFM's and/or the Investment Manager's and/or the Company's operations and result in a failure to maintain the security, confidentiality or privacy of sensitive data, including personal information relating to investors. Such a failure could harm the AIFM's and/or the Investment Manager's and/or the Company's reputation, subject any such entity and their respective Affiliates to legal claims and otherwise affect their business and financial performance. This could have an adverse effect on the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

Reputational risks, including those arising from litigation against the AIFM, the Investment Manager or the Company, may disrupt the Company's investment strategy and growth

The Company may be exposed to reputational risks, including from time to time the risk that litigation, misconduct, operational failures, negative publicity and press speculation (whether or not valid) may harm the reputation of the AIFM, the Investment Manager or the Company. If the AIFM, the Investment Manager or the Company is named as a party to litigation or becomes involved in regulatory inquiries, this could cause substantial reputational damage to the AIFM, the Investment Manager and the Company and result in potential counterparties, target companies and other third parties being unwilling to deal with the AIFM, the Investment Manager and/or the Company. Damage to the reputation of the AIFM, the Investment Manager and/or the Company may disrupt the Company's investment strategy, business or potential growth, which could have an adverse effect on the Portfolio and on the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

RISKS RELATING TO REGULATION, TAXATION AND THE COMPANY'S OPERATING ENVIRONMENT

The Company will be subject to various political, economic and other risks

The Company is subject to various macro political and economic risks incidental to investing. Political, economic, military and other events around the world may impact the economic conditions in which the Company operates, by, for example, causing currency devaluation; causing exchange rate fluctuations (particularly where the Company generates revenue in a currency other than Sterling); interest rate changes; heightened competition; tax disadvantages; inflation; reduced economic growth or recession, each of which may affect the availability of opportunities for the Company to make investments. Such events are not in the control of the Company and may impact the Company's performance.

Investors should be aware that if any of these risks materialise, they could have an adverse effect on the value of the Company's Portfolio, financial condition, results of operations and prospects, with a consequential adverse effect on the returns to Shareholders and the market value of the Shares.

The COVID-19 pandemic may adversely affect the performance of Investee Companies which may in turn adversely impact the Company's financial performance and prospects and the value of its Portfolio

The COVID-19 pandemic has significantly increased the level of macroeconomic and market uncertainty globally, and may adversely affect the performance of Investee Companies, which may in turn adversely impact the performance of the Company itself. In addition, global capital markets are seeing significant volatility as COVID-19 continues to have a sustained impact on business across the world. Such volatility and downturn could have an impact on the liquidity of the Shares.

The pandemic has resulted in, and until fully resolved is likely to continue to result in, the following, among other things: (i) government imposition of various forms of "stay at home" orders and the closing of "non-essential" businesses resulting in (a) significant disruption to many businesses including both supply chains and demand, and (b) lay-offs of employees, which effects are hoped to be temporary but may be permanent for some of these businesses; (ii) shutdowns and significant delays at government agencies; (iii) increased drawings by borrowers on revolving lines of credit; (iv) increased requests by borrowers for amendments and waivers of their credit agreements to avoid default, and increased defaults by such borrowers and/or increased difficulty in obtaining refinancing at the maturity dates of their loans; (v) volatility and disruption of the loan market including greater volatility in pricing and spreads and difficulty in valuing loans during periods of increased volatility, and liquidity issues; and (vi) rapidly evolving proposals and/or actions by state and federal governments to address problems being experienced by the markets and by businesses and the economy in general.

The future development of the outbreak is highly uncertain and there is no assurance that the pandemic will not have a material adverse impact on the performance of investments within the Portfolio and on the Company itself. The extent of the impact will depend on the continued range of the virus, infection rates, the severity and mortality rates of the virus, the timing and efficacy of a vaccine, the steps taken nationally and globally to prevent the spread of the virus as well as fiscal and monetary stimuli offered by governments globally.

The Investment Manager's ability to operate effectively, including the ability of its personnel or its service providers and other contractors to function, communicate and travel to the extent necessary to implement the investment objective and investment policy of the Company has been, and may continue to be impaired by the pandemic. The spread of COVID-19 within the Investment Manager or any of the Company's other service providers could also significantly affect the Investment Manager's ability to properly oversee the affairs of the Company (particularly to the extent that any affected personnel include key investment professionals or other members of senior management).

Investors should be aware that if any of the global impacts of COVID-19 continue for a sustained period of time, and should any of the risks identified above materialise, it could have a material adverse effect on the value of the Portfolio, financial condition, results of operations and prospects, with a consequential adverse effect on the returns to Shareholders and the market value of the Shares.

Changes in laws or regulations governing the Company's or the Investment Manager's operations may adversely affect the business and performance of the Company

The Company and the Investment Manager are subject to laws and regulations enacted by national and local governments.

The Company is subject to, and will be required to comply with, certain legal and regulatory requirements that are applicable to Guernsey-domiciled investment funds and will, if and once the Company becomes an investment trust, be required to comply with various conditions to enable it to maintain its status as an investment trust under section 1158 CTA 2010. The Company is subject also to the continuing obligations imposed on all investment companies whose shares are admitted to trading on the Main Market.

The Investment Manager is subject to, and will be required to comply with, certain regulatory requirements set out in Hong Kong domestic legislation, rules and regulations, many of which could directly or indirectly affect the management of the Company. The Investment Manager is subject to, and will be required to comply with, certain regulatory requirements of the Securities and Futures Commission of Hong Kong, some of which affect the investment management of the Company.

The rules, laws and regulations affecting the Company and the Investment Manager are evolving and any changes in such rules, laws and regulations may have an adverse effect on the ability of the Company and the Investment Manager to carry on their respective businesses. Any such changes could have an adverse effect on the Portfolio and on the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

Changes in taxation legislation or practice may adversely affect the Company and the tax treatment for Shareholders investing in the Company

Any change in the Company's tax status, or in taxation legislation or practice in the United Kingdom, Guernsey or other jurisdictions to which the Company has exposure, could, depending on the nature of such change, adversely affect the value of investments in the Portfolio and the Company's ability to achieve its investment objective, or alter the post-tax returns to Shareholders. Statements in this Prospectus concerning the taxation of the Company and taxation of Shareholders are based upon current UK and Guernsey tax law and published practice, any aspect of which is in principle subject to change (potentially with retrospective effect) that could adversely affect the ability of the Company to pursue successfully its investment policy and/or which could adversely affect the taxation of the Company and the Shareholders.

It is the intention of the Directors to apply for, and thereafter to continue to conduct the affairs of the Company so as to satisfy the conditions for, approval of the Company by HMRC as an investment trust under section 1158 of the UK Corporation Tax Act 2010 (as amended) and pursuant to regulations made under section 1159 of the UK Corporation Tax Act 2010 (as amended). However, neither the Investment Manager nor the Directors can provide assurance that this approval will be granted or maintained. If such approval is granted, the Company will continue to have investment trust status in each of its accounting periods, unless the Company breaches the investment trust conditions so as to be treated as no longer approved by HMRC as an investment trust, pursuant to the regulations. For example, it is not possible to guarantee that the Company will be and will remain a company that is not a close company for UK tax purposes, which is a requirement to obtain and maintain its status as an investment trust, as the Shares are freely transferable. Breach of such conditions could, as a result, lead to the Company being subject to UK tax on its capital gains.

Any changes as described above may have an adverse effect on the ability of the Company to realise the value of the Portfolio, the Company's financial condition, results of operations and prospects, with a consequential adverse effect on the market value of the Shares.

Existing and potential investors should consult their tax advisers with respect to their particular tax situations and the tax effects of an investment in the Company.

Shareholders may be subject to withholding and forced transfers under FATCA and there may also be reporting of Shareholders under other exchange of information arrangements

The governments of the United States and Guernsey have entered into an intergovernmental agreement (the "US-Guernsey IGA") related to implementing FATCA which is implemented through Guernsey's domestic legislation. FATCA imposes certain information reporting requirements on a foreign financial institution ("FFI") or other non-US entity and, in certain cases, US federal withholding tax on certain US source payments. The Company is likely to be considered an FFI, and will therefore have to comply with certain registration and reporting requirements in order not to be subject to US withholding tax under FATCA. In addition, the Company may be required to withhold US tax at the rate of 30 per cent. on "withholdable payments" or certain "foreign passthru payments" to persons that are not compliant with FATCA or that do not provide the necessary information or documents, to the extent such payments are treated as attributable to certain US source payments.

Guernsey has also implemented the Common Reporting Standard or "CRS" regime with effect from 1 January 2016. Accordingly, reporting in respect of periods commencing on or after 1 January 2016 is required in accordance with the CRS (as implemented in Guernsey).

Under the CRS and legislation enacted in Guernsey to implement the CRS, certain disclosure requirements are imposed in respect of certain investors who are themselves (or are entities that are controlled by one or more natural persons who are) residents of any of the jurisdictions that have also adopted the CRS, unless a relevant exemption applies. Where applicable, information to

be disclosed will include certain information about investors, their ultimate beneficial owners and/or controllers, and their investment in and returns from the Company. The CRS has been implemented through Guernsey's domestic legislation in accordance with guidance issued by the Organisation for Economic Co-operation and Development as supplemented by guidance notes in Guernsey. Under the CRS, disclosure of information is made to the Director of Revenue Service in Guernsey for transmission to the tax authorities in other participating jurisdictions.

If and once the Company becomes resident for tax purposes in the UK, UK FATCA is likely also to become applicable to the Company.

The UK has concluded an intergovernmental agreement with the US (the "**US-UK IGA**"), pursuant to which parts of FATCA have effectively been incorporated into UK law. Under the US-UK IGA an FFI that is resident in the UK (a "**Reporting FI**") is not subject to withholding under FATCA provided that it complies with the terms of the US-UK IGA, including requirements to register with the IRS and requirements to identify, and report certain information on, accounts held by certain US persons owning, directly or indirectly, an equity or debt interest in the company (other than equity and debt interests that are regularly traded on an established securities market, as described below) and report on accounts held by certain other persons or entities to HMRC, which will exchange such information with the IRS.

The Company expects that it will be treated as a Reporting FI pursuant to the IGA and that it will comply with the requirements under the IGA and relevant UK legislation. The Company also expects that its Shares may, in accordance with the current HMRC practice, comply with the conditions set out in the IGA to be "regularly traded on an established securities market" meaning that the Company should not have to report specific information on its Shareholders and their investments to HMRC.

However, there can be no assurance that the Company will be treated as a Reporting FI, that its Shares will be considered to be "regularly traded on an established securities market" or that it will not in the future be subject to withholding tax under FATCA or the US-UK IGA.

The UK has also implemented the CRS, under which the Company may be required to collect and report to HMRC certain information regarding Shareholders and HMRC may pass this information on to tax authorities in other jurisdictions.

The requirements under FATCA, the CRS and similar regimes and any related legislation, IGAs and/or regulations may impose additional burdens and costs on the Company or Shareholders. There is no guarantee that the Company will be able to satisfy such obligations and any failure to comply may materially adversely affect the Company's business, financial condition, results of operations, NAV and/or the market price of the Shares, and the Company's ability to deliver target total NAV return to Shareholders. In addition, there can be no guarantee that any payments in respect of the Shares will not be subject to withholding tax under FATCA. To the extent that such withholding tax applies, the Company is not required to pay any additional amounts to Shareholders.

In subscribing for or acquiring Shares, each Shareholder is agreeing, upon the request of the Company or its delegate, to provide such information as is necessary to comply with FATCA, the CRS and other similar regimes and any related legislation and/or regulations. In particular, investors should be aware that certain forced transfer provisions contained in the Articles may apply in the case that the Company suffers any pecuniary disadvantage as a result of the Company's failure to comply with FATCA.

Investors should consult with their respective tax advisers regarding the possible implications of FATCA, the CRS and similar regimes concerning the automatic exchange of information and any related legislation, IGAs and/or regulations.

The Company may be treated as a passive foreign investment company

The Company may be treated as a "passive foreign investment company" (often referred to as a "**PFIC**") for US federal income tax purposes, which could have adverse consequences for any investors who are US taxpayers. If the Company is classified as a PFIC for any taxable year, holders of Shares that are US taxpayers may be subject to adverse US federal income tax consequences. Further, prospective investors should assume that a "qualified electing fund" election, which, if made, could serve as an alternative to the general PFIC rules and could reduce any adverse consequences to US taxpayers if the Company were to be classified as a PFIC, will not be

available because the Company does not expect to provide the information needed to make such an election. A “mark-to-market” election may be available, however, if the Company’s ordinary shares are regularly traded. Prospective investors that are US taxpayers are urged to consult with their own tax advisers concerning the US federal income tax considerations associated with acquiring, owning and disposing of Shares in light of their particular circumstances.

The Company may be regarded as a “covered fund” under the Volcker Rule. Any prospective investor that is or may be considered a “banking entity” under the Volcker Rule should consult its legal advisers regarding the potential impact of the Volcker Rule on its investments and other activities prior to making any investment decision with respect to the Scheme Shares or the Placing Shares or entering into other relationships or transactions with the Company

Section 13 of the US Bank Holding Company Act of 1956, as amended, and Regulation VV (12 C.F.R. Section 248) promulgated thereunder by the Board of Governors of the Federal Reserve System (such statutory provision together with such implementing regulations, being generally known as the “**Volcker Rule**”), generally prohibits “banking entities” (which term is broadly defined to include any US bank or savings association whose deposits are insured by the Federal Deposit Insurance Corporation, any company that controls any such bank or savings association, any non-US bank treated as a bank holding company for purposes of Section 8 of the US International Banking Act of 1978, as amended, and any Affiliate or subsidiary of any of the foregoing entities) from: (i) engaging in proprietary trading as defined in the Volcker Rule; (ii) acquiring or retaining an “ownership interest” in, or “sponsoring”, a “covered fund”; and (iii) entering into certain other relationships or transactions with a “covered fund”.

As the Company may be regarded as a “covered fund” under the Volcker Rule, any prospective investor that is or may be considered a “banking entity” under the Volcker Rule should consult its legal advisers regarding the potential impact of the Volcker Rule on its investments and other activities, prior to making any investment decision with respect to the Scheme Shares or the Placing Shares or entering into other relationships or transactions with the Company. If the Volcker Rule applies to an investor’s ownership of Shares, the investor may be forced to sell its Shares or the continued ownership of Shares may be subject to certain restrictions. Violations of the Volcker Rule may also subject an investor to potential penalties imposed by the applicable bank regulatory authority or other enforcement action.

The Company has not, does not intend to and may be unable to become registered as an investment company under the US Investment Company Act and related rules

The Company has not, does not intend to and may be unable to become registered with the SEC as an “investment company” under the US Investment Company Act and related rules. The US Investment Company Act provides certain protections to investors and imposes certain restrictions on companies that are registered as investment companies. As the Company is not so registered, does not intend to so register and may be unable to so register, none of these protections or restrictions are or will be applicable to the Company. However, if the Company were to become subject to the US Investment Company Act because of a change of law or otherwise, the various restrictions imposed by the US Investment Company Act, and the substantial costs and burdens of compliance therewith, could adversely affect the operating results and financial performance of the Company. Moreover, parties to a contract with an entity that has improperly failed to register as an investment company under the US Investment Company Act may be entitled to cancel or otherwise void their contracts with the unregistered entity and shareholders in that entity may be entitled to withdraw their investment. In order to ensure compliance with exemptions that permit the Company to avoid being required to register as an investment company under the US Investment Company Act and related rules, the Company has implemented appropriate restrictions on the ownership and transfer of Shares, which may affect a US investor’s ability to hold or transfer Shares and may in certain circumstances require the US investor to transfer or sell its Shares.

The ability of certain persons to hold Shares and make secondary transfers in the future may be restricted as a result of ERISA and other regulatory considerations

Each initial purchaser and subsequent transferee of Scheme Shares and/or Placing Shares is required to represent and warrant or will be deemed to represent and warrant that it is not a “benefit plan investor” as defined in Section 3(3) of the United States Employee Retirement Income Security Act of 1974, as amended (“**ERISA**”), and that it is not, and is not using assets of, a plan or

other arrangement subject to provisions under applicable federal, state, local, non-US or other laws or regulations that are substantially similar to Section 406 of ERISA or Section 4975 of the United States Internal Revenue Code of 1986, as amended (the “**US Tax Code**”) unless its purchase, holding and disposition of Scheme Shares and/or Placing Shares does not constitute or result in a non-exempt prohibited transaction or violation of any such substantially similar law. In addition, under the Articles, the Board has the power to refuse to register a transfer of Shares or to require the sale or transfer of Shares in certain circumstances, including any purported acquisition or holding of Shares by a benefit plan investor.

RISKS RELATING TO AN INVESTMENT IN THE SHARES

It may be difficult for Shareholders to realise their investment as there may not be a liquid market in the Shares, and Shareholders have no right to have their Shares redeemed or repurchased by the Company

Admission should not be taken as implying that there will be an active and liquid market for the Shares. The number of Shares to be issued pursuant to the Issue and the Placing Programme is not yet known and there may, on Admission or any Subsequent Admission, be a limited number of holders of Shares. Consequently, the Share price may be subject to significant fluctuation on small volumes of trading. Limited numbers of Shares and/or holders of Shares may result in limited liquidity in such Shares, which may affect: (i) an investor's ability to realise some or all of its/their investment; and/or (ii) the price at which such Shares trade in the secondary market. The price at which the Shares will be traded will be influenced by a variety of factors, some specific to the Company and its investments and some which may affect companies generally.

Further, the Company is a closed-ended investment company and Shareholders will have no right to have their Shares redeemed or repurchased by the Company at any time. Subject to the Companies Law, the Directors retain the right to effect repurchases of Shares in the manner described in this Prospectus. However, they are under no obligation to use such powers at any time and Shareholders should not place any reliance on the willingness of the Directors to exercise such powers (given, in particular, the likely composition of the Portfolio). Shareholders wishing to realise their investment in the Company may therefore be required to dispose of their Shares on the market. There can be no guarantee that a liquid market in the Shares will develop or that the Shares will trade at prices close to their underlying Net Asset Value. Accordingly, Shareholders may be unable to realise their investment at such Net Asset Value, or at all.

The Company is ordinarily required by the Listing Rules to ensure that 25 per cent. of the Shares are publicly held (as defined by the Listing Rules) at all times; however, the Company's free float is presently calculated at approximately 16 per cent. of the Shares and is therefore below such minimum level. The Company has accordingly liaised with the FCA and the FCA has agreed to modify the relevant Listing Rule to continue to permit a reduced level of the Company's Shares in public hands, for an initial period to 6 March 2022. Whilst the Proposals may result in an improvement in the Company's free float, there can be no guarantee that they will have such effect and if, for any reason, the number of Shares in public hands were to be below an acceptable level (for example, if the Company's free float were to remain below 25 per cent. after 6 March 2022 and the FCA did not extend its modification of the relevant Listing Rule beyond this date), the FCA might cancel the listing of the Shares or the London Stock Exchange might suspend or terminate the trading of the Shares. Any such suspension or cancellation of the listing of the Shares could also adversely affect the Company's ability to obtain or retain investment trust status. This may have an adverse effect on the value of the Portfolio, the Company's financial condition, results of operations and prospects, with a consequential adverse effect on returns to Shareholders and the market value of the Shares

Investors may not recover the full amount of their investment in the Shares

The Company's ability to achieve its investment objective and pursue its investment policy successfully may be adversely affected by the manifestation of any of the risks described in this “*Risk Factors*” section of this Prospectus or other market conditions (or significant changes thereto). The market price of the Shares may fluctuate significantly, particularly in the short term, and potential investors should regard an investment in the Shares as a medium to long term investment.

As with any investment, the price of the Shares may fall in value. The maximum loss on an investment in the Shares is equal to the value of the initial investment and, where relevant, any

gains or subsequent investments made. Investors therefore may not recover the full amount initially invested in the Shares, or any amount at all.

The Shares may trade at a discount to Net Asset Value and the price that can be realised for Shares will be subject to market fluctuations

It is unlikely that the price at which the Shares trade will be the same as their Net Asset Value (although they are related). The shares of an investment company such as the Company may trade at a discount to their net asset value. This could be due to a variety of factors, including due to market conditions or an imbalance between supply and demand for the Shares. While the Directors may seek to mitigate the discount to NAV through such discount management mechanisms as they consider appropriate, there can be no guarantee that they will do so or that such efforts will be successful. As a result of this, investors that dispose of their interests in the Shares in the secondary market may realise returns that are lower than they would have been if an amount equivalent to the Net Asset Value was distributed.

The market price of the Shares may fluctuate significantly and Shareholders may not be able to sell Shares at or above the price at which they purchased those Shares. Factors that may cause the price of the Shares to vary include those detailed in this “*Risk Factors*” section of this Prospectus, such as: changes in the Company’s financial performance and prospects, or in the financial performance and market prospects of the Company’s investments or those which are engaged in businesses that are similar to the Company’s business; the termination of the Management Agreement or the departure of some or all of the Investment Manager’s key investment professionals; changes in or new interpretations or applications of laws and regulations that are applicable to the Company’s business or to the companies in which the Company makes investments; sales of Shares by Shareholders; general economic trends and other external factors, including those resulting from war, incidents of terrorism, pandemics or responses to such events; poor performance in any of the Investment Manager’s activities or any event that affects the Company’s or the Investment Manager’s reputation; speculation in the press or investment community regarding the Company’s business or investments, or factors or events that may directly or indirectly affect the Company’s business or investments; and foreign exchange risk as a result of making and selling equity investments denominated in currencies other than Sterling.

Securities markets in general have experienced extreme volatility that has often been unrelated to the operating performance or fundamentals of individual companies. Market fluctuations may adversely affect the trading price of the Shares. As with any investment, the price of the Shares may fall in value with the maximum loss on such investments being equal to the value of the initial investment and, where relevant, any gains on subsequent investments made.

The Company may in the future issue new Shares which may dilute Shareholders’ equity or have a detrimental effect on the market price of the Shares

Further issues of Shares may, subject to compliance with the relevant provisions of the Companies Law and the Articles, be made on a non-pre-emptive basis. Any such issue may dilute the percentage of the Company held by the Company’s existing Shareholders. Additionally, such issues could have an adverse effect on the market price of the Shares.

The Shares are subject to significant transfer restrictions for Shareholders in the United States

The Scheme Shares and the Placing Shares have not been and will not be registered under the US Securities Act, or with any securities regulatory authority of any state or other jurisdiction of the United States, and may not be offered, sold, resold, pledged, delivered, assigned or otherwise transferred, directly or indirectly, into or within the United States or to, or for the account or benefit of, US Persons, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the US Securities Act and in compliance with any applicable securities laws of any state or other jurisdiction in the United States and in a manner which would not result in the Company being required to register under the US Investment Company Act. There has been and will be no public offer of the Scheme Shares and the Placing Shares in the United States.

There are significant restrictions on the purchase and resale of Shares by Shareholders who are located in the United States, are US Persons, or who hold Shares for the account or benefit of US Persons and on the resale of Shares by any Shareholders to any person who is located in the United States or to, or for the account or benefit of, a US Person. If in the future the initial

purchaser, as well as any subsequent holder, decides to offer, sell, transfer, assign or otherwise dispose of the Shares, they may do so only: (i) outside the United States in an “offshore transaction” complying with the provisions of Regulation S under the Securities Act to a person not known by the transferor to be a US Person, by prearrangement or otherwise; or (ii) to the Company or a subsidiary thereof.

In order to avoid being required to register under the US Investment Company Act and to address certain ERISA, US Tax Code and other considerations, the Company has imposed significant restrictions on the transfer of the Shares which may materially affect the ability of Shareholders to transfer Shares in the United States, or to, or for the account or benefit of, US Persons. These restrictions may make it more difficult for a US Person or a Shareholder in the United States to resell the Shares and may have an adverse effect on the liquidity and market value of the Shares.

In connection with the Issue, the Scheme Shares are being offered or sold only (i) outside the United States in “offshore transactions” to non-US Persons pursuant to Regulation S under the US Securities Act, and (ii) to persons who are both Qualified Purchasers and Accredited Investors pursuant to an exemption from the registration requirements of the US Securities Act, and who, in the case of (ii), have executed the AI/QP Investor Letter and returned it to the Company and the Receiving Agent. If any person does not execute and return the AI/QP Investor Letter to the Company and the Receiving Agent and the Board believes such person is a Prohibited Person under the Articles (an “**Ineligible US Shareholder**”), the Board reserves the right, in its absolute discretion, to require any Scheme Shares to which such Ineligible US Shareholder is entitled and would otherwise receive, to be issued to the Liquidators as nominees for the relevant Ineligible US Shareholder and sold by the Liquidators in the market (which shall be done by the Liquidators without regard to the personal circumstances of the relevant Ineligible US Shareholder and the value of the ANW Shares held by the relevant Ineligible US Shareholder) and the net proceeds of such sale (after deduction of any costs incurred in effecting such sale) will be paid to the relevant Ineligible US Shareholder.

Subject to certain limited exceptions, the Placing Shares are being offered and sold only outside the United States in “offshore transactions” to non-US Persons pursuant to Regulation S under the US Securities Act.

The tax legislation of a Shareholder's home jurisdiction, of Guernsey (as the country of incorporation of the Company and in which it is currently tax resident) and of the United Kingdom (as the jurisdiction in which the Company will be tax resident if it becomes a United Kingdom investment trust) may have an impact on the income received by the Shareholder from the Shares. Each prospective investor should consult their own solicitor, financial adviser or tax adviser for legal, financial or tax advice in relation to the purchase of Scheme Shares.

Apart from the liabilities and responsibilities (if any) which may be imposed on Shore Capital by FSMA or the regulatory regime established thereunder, Shore Capital, its Affiliates, officers, directors, employees or agents make no representations, express or implied, nor accept any responsibility whatsoever for the contents of this Prospectus (or any supplementary prospectus published by the Company prior to Admission or the date of any Subsequent Admission) nor for any other statement made or purported to be made by it or on its behalf in connection with the Company, the AIFM, the Investment Manager, the Shares, the Issue, the Placings or any admission. The Sponsor and its Affiliates, officers, directors, employees or agents accordingly disclaim all and any liability (save for any statutory liability) whether arising in tort or contract or otherwise which it or they might otherwise have in respect of this Prospectus or any such statement.

In connection with the Placings, the Sponsor and its Affiliates, officers, directors, employees or agents acting as an investor for its or their own account(s), may acquire Shares and, in that capacity, may retain, purchase, sell, offer to sell or otherwise deal for its or their own account(s) in such securities of the Company, any other securities of the Company or other related investments in connection with the Placings or otherwise. Accordingly, references in this Prospectus to Shares being issued, offered, acquired, subscribed for or otherwise dealt with pursuant to the Placings, should be read as including any issue or offer to, acquisition of, or subscription or dealing by, the Sponsor and any of its Affiliates, officers, directors, employees or agents acting as an investor for its or their own account(s). Neither the Sponsor nor any of its Affiliates, officers, directors, employees or agents intend to disclose the extent of any such investment or transactions otherwise than in accordance with any legal or regulatory obligation to do so.

The Shares are only suitable for long term investors who are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses (which may be equal to the whole amount invested) from such an investment. Accordingly, typical investors in the Shares are institutional investors, private clients through their wealth managers, experienced investors, high net worth investors, professionally advised investors and knowledgeable unadvised retail investors who have taken appropriate steps to ensure that they understand the risks involved in investing in the Company

The Shares are designed to be held over the long term and may not be suitable as short-term investments. There is no guarantee that any appreciation in the value of the Company's investments will occur and investors may not get back the full amount initially invested, or any amount at all.

The investment objective of, and target return proposed by, the Company are targets only and should not be treated as assurances or guarantees of performance. There can be no assurance that the Company's investment objective will be achieved or that the proposed target return will be achieved or paid.

A prospective investor should be aware that the value of an investment in the Company is subject to market fluctuations and other risks inherent in investing in securities. There is no assurance that any appreciation in the value of the Shares will occur or that the investment objective of the Company will be achieved. The value of investments and the income derived therefrom may fall as well as rise and investors may not recoup the original amount invested in the Company.

SELLING RESTRICTIONS

This Prospectus does not constitute, and may not be used for the purposes of, an offer or an invitation to apply for any Shares by any person: (i) in any jurisdiction in which such offer or invitation is not authorised; or (ii) in any jurisdiction in which the person making such offer or invitation is not qualified to do so; or (iii) to any person to whom it is unlawful to make such offer or invitation.

The distribution of this Prospectus and the offering of Shares in certain jurisdictions may be restricted. Accordingly, persons into whose possession this Prospectus comes are required to inform themselves about and observe any restrictions as to the offer or sale of Shares and the distribution of this Prospectus under the laws and regulations of any jurisdiction relevant to them in connection with any proposed applications for Shares, including obtaining any requisite governmental or other consent and observing any other formality prescribed in such jurisdiction.

Save for in the United Kingdom and save as explicitly stated elsewhere in this Prospectus, no action has been taken or will be taken in any jurisdiction by the Company that would permit a public offering of Shares in any jurisdiction where action for that purpose is required, nor has any such action been taken with respect to the possession or distribution of this Prospectus in any other jurisdiction where action for that purpose is required.

THE SCHEME SHARES ARE ONLY AVAILABLE TO ANW SHAREHOLDERS AND ARE NOT BEING OFFERED TO EXISTING SHAREHOLDERS OR TO THE PUBLIC.

Notice to prospective investors in the EEA

In relation to each EEA Member State, no Shares have been offered or will be offered pursuant to a Placing to the public in that EEA Member State prior to the publication of a prospectus in relation to the Shares which has been approved by the competent authority in that EEA Member State, or, where appropriate, approved in another EEA Member State and notified to the competent authority in that EEA Member State, all in accordance with the EU Prospectus Regulation, except that the Shares may be offered to the public in that EEA Member State at any time:

- (a) to any legal entity which is a qualified investor as defined in Article 2 of the EU Prospectus Regulation;
- (b) to fewer than 150 natural or legal persons (other than qualified investors as defined in the EU Prospectus Regulation) in that EEA Member State; or
- (c) in any other circumstances falling within Article 1(4) of the EU Prospectus Regulation,

provided that no such offer of Shares shall result in a requirement for the publication of a prospectus pursuant to Article 3 of the EU Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the EU Prospectus Regulation.

For the purposes of this provision, the expression an “offer to the public” in relation to any offer of Shares in any EEA Member State means a communication in any form and by any means of sufficient information on the terms of the offer and any Shares to be offered so as to enable an investor to decide to purchase or subscribe for the Scheme Shares.

Further, the AIFM has made the notifications or applications and received, where relevant, approvals for the marketing of the Shares to “professional investors” (as defined in the EU AIFM Directive) in the Republic of Ireland. Notwithstanding any other statement in this Prospectus, this Prospectus should not be made available to any investor domiciled in any EEA Member State. Prospective investors domiciled in the EEA that have received the Prospectus in any EEA Member States should not subscribe for Shares (and the Company reserves the right to reject any application so made, without explanation) unless: (i) the AIFM has confirmed that it has made the relevant notification or applications in that EEA Member State and is lawfully able to market Shares into that EEA Member State; or (ii) such investors have received the Prospectus on the basis of an enquiry made at the investor’s own initiative.

Notwithstanding that the AIFM may have confirmed that it is able to market Shares to professional investors in an EEA Member State, the Shares may not be marketed to retail investors (as this term is defined in the EU AIFM Directive as transposed in the relevant EEA Member State) in any EEA Member State unless the Shares have been qualified for marketing to retail investors in that EEA Member State in accordance with applicable local laws. At the date of the Prospectus, the Shares are not eligible to be marketed to retail investors in any EEA Member State. Accordingly, the Shares may not be offered, sold or delivered and neither the Prospectus nor any other offering materials relating to such Shares may be distributed or made available to retail investors in any EEA Member State.

Notice to prospective investors with respect to United States federal securities laws

The Company has not been and will not be registered under the US Investment Company Act and as such investors are not and will not be entitled to the benefits of the US Investment Company Act. The Scheme Shares and the Placing Shares have not been and will not be registered under the US Securities Act, or with any securities regulatory authority of any state or other jurisdiction of the United States, and may not be offered, sold, resold, pledged, delivered, assigned or otherwise transferred, directly or indirectly, into or within the United States or to, or for the account or benefit of, US Persons, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the US Securities Act and in compliance with any applicable securities laws of any state or other jurisdiction of the United States and in a manner which would not result in the Company being required to register under the US Investment Company Act. There has been and will be no public offer of the Scheme Shares and the Placing Shares in the United States.

In connection with the Issue, the Scheme Shares are being offered and sold only: (i) outside the United States in “offshore transactions” to non-US Persons pursuant to Regulation S; and (ii) to persons who are both Qualified Purchasers and Accredited Investors pursuant to an exemption from the registration requirements of the US Securities Act, and who, in the case of (ii), have executed the AI/QP Investor Letter and returned it to the Company and the Receiving Agent.

For further information on restrictions on transfers of the Placing Shares, please refer to the section entitled “*United States Transfer Restrictions*” at paragraph 10 of Part V (*The Placing Programme*) of this Prospectus.

In addition, until 40 days after the commencement of the Placing, an offer or sale of the Placing Shares within the United States by any dealer (whether or not participating in the Placing) may violate the registration requirements of the US Securities Act.

Forward-looking statements

This Prospectus includes statements that are, or may be deemed to be, “forward-looking statements”. These forward-looking statements can typically be identified by the use of forward-looking terminology, including, but not limited to, terms such as “believes”, “estimates”, “anticipates”, “expects”, “intends”, “may”, “will” or “should” or, in each case, their negative or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. They appear in a number of places in this Prospectus and include statements regarding the intentions, beliefs or current expectations of the Company, the Directors, the AIFM, or the Investment Manager concerning, amongst other things, the investment objective and investment policy, the Company’s target return, investment performance, results of operations, financial condition, prospects, and dividend policy of the Company and the markets in which it invests and/or operates.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Forward-looking statements are not guarantees of future performance. The Company’s actual investment performance, results of operations, financial condition, dividends paid and its financing strategies may differ materially from the impression created by the forward-looking statements contained in this Prospectus. In addition, even if the investment performance, results of operations, financial condition of the Company and its financing strategies, are consistent with the forward-looking statements contained in this Prospectus, those results, its condition or strategies may not be indicative of results, its condition or strategies in subsequent periods. Important factors that could cause these differences include, but are not limited to, the factors set out in the “*Risk Factors*” section of this Prospectus.

Given these uncertainties, prospective investors are cautioned not to place any undue reliance on such forward-looking statements. Prospective investors should carefully review the “*Risk Factors*” section of this Prospectus for a discussion of additional factors that could cause the Company’s actual results to differ materially from those that the forward-looking statements may give the impression will be achieved, before making an investment decision. Forward-looking statements speak only as at the date of this Prospectus. The Company, the AIFM, the Investment Manager and Shore Capital undertake no obligation to revise or update any forward-looking statements contained herein (save where required by the Prospectus Regulation Rules, the Listing Rules, UK MAR, EU

MAR, the Disclosure Guidance and Transparency Rules, the EU AIFM Directive or the UK AIFMD Laws), whether as a result of new information, future events, conditions or circumstances, any change in the Company's, the AIFM's or the Investment Manager's expectations with regard thereto or otherwise. However, Shareholders are advised to read any communications that the Company may make directly to them, and any additional disclosures in announcements that the Company may make through an RIS following the date of this document.

For the avoidance of doubt, nothing in the foregoing paragraphs under the heading "Forward-looking statements" constitutes a qualification of the working capital statement contained in Part VII (*Additional Information on the Company*) of this Prospectus.

Important note regarding performance data

This Prospectus includes information regarding the track record and performance data of the Investment Manager (the "**Track Record**"). Such information is not necessarily comprehensive and prospective investors should not consider such information to be indicative of the possible future performance of the Company or any investment opportunity to which this Prospectus relates. The past performance of the Investment Manager is not a reliable indicator of, and cannot be relied upon as a guide to, the future performance of the Company and/or the Investment Manager.

Investors should not consider the Track Record information (particularly the past returns) contained in this Prospectus to be indicative of the Company's future performance. Past performance is not a reliable indicator of future results and the Company will not make the same investments reflected in the Track Record information included herein. Prospective investors should be aware that any investment in the Company involves a significant degree of risk, and could result in the loss of all or substantially all of their investment.

For a variety of reasons, the comparability of the Track Record information to the Company's future performance is by its nature very limited. Without limitation, results can be positively or negatively affected by market conditions beyond the control of the Company or the Investment Manager which may be different in many respects from those that prevail at present or in the future, with the result that the performance of portfolios originated now may be significantly different from those originated in the past.

Prospective investors should consider the following factors which, among others, may cause the Company's results to differ materially from the historical results achieved by the Investment Manager, their Associates and certain other persons:

- some of the Track Record information included in this Prospectus was generated, where noted, in respect of different funds managed by the Investment Manager in different circumstances, and the people involved in managing those funds may differ from those who will manage the Company's investments;
- results can be positively or negatively affected by market conditions beyond the control of the Company and the Investment Manager;
- it is possible that the performance of the investment described in this Prospectus has been affected by exchange rate movements during the period of the investment;
- differences between the Company and the circumstances in which the Track Record information was generated include (but are not limited to) all or certain of: actual acquisitions and investments made, investment objective, fee arrangements, structure (including for tax purposes), terms, leverage, geography, performance targets and investment horizons. All of these factors can affect returns and impact the usefulness of performance comparisons and as a result, none of the historical information contained in this Prospectus is directly comparable to the Issue, the Placings or the returns which the Company may generate;
- the Company may be subject to taxes on some or all of their earnings in the various jurisdictions in which they invest. Any taxes paid or incurred by the Company and intermediate holding entities will reduce the proceeds available from the sale of an investment to make future investments or distributions and/or pay the expenses and other operating costs of the Company; and

- market conditions at the times covered by the Track Record may be different in many respects from those that prevail at present or in the future, with the result that the performance of portfolios originated now may be significantly different from those originated in the past. In this regard, it should be noted that there is no guarantee that these returns can be achieved or can be continued if achieved.

No representation is being made by the inclusion of the investment examples and strategies presented herein that the Company will achieve performance similar to the investment examples and strategies herein or avoid losses. There can be no assurance that the investment examples and strategies described herein will meet their objectives generally, or avoid losses. Past performance is no guarantee of future results.

UK AIFMD Laws and EU AIFM Directive disclosures

The UK AIFMD Laws and EU AIFM Directive impose conditions on the marketing of entities such as the Company to investors in the UK and the EEA, respectively. The UK AIFMD Laws and EU AIFM Directive require that an “alternative investment fund manager” be identified to meet such conditions where such marketing is sought. For these purposes, Aberdeen Standard Fund Managers Limited, as the legal person responsible for performing portfolio and risk management of the Company, shall be the AIFM. Disclosures required to be made by the AIFM under the UK AIFMD Laws and EU AIFM Directive are addressed within this Prospectus.

Information to distributors

Solely for the purposes of the product governance requirements contained within the FCA’s PROD3 Rules on product governance within the FCA Handbook (the “**FCA PROD3 Rules**”), and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any “manufacturer” (for the purposes of the FCA PROD3 Rules) may otherwise have with respect thereto, the Shares have been subject to a product approval process, which has determined that the Shares to be issued pursuant to the Issue and the Placings are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in the FCA Glossary; and (ii) eligible for distribution through all distribution channels as are permitted by the FCA PROD3 Rules (the “**Target Market Assessment**”).

Notwithstanding the Target Market Assessment, distributors should note that: (i) the price of the Shares may decline and investors could lose all or part of their investment; (ii) the Shares offer no guaranteed income and no capital protection; and (iii) an investment in the Shares is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses which may be equal to the whole amount invested from such an investment. Accordingly, typical investors in the Shares are expected to be institutional investors, private clients through their wealth managers, experienced investors, high net worth investors, professionally advised investors and knowledgeable unadvised retail investors who have taken appropriate steps to ensure that they understand the risks involved in investing in the Company. The Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Issue or any Placing. Furthermore, it is noted that, notwithstanding the Target Market Assessment, the Sponsor will only procure investors who meet the criteria of professional clients and eligible counterparties.

For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of the FCA PROD3 Rules; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the Shares.

Each distributor is responsible for undertaking its own Target Market Assessment in respect of the Shares when determining appropriate distribution channels.

Non-mainstream pooled investments status and UK MiFID Laws

As the Company is a closed-ended investment company which, if it were domiciled in the United Kingdom, would currently qualify as an investment trust (and the Company intends to obtain investment trust status), the Shares will be “excluded securities” under the FCA’s rules on non-

mainstream pooled investments. Accordingly, the promotion of the Shares is not subject to the FCA's restriction on the promotion of non-mainstream pooled investments. The Company intends to conduct its affairs so that its Shares can be recommended by financial advisers to retail investors in accordance with the rules on the distribution of financial instruments under the UK MiFID Laws. The Directors consider that the Shares should be considered "non-complex" for the purposes of the UK MiFID Laws.

UK PRIIPs Laws

In accordance with the UK PRIIPs Laws, a key information document in respect of an investment in the Shares has been prepared by the AIFM and is available to investors at the Company's website at www.aberdeenemergingmarkets.co.uk under "Key Literature". If a new class of Shares is issued under the Placing Programme, the Company will make available a key information document in relation to such class of Shares as required under UK PRIIPS Laws.

Data protection

The information that a prospective investor in the Company provides in documents in relation to a subscription for Shares or subsequently by whatever means which relates to the prospective investor (if it is an individual) or a third party individual ("**personal data**") is and will be held and processed by the Company (and any third party, functionary or agent in the United Kingdom or Guernsey to whom it may delegate certain administrative functions in relation to the Company) in compliance with the relevant data protection legislation and regulatory requirements of the United Kingdom or Guernsey (as applicable). Each prospective investor acknowledges and consents that such information will be held and processed by the Company (or any third party, functionary, or agent appointed by the Company) for the following purposes:

- verifying the identity of the prospective investor to comply with statutory and regulatory requirements in relation to anti-money laundering procedures;
- contacting the prospective investor with information about other products and services provided by the AIFM and the Investment Manager, or their respective Affiliates, which may be of interest to the prospective investor;
- carrying out the business of the Company and the administering of interests in the Company;
- meeting the legal, regulatory, reporting and/or financial obligations of the Company in the United Kingdom or elsewhere; and
- disclosing personal data to other functionaries of, or advisers to, the Company to operate and/or administer the Company.

Each prospective investor acknowledges and consents that where appropriate it may be necessary for the Company (or any third party, functionary or agent appointed by the Company) to:

- disclose personal data to third-party service providers, Affiliates, agents or functionaries appointed by the Company or its agents to provide services to prospective investors; and
- transfer personal data outside of the UK to countries or territories that do not offer the same level of protection for the rights and freedoms of prospective investors in the United Kingdom (as applicable).

If the Company (or any third party, functionary or agent appointed by the Company) discloses personal data to such a third party, functionary or agent and/or makes such a transfer of personal data it will use reasonable endeavours to ensure that any third party, functionary or agent to whom the relevant personal data is disclosed or transferred is contractually bound to provide an adequate level of protection in respect of such personal data.

Prospective investors are responsible for informing any third-party individual to whom the personal data relates as to the disclosure and use of such data in accordance with these provisions.

Defined terms

Capitalised terms contained in this Prospectus shall have the meanings ascribed to them in Part X (*Definitions*) of this Prospectus, save where the context indicates otherwise.

No incorporation of website

The contents of the Company's website at www.aberdeenemergingmarkets.co.uk and the Investment Manager's website at www.abrdn.com, the contents of any website accessible from hyperlinks on the Company's website, the Investment Manager's website, or any other website referred to in this Prospectus are not incorporated into, and do not form part of this Prospectus. Investors should base their decision to invest on the contents of this Prospectus and any supplementary prospectus published by the Company prior to Admission or any Subsequent Admission alone and should consult their professional advisers prior to making an application to acquire Shares.

PART I – INFORMATION ON THE COMPANY

1. INTRODUCTION

The Company is a non-cellular closed-ended investment company limited by shares, incorporated in Guernsey on 16 September 2009 with registration number 50900. The Company does not have a fixed life. The Company is an alternative investment fund or “AIF” for the purposes of the UK AIFMD Laws and EU AIFM Directive.

The Company is externally managed by Aberdeen Standard Fund Managers Limited (the “AIFM”), who has agreed to delegate its investment management responsibilities to abrdn Hong Kong Limited (the “Investment Manager”). Further details on the AIFM and the Investment Manager are set out in Part II (*Directors, Management and Administration*) of this Prospectus.

The Company’s investment objective and investment policy are set out below. The Company may make its investments either directly or through one or more wholly-owned subsidiary companies.

The Company ensures that it treats all holders of the same class of its Shares that are in the same position equally in respect of the rights attaching to those shares.

2. BACKGROUND

Since commencing operations, the Company has pursued an investment policy of investing in a range of emerging markets on a fund of funds basis. Whilst the Board believes that the Company’s investment performance has been very commendable over a long period of time, the attractiveness of the Company’s Shares has been adversely affected by the current aversion to fund of fund structures and consequent look-through costs, particularly amongst wealth managers. This has resulted in an overly concentrated share register with limited free float, which is presently calculated at approximately 16 per cent and is therefore below the usual minimum level of 25 per cent. The Company has liaised with the FCA in relation to this issue and the FCA has agreed to modify the relevant Listing Rule to continue to permit a reduced level of the Company’s Shares in public hands, for an initial period to 6 March 2022.

If the number of the Company’s Shares in public hands were to remain below 25 per cent. after 6 March 2022 and the FCA did not extend its modification of the relevant Listing Rule beyond this date, the FCA might cancel the listing of the Shares or the London Stock Exchange might suspend or terminate the trading of the Shares.

As a result of these factors and following consultation with Shareholders, the Board has proposed that the Company adopts a new investment policy (the “New Investment Policy”), which will change the Company’s current policy to one of investing directly in the equities of Chinese companies. The Board has noted that, although China now ranks as the second largest economy in the world, there are relatively few listed closed-ended fund offerings in the UK specialising in investment into companies based, or with substantial operations, in China. The New Investment Policy has been proposed to take advantage of this opportunity. Adoption of the New Investment Policy is subject to the approval of Shareholders at the Extraordinary General Meeting.

As the board of ANW, like that of the Company, has been considering a move to an ‘All China’ investment mandate, the boards of the two companies consider that it would be beneficial for both companies to combine and as such have agreed terms for the Scheme, which will involve the voluntary liquidation of ANW and the rollover of its assets into the Company in exchange for the issue of Scheme Shares to ANW Shareholders.

Following completion of the Scheme and the implementation of the New Investment Policy, the Board intends to seek further opportunities for growth of the Enlarged Company through holding Placings under the Placing Programme.

The Company has therefore published this Prospectus in connection with the proposed issue of Scheme Shares to ANW Shareholders pursuant to the Scheme and the issue of Placing Shares pursuant to Placings under the proposed Placing Programme.

Both the Scheme and the Placing Programme are conditional on, among other things, approval of the New Investment Policy by Shareholders at the Extraordinary General Meeting of the Company convened for 2 p.m. on 26 October 2021. Further details of the conditions attaching to the Scheme and each Placing are set out, respectively, in paragraph 5 of Part IV (*Details of the Scheme and the Issue*) and paragraph 2 of Part V (*The Placing Programme*) of this Prospectus.

3. INVESTMENT OBJECTIVE AND INVESTMENT POLICY

Potential investors should note that the below reflects the New Investment Policy proposed to be adopted at the Extraordinary General Meeting convened for 2 p.m. on 26 October 2021. Should the New Investment Policy not be approved, neither the Issue nor the Placing Programme will proceed and the Company will continue to pursue its existing investment policy.

Investment objective

To produce long-term capital growth by investing predominantly in Chinese equities.

Investment policy

The Company invests in companies listed, incorporated or domiciled in the People's Republic of China ("**China**"), or companies that derive a significant proportion of their revenues or profits from China operations or have a significant proportion of their assets there. In furtherance of the investment policy, the portfolio will normally consist principally of quoted equity securities and depositary receipts although unlisted companies, fixed interest holdings or other non-equity investments may be held. Investments in unquoted companies will be made where the Manager has a reasonable expectation that the company will seek a listing in the near future. The Portfolio is actively managed and may be invested in companies of any size and in any sector.

The Company is expected to have an ESG rating equal to, or better than, the MSCI China All Shares Index and have meaningfully lower carbon intensity than the Index.

The Portfolio is actively managed and the Company aims to outperform the MSCI China All Shares Index (GBP). This index is used as a reference point for portfolio construction and as a basis for setting risk constraints, but does not incorporate any sustainability criteria. In order to achieve its objective, the Company will take positions whose weightings diverge from the index or invest in securities which are not included in the index. Investments may deviate significantly from the components of, and their respective weightings in, the MSCI China All Shares Index. Due to the active nature of the management process, the Company's performance profile may deviate significantly from that of the index.

The Portfolio is expected normally to comprise between 30 and 60 securities (including any unlisted securities held) but may hold up to 100. No individual issuer will represent a greater weight in the Portfolio than the lower of (i) 10% or (ii) its weight in the MSCI China All Shares Index (in Sterling) plus 5%, as measured at the time of investment. The maximum permitted exposure to a single group is 20% of the Company's total assets, as measured at the time of investment.

The Company may continue to hold certain illiquid assets which were acquired prior to adoption of this policy pending their orderly disposal. These assets are not expected to represent a significant proportion of the portfolio.²

4. CHANGES TO INVESTMENT POLICY

No material change will be made to the Company's investment policy without prior approval by ordinary resolution of the Shareholders.

The Company intends to conduct its affairs so as to be eligible, at all times, to be an investment trust for the purposes of section 1158 CTA 2010. Any proposed changes to the Company's investment policy are also required to be notified to HMRC in advance of the filing date for the accounting period in which the investment strategy is revised (together with details of why the change does not impact the Company's status as an investment trust).

5. TARGET RETURN

The Company aims to outperform the MSCI China All Shares Index in GBP.

² As at the date of this Prospectus, 12.02 per cent. of the net assets of the Company consists of holdings where redemptions have been requested and payment may not be made prior to adoption of the New Investment Policy, but is expected prior to the end of December 2021. In addition, 0.40 per cent. of the net assets of the Company consists of holdings in funds that are in liquidation. Distributions in respect of these holdings will be received in due course, but the timeframe for such distributions is not known as at the date of this Prospectus.

The above should not be taken as an indication of the Company's expected future performance, return or results over any period and does not constitute a profit forecast. There is no assurance that the target return can or will be achieved. The actual return generated by the Company will depend on a wide range of factors including, but not limited to, general economic and market conditions in the PRC, the performance of Investee Companies and the markets in which they operate, fluctuations in currency exchange rates, the terms of the investments made and the other risks that are described more fully in this Prospectus, including in particular in the section entitled "*Risk Factors*". Accordingly, prospective investors should not place any reliance on the target return in deciding whether to invest in the Shares.

6. USE OF PROCEEDS

The Scheme Shares are being issued to ANW Shareholders in consideration for the transfer of the Rollover Pool to the Company. The Rollover Pool will consist of investments aligned with the New Investment Policy, cash and cash equivalents. Any cash in the Rollover Pool and any proceeds of the realisation of cash equivalents in the Rollover Pool will be used to acquire investments in accordance with the New Investment Policy.

The net cash proceeds of any Placings under the Placing Programme will be used to acquire investments in accordance with the New Investment Policy. The amount of any such net proceeds is not known as at the date of this Prospectus.

7. DIVIDEND POLICY

The Company's intention is to achieve its results primarily through capital appreciation. As such, no specific dividend policy has been established and any distributions will be made as required to maintain the Company's intended status as an investment trust under UK tax legislation and otherwise entirely at the discretion of the Board, subject to compliance with the solvency test prescribed by Guernsey law.

The Company intends to comply with the requirements for maintaining investment trust status for the purposes of section 1158 CTA 2010 regarding distributable income. The Company will therefore distribute its income such that it does not retain in respect of any accounting period an amount greater than 15 per cent. of its income (as calculated for UK tax purposes) for that period.

Details in relation to the taxation of dividends and distributions are set out in Part VI (*Taxation*) of this Prospectus.

8. SHARE PURCHASES AND BUYBACKS

On-market Share buybacks

The Board considers it desirable that the Company's Shares do not trade at a price which, on average, represents a discount that is out of line with the Company's direct peer group. To assist the Board in taking action to deal with a material and sustained deviation in the Company's discount from its peer group, it seeks authority from Shareholders annually to buy back Shares. Shares may be repurchased when, in the opinion of the Board and taking into account factors such as market conditions and the discounts of comparable companies, the Company's discount is higher than desired and Shares are available to purchase in the market. The Board is of the view that the principal purpose of share repurchases is to enhance NAV for remaining Shareholders, although it may also assist in addressing the imbalance between the supply of and demand for the Company's Shares and thereby reduce the scale and volatility of the discount at which the Shares trade in relation to the underlying NAV per Share.

The timing, price and volume of any buyback of Shares will be at the absolute discretion of the Directors and are subject to the Company having sufficient working capital for its requirements and surplus cash resources available. The acquisition of Shares pursuant to this authority is subject to compliance with the solvency test and any other relevant provisions of the Companies Law.

The Directors have been granted general authority to purchase in the market up to 14.99 per cent. of the number of Shares in issue at its last AGM held on 20 April 2021, with such authority expiring at the conclusion of the Company's AGM to be held in respect of the year ending 31 October 2022. The Directors intend to seek annual renewal of this authority from the Shareholders at each AGM of the Company, although the Directors also intend to seek renewal of such authority at the

Extraordinary General Meeting on 26 October 2021. If the relevant resolution is approved by Shareholders at the Extraordinary General Meeting, the Directors will have general authority to make market purchases of up to 14.99 per cent. of the issued ordinary share capital of the Company (excluding treasury shares) immediately following completion of the Scheme.

In the event that the Board decides to repurchase Shares, purchases will only be made through the market for cash at prices (after taking account of all commissions, costs and expenses of the purchases) not exceeding the last reported Net Asset Value per Share.

Shareholders and prospective Shareholders should note that such repurchases of Shares by the Company are entirely discretionary and will not be on a *pro rata* basis. No expectation or reliance should be placed on the Directors exercising such discretion on any one or more occasions.

The Tender Offer and future performance linked tender offer

Prior to the Issue and the Scheme becoming effective (and conditional on the relevant Resolution being passed at the Extraordinary General Meeting of the Company convened for 26 October 2021), the Board intends to implement the Tender Offer to enable Shareholders to tender all or part of their Ordinary Shares for cash at a tender price equal to the FAV per Ordinary Share less 2 per cent., and subject to a maximum of 15 per cent. in aggregate of the Ordinary Shares in issue (excluding treasury shares) at the relevant time. To the extent that other Shareholders do not elect to exit up to 15 per cent. of their shareholding, those Shareholders who have elected to exit in excess of 15 per cent. of their shareholding will have their excess election satisfied on a *pro rata* basis, subject to the overall aggregate cap of 15 per cent. of the Ordinary Shares in issue.

In addition, the Board intends that if the Company's NAV total return over five years ending December 2026 does not exceed the total return of the MSCI China All Shares Index (in Sterling terms), the Company will undertake a tender offer for up to 25 per cent. of the Company's issued share capital (excluding any Shares held in treasury). Any such tender offer will be conditional on the passing of the Resolutions at the EGM and will be at a price equal to the then prevailing FAV per Share less two per cent.

Treasury Shares

Shares purchased by the Company may be cancelled or held in treasury (or a combination of both). Any Shares held in treasury may be subsequently cancelled or sold for cash. The sale of Shares from treasury will be subject to the Articles and the provisions relating to rights of pre-emption contained therein, further details of which are referred to in the section entitled "*Share issuance*" below. Further, such sales will not be at a price per Share which would be less (after taking account of all commissions, costs and expenses of such sale) than the last reported Net Asset Value per Share at the relevant time plus issue expenses.

9. FURTHER ISSUES OF SHARES

There are no provisions of Guernsey law which confer rights of pre-emption in respect of the issue of Shares. The Articles do, however, contain pre-emption rights in relation to the issue of Shares for cash.

Pursuant to a special resolution of the Shareholders dated 20 April 2021, the Directors have authority to allot, without regard to the pre-emption rights contained in the Articles or otherwise, up to 2,298,257 Shares. The authority lasts until the conclusion of the AGM to be held in 2022 and the Company has so far not issued any Shares thereunder. To the extent that the authority is used in full before the end of such period, the Company may convene a general meeting to refresh the authority, or it may refresh the authority at an AGM, and then renew such authority at each subsequent AGM of the Company.

In addition, at the Extraordinary General Meeting of the Company convened for 26 October 2021, the Directors will seek approval from Shareholders for a further disapplication of pre-emption rights in respect of the maximum number of 25 million Placing Shares to be issued pursuant to the Placing Programme. This further disapplication of pre-emption rights will be restricted to use only in connection with the Placing Programme and will therefore expire on 3 October 2022, being the latest date on which Shares can be issued pursuant to the Placing Programme.

Further issues of Shares will only be made if the Directors determine such issues to be in the best interests of Shareholders and the Company as a whole. Relevant factors in making such determination include the Company's performance, the discount/premium at which the Shares trade to the prevailing Net Asset Value per Share, perceived investor demand and investment opportunities. Shares will only be issued at prices per Share which, after taking into account any placing commission and expenses payable in respect of such issues, are not less than the last reported Net Asset Value per Share plus issue expenses.

Application will be made for any Shares issued by the Company to be admitted to listing on the Official List of the FCA and to trading on the premium segment of the Main Market.

10. NET ASSET VALUE CALCULATION AND PUBLICATION

The Net Asset Value is the value of all assets of the Company less liabilities (including provisions for such liabilities). The Net Asset Value per Share is the Net Asset Value attributable to the Shares divided by the number of Shares in issue at the relevant time (excluding any Shares held in treasury).

An unaudited Net Asset Value will be calculated in Sterling by the UK Administration Agent and issued by the Administrator on a daily basis, as described below. These will be notified on each Business Day through a RIS and will also be published on the Company's website at www.aberdeenemergingmarkets.co.uk.

The Company's investments are valued on the basis of the following valuation methodologies:

- investments quoted or dealt on recognised stock exchanges in an active market are valued by reference to their market bid prices;
- investments other than those in (i) above which are dealt on a trading facility in an active market are valued by reference to broker bid price quotations, if available, for those investments;
- investments in underlying funds, which are not quoted or dealt on a recognised stock exchange or other trading facility or in an active market, are valued at the net asset values provided by such entities or their administrators. These values may be unaudited or may themselves be estimates and may not be produced in a timely manner. If such information is not provided, or is insufficiently timely, the Investment Manager uses appropriate valuation techniques to estimate the value of investments. In determining the fair value of such investments, the Investment Manager takes into consideration the relevant issues, which may include the impact of suspension, redemptions, liquidation proceedings and other significant factors. Any such valuations are assessed and approved by the Directors. The estimates may differ from actual realisable values;
- investments which are in liquidation are valued at the estimate of their remaining realisable value;
- any other investments are valued at the Directors' best estimate of fair value;
- monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated into Sterling at the spot exchange rate at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value through profit or loss are retranslated into Sterling at the exchange rate at the date that the fair value was determined. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated into Sterling using the exchange rate at the date of the transaction; and
- at the reasonable discretion of the Directors, if the methods above are not available or an alternate method is considered to be a more accurate reflection of the fair value of any asset or liability, the Directors of the Company may in their reasonable discretion permit such an alternative method of valuation to be used to calculate Net Asset Value.

The Directors may temporarily suspend the calculation and publication of the Net Asset Value during a period when, in the Board's opinion:

- there are political, economic, military or monetary events or other extreme circumstances which are outside the control, responsibility or power of the Directors and which have either or both of the following effects: (i) disposal or valuation of investments of the Company, or other transactions in the ordinary course of the Company's business, would not be reasonably practicable without material detriment to the interests of Shareholders; and (ii) in the opinion of the Directors, the Net Asset Value cannot be fairly calculated;
- there is a breakdown of the means of communication which are normally employed in calculating or publishing the Net Asset Value; or
- it is not reasonably practicable to determine or publish the Net Asset Value on an accurate and timely basis.

To the extent that the Articles require a suspension in the calculation of the Net Asset Value, the suspension will be notified through a RIS as soon as practicable after the suspension occurs.

As at 29 September 2021 (being the date of the Company's most recently published NAV prior to the date of this Prospectus), the estimated, unaudited NAV of the Company was £371.4 million and the Net Asset Value per Share was 808.05p.

11. MEETINGS, REPORTS AND ACCOUNTS

The Company held its last AGM on 20 April 2021 and will hold an AGM in April 2022 and each year thereafter. The annual report and accounts of the Company are made up to 31 October in each year, with copies expected to be sent to Shareholders within the following four months. The Company also publishes unaudited interim reports to 30 April each year. The Company's financial statements are prepared in Sterling in accordance with IFRS.

The Company's audited annual report and accounts for the period from 1 November 2019 to 31 October 2020 were published on 18 February 2021 and are available on the Company's website. For the avoidance of doubt, such website and its contents are not incorporated by reference into this Prospectus. The Company's next annual report will be prepared to 31 October 2021.

Any ongoing disclosures required to be made to Shareholders pursuant to the UK AIFMD Laws will (where applicable) be contained in the Company's periodic or annual reports or on the Company's website, or will be communicated to Shareholders in written form as required.

12. TAXATION

Potential investors are referred to Part VI (*Taxation*) of this Prospectus for details of the taxation of the Company and of Shareholders in Guernsey, the UK and the US.

Shareholders considering disposing of their Shares are advised to consider their investment objectives and their own individual financial and tax circumstances. Shareholders who are in any doubt as to their tax position should seek professional advice from their own adviser.

13. REGULATORY ENVIRONMENT

The Company, as a Guernsey-incorporated closed-ended investment company trading on the premium segment of the Main Market, is subject to laws, regulations and rules in such capacity, including, whether directly or indirectly, the Prospectus Regulation Rules, the Disclosure Guidance and Transparency Rules, UK MAR, the UK AIFMD Laws, the UK PRIIPs Laws, the AIC Code, the Registered Collective Investment Scheme Rules 2018 and the Companies Law. The Company is subject also to the continuing obligations imposed on all investment companies whose shares are admitted to trading on the premium segment of the Main Market set out in the Admission and Disclosure Standards published by the London Stock Exchange in force from time to time.

Together, these rules, regulations and laws govern the way that, amongst other things, the Company can be operated (e.g. its governance), how its Shares can be marketed, and how it must deal with its Shareholders, together with requiring the Company to make certain reports, filings and notifications.

The AIFM is subject to, and will be required to comply with, certain regulatory requirements of the FCA, some of which affect the management of the Company.

As the Company will invest predominantly in companies which: (i) are incorporated or domiciled; (ii) which derive a significant proportion of their revenues or profits from operations from; or (iii) which have a significant proportion of their assets in the PRC, the Investee Companies and the Company's investments in them will be subject to the Chinese regulatory environment (for further details, please see the risk factor entitled "*Risks associated with investments in the People's Republic of China*" in the section entitled "*Risk Factors*" of this Prospectus).

The rules, laws and regulations affecting the Company, the AIFM, the Investment Manager and/or the Investee Companies are evolving and any changes in such rules, laws and regulations may have an adverse effect on the ability of the Company, the AIFM, the Investment Manager and/or the Investee Companies to carry on their respective businesses.

PART II – MARKET OPPORTUNITY AND STRATEGY

1. MARKET OPPORTUNITY

Why China?

China's equity markets have grown into the second largest financial market in the world, after the US. This is a US\$17 trillion market that is both deep and liquid. There are more than 5,000 Chinese companies listed onshore in mainland China and offshore, mostly in Hong Kong and the US, presenting vast opportunity.

Chinese markets are also becoming large and growing components of major global indices. For instance, Chinese equities now make up 33% of the MSCI Emerging Markets Index. If China A Shares were included fully (from the current 20%), this would push the overall weighting of Chinese equities to 53%.

A big driver of growth has been the Stock Connect programme, which was launched in 2014. This opened direct trading links connecting Shanghai and Shenzhen with Hong Kong, making A Shares more accessible to institutional investors outside the mainland. These days, any investor with a brokerage account in Hong Kong can invest in over 2,000 companies listed in Shenzhen and Shanghai. Two-way investor flows between mainland China and Hong Kong have flourished as a result.

Another draw is the low correlation between Chinese equities and other asset classes. In other words, A Shares provide a great opportunity to diversify portfolio risk and potentially enhance returns.

Investing in both the onshore and offshore markets offers an extensive range of opportunities in these markets. With the onshore market, investors gain greater exposure to unique sectors such as baijiu (a popular liquor), as well as the faster growing new economy ones like electric vehicles and batteries, specialist technology and niche industrial areas. As for the offshore market, investors gain more access to internet and e-commerce companies, along with investment opportunities in telecoms.

More broadly, China's financial reforms continue to improve the accessibility and liquidity of the domestic market. With more international investors' participation in the A-share market, it could shine a light on global best practice and help to raise governance standards of local companies over time.

Why now?

abrdn sees tremendous opportunity in China, and the portfolio is well positioned to capitalise on key areas of structural growth.

- **Aspiration:** As incomes increase and living standards improve in China, rising affluence is leading to fast growth in premium, or higher value, goods and services in areas including cosmetics, travel and food and beverage. The consumer story is attractive because boosting domestic spending forms a central component of China's reform agenda.
- **Digital:** Growing integration amid the widespread adoption of technology means a bright future for plays on e-commerce, cybersecurity and data centres supporting cloud services.
- **Green:** Policy makers globally are committing to a greener and lower carbon world and China is expected to have a transformational role to play. Investments in renewable energy, batteries, electric vehicles, related infrastructure, and environmental management all have a bright future. Grid parity will be game-changing.
- **Health:** Rising disposable incomes are driving demand for healthcare products and services. The opportunity set is diverse. The proposed holdings include a leading hospital, contract research providers and an internet healthcare platform.
- **Wealth:** Growing prosperity means structural growth for consumer finance, such as wealth management and insurance protection, as well as increasing investor participation on stock exchanges.

In China, standards of disclosure, reporting and access to management are increasingly moving towards international norms. Many Chinese companies are also moving up the quality curve steadily. China is already the leading global manufacturer of solar panels and wind turbines.

This quality aspect extends to the environment, social and governance (ESG) front as well. abrdn is finding that more and more Chinese companies are beginning to understand and appreciate the importance of, and value that can be created by, engaging with long-term investors and becoming more cognisant of ESG issues. Increasingly they are aware of their carbon footprint. They are realising that implementing sustainable practices can improve brand perception, customer loyalty and, ultimately, the share price. It can also help to guard against catastrophes that can have legal ramifications. abrdn is also engaging companies on social factors, such as how they interact with employees, vendors and society, explaining how supporting employee well-being can lead to a more productive workforce and help them to recruit and retain talent.

In all this, abrdn remains positive about the long-term prospects for Chinese equities and believes the private sector retains a critical role in ensuring that the Chinese economy continues to innovate and prosper and that China reaches its goal of being a moderately prosperous nation by 2035.

2. INVESTMENT STRATEGY

The Company invests in companies listed, incorporated or domiciled in the People's Republic of China ("China"), or companies that derive a significant proportion of their revenues or profits from China operations or have a significant proportion of their assets there. In furtherance of the investment policy, the Portfolio will normally consist principally of quoted equity securities and depositary receipts although unlisted companies, fixed interest holdings or other non-equity investments may be held. Investments in unquoted companies will be made where the Investment Manager has a reasonable expectation that the company will seek a listing in the near future. The Portfolio is actively managed and may be invested in companies of any size and in any sector.

The Company is expected to have an ESG rating equal to, or better than, the MSCI China All Shares Index and have meaningfully lower carbon intensity than the Index.

The Portfolio is actively managed and the Company aims to outperform the MSCI China All Shares Index (GBP). This index is used as a reference point for portfolio construction and as a basis for setting risk constraints, but does not incorporate any sustainability criteria. In order to achieve its objective, the Company will take positions whose weightings diverge from the index or invest in securities which are not included in the index. Investments may deviate significantly from the components of, and their respective weightings in, the MSCI China All Shares Index. Due to the active nature of the management process, the Company's performance profile may deviate significantly from that of the index.

The Portfolio is expected normally to comprise between 30 and 60 securities (including any unlisted securities held) but may hold up to 100. No individual issuer will represent a greater weight in the Portfolio than the lower of (i) 10% or (ii) its weight in the MSCI China All Shares Index (in Sterling) plus 5%, as measured at the time of investment. The maximum permitted exposure to a single group is 20% of the Company's total assets, as measured at the time of investment.

The Company may continue to hold certain illiquid assets which were acquired prior to adoption of this policy pending their orderly disposal. These assets are not expected to represent a significant proportion of the portfolio.

Risk Management

The Company will at all times be invested in several sectors. While there are no specific limits placed on exposure to any one particular sector, the Company will at all times invest and ensure that the Portfolio is managed in a manner consistent with spreading investment risk.

The Company may invest in unquoted securities and/or securities with lock-up periods provided that such investments, in aggregate, are limited to 10% of the Company's net assets at the time any such investment is made.

With prior approval of the Board, the Company may use derivatives for the purposes of efficient portfolio management in order to reduce, transfer or eliminate investment risk in the Company's portfolio. Derivative instruments in which the Company may invest may include foreign exchange forwards, exchange-listed and over-the-counter options, futures, options on futures, swaps and similar instruments. The Company does not intend to enter into derivative or hedging transactions to mitigate against wholesale general currency or interest rate risk.

The Company may invest no more than 10% in aggregate, of its gross asset value at the time of acquisition in other listed closed-ended investment funds, but this restriction will not apply to investments in such funds which themselves have stated investment policies to invest no more than 15% of their gross asset value in other closed-ended investment funds.

Gearing

The Company may employ gearing and may in aggregate borrow amounts equalling up to 20% of gross asset value, although the Board expects that borrowings will typically not exceed 15% of gross asset value at the time of drawdown.

While it is intended that the Company will be fully invested in normal market conditions, the Company may hold cash on deposit or invest on a temporary basis in a range of cash equivalent instruments. There is no restriction on the amount of cash or cash-equivalent instruments that the Company may hold.

3. INVESTMENT HIGHLIGHTS

The Investment Manager believes that the principal attributes and strengths of the proposed New Investment Policy and its investment process can be summarised in the following table:

Market leading resources in Chinese Equities

The Investment Manager has a very experienced and successful Chinese equities investment team with members based in Singapore, Hong Kong and Shanghai. abrdn has been investing in Chinese Equities since 1992 and has a team-based approach to investing. Its dedicated Chinese Equities team is well-resourced and benefits from being part of a broader Asia Pacific, Emerging Markets and Global Equity franchise.

Fully integrated ESG analysis

abrdn places constructive engagement and environmental, social and governance (ESG) risk considerations at the heart of all company research, ensuring that it is a responsible steward of its clients' assets. abrdn believes that this approach can mitigate risks and actively enhance returns for clients over the long term.

ESG considerations are key to and fully integrated into the investment process:

- **Financial Returns:** ESG factors can be financially material – the level of consideration they are given in a company will ultimately have an impact on corporate performance, either positively or negatively. Those companies that take their ESG responsibilities seriously tend to outperform those that do not over the longer term.

- **Fuller Insight:** Systematically assessing a company's ESG risks and opportunities alongside other financial metrics allows the Investment Manager to make more insightful investment decisions.
- **Corporate Advancement:** Informed and constructive engagement helps foster improved companies, protecting and enhancing the value of the Company's investments.

World class research platform

abrtn believes that fundamental company research is the key to unlocking investment insights that drive investment returns in client portfolios. Its research platform brings together equity research on a global basis with insights from its credit and ESG teams. abrtn's large scale allows for broad market coverage, strong analytical capability and proactive corporate engagement.

A strong culture of collaboration

Conviction is built through idea sharing, peer review and effective debate. The Investment Manager seeks to build high conviction portfolios where stock-specific insights drive performance, giving clients direct access to best investment ideas.

4. TRACK RECORD

As the Board is proposing that the Company's investment objective and mandate be changed to primarily investing in Chinese equities in accordance with the New Investment Policy, the track record of the Company as it has been managed in accordance with its existing investment policy is not relevant to its future performance. However, the members of the investment management team selected by abrtn to manage the Company's portfolio in accordance with the New Investment Policy have extensive experience of investing in the region and are responsible for various funds that employ the same process. The track records of comparable funds are shown below.

The AIFM has prepared a key information document as required under the UK PRIIPs Laws. Those laws require costs to be calculated and presented in accordance with detailed and prescriptive rules. If the Board requests one or more of the Directors to perform services outside of those considered to be ordinary course on behalf of the Company, the Board may determine that additional remuneration may be paid to the Director or Directors.

Management Fee

Following completion of the Scheme, the annual management fee payable by the Company to the AIFM (the "**Management Fee**") will be calculated on a tiered basis by reference to the market capitalisation of the Company, with the first £150 million of market capitalisation being charged at 0.80 per cent., the next £150 million being charged at 0.75 per cent. and amounts thereafter being charged at 0.65 per cent.

The AIFM has agreed to make a contribution to the costs of implementing the Proposals by means of a waiver of the Management Fee otherwise payable by the Company to the AIFM for the first six months following the completion of the Scheme.

All fees are exclusive of VAT.

Registrar Fees

Under the terms of the Offshore Registrar Agreement, the Registrar is entitled to an annual maintenance fee per Shareholder account, which is subject to an annual minimum charge. These fees are subject to review by the Registrar in its absolute discretion not more than once per calendar year and to a minimum annual increase at the rate of the Retail Prices Index prevailing at the time. PART IV – DETAILS OF THE SCHEME AND THE ISSUE

1. THE SCHEME

The Scheme Shares are only available to ANW Shareholders under the Scheme and are not being offered to Existing Shareholders or to the public.

The Scheme Shares are being offered or sold only (i) outside the United States in “offshore transactions” to non-US Persons pursuant to Regulation S under the US Securities Act, and (ii) to persons who are both Qualified Purchasers and Accredited Investors pursuant to an exemption from the registration requirements of the US Securities Act, and who, in the case of (ii), have executed the AI/QP Investor Letter and returned it to the Company and the Receiving Agent. For further information on US restrictions on offers, sales and transfers of the Scheme Shares, please refer to paragraph 8 below.

The Issue is being undertaken pursuant to a proposed scheme of reconstruction under section 110 of the Insolvency Act 1986, which the Board of ANW has resolved to recommend to ANW Shareholders. The rationale for the Issue and the Scheme is to seek to provide ANW Shareholders with the opportunity (in light of ANW’s continued underperformance) to gain exposure to investment in Chinese equities through a larger more liquid vehicle (as further described in paragraph 2 of Part I (*Information on the Company*) and Part II (*Market Opportunity and Strategy*) of this Prospectus).

The Scheme is subject to, amongst other conditions, its approval by ANW Shareholders at the ANW General Meetings.

Under the Scheme, ANW will be put into liquidation and its assets split into the following three pools:

- (i) the pool of cash, undertaking and other assets to be established under the Scheme and to be transferred to the Company pursuant to the Transfer Agreement (the “**Rollover Pool**”);
- (ii) the fund comprising the pool of assets attributable to the shares of exiting ANW Shareholders (the “**Cash Pool**”); and
- (iii) the pool of cash and other assets to be retained by the Liquidators to meet all known and unknown liabilities of ANW and other contingencies (the “**Liquidation Pool**”).

ANW Shareholders will be entitled to elect for either or both of two options in respect of all or part of their holding of shares in ANW, being:

- a) to receive the Scheme Shares to be issued by the Company to ANW Shareholders (the “**Rollover Option**”); and/or
- b) to receive cash distributions out of the Cash Pool at a discount of 2 per cent. to the aggregate FAV (as defined in paragraph 2 below) of the ANW Shares in respect of which they make such election (the “**Cash Option**”).

The Cash Option shall be limited to 15 per cent. of the ANW Shares in issue (excluding treasury shares) on the Calculation Date and aggregate elections for the Cash Option in excess of this number will be scaled back on a *pro rata* basis. To the extent that other ANW Shareholders do not elect to exit 15 per cent. of their shareholding, those ANW Shareholders who have elected to exit in excess of 15 per cent. of their shareholding will have their excess election satisfied on a *pro rata* basis, subject to the overall aggregate cap of 15 per cent. of the ANW Shares in issue on the Calculation Date.

ANW Shareholders will be deemed to have elected to take part in the Rollover Option as the default option in the event that they do not make a formal election under the Scheme or to the extent elections for the Cash Option in excess of 15 per cent. of ANW Shareholders’ holdings are scaled back as a result of the Cash Option being oversubscribed.

As a result of the Scheme the total assets of the Company, and therefore its issued share capital, will increase, and the resulting improvement in liquidity should benefit all Shareholders. In addition, the fixed costs of the Company will be spread over a larger pool of assets, resulting in a lower ongoing charges ratio.

The transfer of the Rollover Pool to the Company will be implemented in accordance with the terms of the Transfer Agreement dated 4 October 2021 between the Company, ANW, the Liquidators and

the AIFM. Further details of the Transfer Agreement are provided in paragraph 12.8 of Part VII (*Additional Information on the Company*) of this Prospectus.

In advance of the transfer of the Rollover Pool, ANW and/or the AIFM (or their agents) will have realised or realigned the undertaking and business carried on by ANW in accordance with the Scheme so that ANW will hold, in addition to assets destined to become the Cash Pool and the Liquidation Pool, investments suitable for transfer to the Company under the Transfer Agreement. The Rollover Pool will therefore consist of investments aligned with the New Investment Policy, cash and cash equivalents.

2. DETAILS OF THE ISSUE

The number of Scheme Shares to be issued to ANW Shareholders will be based on the formula asset values (“FAVs”) of the Company and of ANW. FAVs will be calculated based on the Net Asset Values (cum income, debt at fair value) of a Share (the “FAV per Share”) and of an ANW Share (the “FAV per ANW Share”). The FAV per Share and the FAV per ANW Share will be calculated as at 6.00 p.m. on the Calculation Date using each company’s respective accounting policies and will take into account the following adjustments:

- the FAV per Share will be adjusted to take into account: (i) the costs and expenses of the Proposals; (ii) any dividends of the Company to which ANW Shareholders who elect for the Rollover Option will not be entitled; and (iii) the benefit to Shareholders who do not tender their Shares pursuant to the Tender Offer of the two per cent. discount applied under the Tender Offer; and
- the FAV per ANW Share will be adjusted to take into account: (i) the costs and expenses of the Scheme; (ii) a pre-liquidation dividend to be paid to ANW Shareholders to reflect a distribution of a majority of ANW’s revenue reserve; (iii) subject to the requirements of the Liquidators, the withholding of an amount (not expected to exceed £100,000) in respect of the Liquidation Pool; (iv) the write down of any remaining illiquid investments; and (v) the benefit to continuing ANW Shareholders of the two per cent. discount applied under the Cash Option.

ANW Shareholders who elect for the Rollover Option will be issued Scheme Shares based on the ratio of the FAV per Share to the FAV per ANW Share, multiplied by the number of ANW Shares owned.

Fractional entitlements to Scheme Shares will not be issued and entitlements will be rounded down to the nearest whole number. No cash payment shall be made or returned in respect of any fractional entitlements which will be retained for the benefit of the Company.

The number of Scheme Shares to be issued pursuant to the Scheme, the FAV per Share and the FAV per ANW Share will be announced through a Regulatory Information Service as soon as practicable following the Calculation Date. The Issue is not being underwritten.

For illustrative purposes only, had the Calculation Date been 29 September 2021, the FAV per Share and FAV per ANW Share would have been 808.81 pence and 454.97 pence, respectively. As at the same date, the closing share prices for the Shares and the ANW Shares were 726 pence and 437 pence respectively. Assuming maximum take-up under the Cash Option and the Tender Offer, the Issue would have resulted in the issue of 7,643,782 Scheme Shares to ANW Shareholders, representing approximately 16.4 per cent. of the issued ordinary share capital of the Enlarged Company (excluding treasury shares).

3. DILUTION IN CONNECTION WITH THE ISSUE

For illustrative purposes only, had the Calculation Date been 29 September 2021, assuming maximum take-up under the Cash Option and the Tender Offer, the Shares held by Existing Shareholders would have represented approximately 83.6 per cent. of the ordinary share capital of the Enlarged Company immediately following completion of the Scheme and on that basis Existing Shareholders would have their percentage shareholding diluted by approximately 16.4 per cent.

4. THE SCHEME SHARES

The Scheme Shares are ordinary shares in the Company and will rank *pari passu* in all respects with the existing issued Shares.

The attention of ANW Shareholders is drawn to paragraph 8 of Part V (*The Placing Programme*) of this Prospectus, which provides further details of the legal implications of an investment in the Company's Shares.

5. CONDITIONS OF THE ISSUE

The Issue is conditional upon:

- (i) adoption of the New Investment Policy at the Extraordinary General Meeting of the Company (see paragraph 21 of Part VII (*Additional Information on the Company*) of this Prospectus);
- (ii) passing of the resolutions to approve the Scheme at the general meetings of ANW Shareholders and the Scheme becoming unconditional;
- (iii) the directors of ANW resolving to proceed with the Scheme; and
- (iv) admission of the Scheme Shares to the Official List with a Premium Listing and to trading on the Main Market of the London Stock Exchange.

Unless the conditions referred to above have been satisfied or, to the extent permitted, waived on or before 31 December 2021, no part of the Proposals will become effective and the Scheme Shares will not be issued.

If, within seven days of the passing of the special resolutions to be proposed at the First ANW General Meeting (or any adjournment thereof), dissenting shareholders of ANW validly exercise the right under Section 111(2) of the Insolvency Act 1986 in respect of more than 2 per cent. of the ANW Shares, the directors of ANW (or a duly authorised committee thereof) may, but shall not be obliged to, resolve not to proceed with the Scheme. Any such resolution by the directors of ANW (or a duly authorised committee thereof) shall only be effective if passed prior to the passing of the special resolution for winding-up ANW to be proposed at the Second ANW General Meeting (or any adjournment thereof).

6. COSTS AND EXPENSES OF THE PROPOSALS

Each of the Company and ANW intends to bear its own costs and expenses incurred in relation to the Proposals, which will be reflected in the FAV per Share and the FAV per ANW Share. Any costs of realignment or realisation of the ANW Portfolio prior to the Scheme becoming effective will be borne by ANW and any stamp or other transaction taxes or investment costs incurred by the Company for the acquisition of the ANW Portfolio or the deployment of the cash therein upon receipt shall be borne by the Enlarged Company. As at the date of this Prospectus, the amount of costs and expenses that will be borne by the Company is not expected to exceed £0.9 million.

Furthermore, the AIFM will make a cost contribution to the costs of the Proposals comprising a waiver of the Management Fee chargeable for the first six months following the completion of the Scheme, which will be for the benefit of all Shareholders of the Enlarged Company. The AIFM has also agreed to waive this fee for a 12 month period following the implementation of the Proposals.

7. ADMISSION AND DEALINGS

Applications will be made to the FCA for the Scheme Shares to be admitted to the premium segment of the Official List and to the London Stock Exchange for the Scheme Shares to be admitted to trading on the premium segment of the Main Market. If the Proposals become effective, it is expected that the Scheme Shares will be admitted to the Official List on, and the first day of dealings in such shares on the Main Market will be, 10 November 2021.

8. OVERSEAS ANW SHAREHOLDERS

The terms of the Proposals, as they relate to Overseas ANW Shareholders, may be affected by the laws of the relevant jurisdiction. Overseas ANW Shareholders should inform themselves about, and observe, any applicable legal requirements.

It is the responsibility of Overseas ANW Shareholders to satisfy themselves as to the full observance of the laws of the relevant jurisdiction in connection with the Proposals, including the obtaining of any governmental or other consents which may be required, compliance with necessary formalities and the payment of any issue, transfer or other taxes due in such jurisdiction.

Overseas ANW Shareholders should note, however, that if they have a registered address in a Restricted Territory, they are not meant to receive this document relating to the Proposals, and will in accordance with the arrangements below, receive cash in ANW's liquidation.

Any Scheme Shares allotted to the Liquidators and which would otherwise be issued to an Excluded ANW Shareholder pursuant to the Scheme will instead be issued to the Liquidators as nominees on behalf of such Excluded ANW Shareholder who will arrange for such shares to be sold promptly by a market maker (without regard to the personal circumstances of the relevant Excluded ANW Shareholders and the value of the ANW Shares held by the relevant Excluded ANW Shareholders), in circumstances in which the Liquidators and/or the Company acting reasonably consider that notwithstanding that Excluded ANW Shareholder's entitlement to such Scheme Shares under the Scheme, any such issue of Scheme Shares to those ANW Shareholders would or may involve a breach of the securities laws or regulations of any jurisdiction, or if the Liquidators and/or the Company reasonably believes that the same may violate any applicable legal or regulatory requirements or may require the Company to become subject to additional regulatory requirements (to which it would not be subject but for such issue) and the Liquidators and/or the Company, as the case may be, have not been provided with evidence reasonably satisfactory to them that the relevant Excluded ANW Shareholders are permitted to hold Scheme Shares under any relevant securities laws or regulations of such overseas jurisdictions (or that the Company would not be subject to any additional regulatory requirements to which it would not be subject but for such issue). The net proceeds of such sales (after deduction of any costs incurred in effecting such sales) will be paid to the relevant Excluded ANW Shareholders entitled to them as soon as reasonably practicable, and in any event no later than 14 calendar days after the date of sale.

Overseas ANW Shareholders who are subject to taxation outside of the United Kingdom should consult their tax adviser as to the tax effect of the Proposals on them.

The Scheme Shares have not been and will not be registered under the US Securities Act or the securities laws of any state or other jurisdiction of the United States, and the Scheme Shares may not be offered, sold, pledged or otherwise transferred within the United States, or to or for the benefit of US Persons, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the US Securities Act. The Company is not, and does not intend to be, registered under the US Investment Company Act and investors in the Scheme Shares are not, and will not be, entitled to the benefits of the US Investment Company Act. There has been and will be no public offer of the Scheme Shares in the United States.

In connection with the Issue, the Scheme Shares are being offered or sold only (i) outside the United States in "offshore transactions" to non-US Persons pursuant to Regulation S under the US Securities Act, and (ii) to persons who are both Qualified Purchasers and Accredited Investors pursuant to an exemption from the registration requirements of the US Securities Act, and who, in the case of (ii), have executed the AI/QP Investor Letter and returned it to the Company and the Receiving Agent. Any person that does not execute and return the AI/QP Investor Letter to the Company and the Receiving Agent is deemed to represent that it is located outside of the United States and is not a US Person (and is not acting for the account or benefit of a US Person).

If any person does not execute and return the AI/QP Investor Letter to the Company and the Receiving Agent and the Board believes such person is an Ineligible US Shareholder, the Board reserves the right, in its absolute discretion, to require any Scheme Shares to which such Ineligible US Shareholder is entitled and would otherwise receive, to be issued to the Liquidators as nominees for the relevant Ineligible US Shareholder and sold by the Liquidators in the market (which shall be done by the Liquidators without regard to the personal circumstances of the relevant Ineligible US Shareholder and the value of the ANW Shares held by the relevant Ineligible US Shareholder) and the net proceeds of such sale (after deduction of any costs incurred in effecting such sale) will be paid to the relevant Ineligible US Shareholder entitled to them as soon as reasonably practicable, and in any event no later than 14 calendar days after the date of sale.

There are significant restrictions on the purchase and resale of Scheme Shares by persons who are located in the United States, are US Persons, or who hold Scheme Shares for the account or benefit of US Persons and on the resale of Scheme Shares to any person who is located in the United States or to, or for the account or benefit of, a US Person. If in the future the initial purchaser, as well as any subsequent holder, decides to offer, sell, transfer, assign or otherwise dispose of the Scheme Shares, they may do so only: (i) outside the United States in an "offshore

transaction” complying with the provisions of Regulation S under the Securities Act to a person not known by the transferor to be a US Person, by prearrangement or otherwise; or (ii) to the Company or a subsidiary thereof.

9. **TAXATION**

The attention of ANW Shareholders is drawn to the summary of tax matters set out in Part VI (*Taxation*) of this Prospectus. ANW Shareholders should seek tax advice from their own professional adviser about the taxation consequences of acquiring, holding or disposing of Scheme Shares.

PART V – THE PLACING PROGRAMME

1. INTRODUCTION

Pursuant to this Prospectus, the Directors intend to implement the Placing Programme (being a programme of Placings of Placing Shares), pursuant to which the Company intends to issue up to 25 million Placing Shares.

The maximum size of the Placing Programme should not be taken as an indication of the number of Placing Shares which will in fact be issued.

The Placing Programme is not being underwritten.

2. PLACINGS UNDER THE PLACING PROGRAMME

Following completion of the Scheme, the Directors may, at their sole and absolute discretion, decide to carry out one or more Placings before the Final Closing Date, should the Board determine that market conditions are appropriate. Any such Placing will comprise the issue of Placing Shares.

In using their discretion under the Placing Programme, the Directors may also take into account the desirability of limiting any premium to Net Asset Value at which the Shares trade in order to ensure that Shareholders and new investors who acquire Shares are not disadvantaged by being required to acquire such Shares on the stockmarket at a high premium to the Net Asset Value per Share.

The maximum number of Placing Shares that may be issued under the Placing Programme is 25 million. The actual number of Placing Shares to be issued pursuant to any Placing is not known as at the date of this Prospectus and will be notified by the Company via a Regulatory Information Service announcement and the Company's website, prior to the relevant Subsequent Admission.

Subject to certain limited exceptions, the Placing Shares are being offered and sold only outside the United States in "offshore transactions" to non-US Persons pursuant to Regulation S under the US Securities Act.

Each Placing is conditional, *inter alia*, on:

- the Placing Agreement not having been terminated on or before the date of the relevant Placing and having become unconditional (save for any condition relating to the relevant Subsequent Admission);
- the relevant Subsequent Admission occurring and becoming effective by no later than 8:00 a.m. (London time) on such date as the Company and the Placing Agent agree, not being later than the Final Closing Date; and
- a valid supplementary prospectus being published by the Company if such is required by the Prospectus Regulation Rules.

In circumstances where these conditions are not fully met, the relevant Placing will not take place. The investors acknowledge that where a Placing does not take place, any monies paid by applicants will be returned to them without interest and at their own risk.

Any minimum gross proceeds in respect of each Placing will be fixed by the Directors prior to each Placing in consultation with the Placing Agent.

The terms and conditions which will apply to any subscriber for Placing Shares under each Placing are set out in Part IX (*Terms and Conditions of the Placing Programme*) of this Prospectus.

3. SCALING BACK AND ALLOCATION

If aggregate applications for Shares pursuant to a Placing exceed a level that the Directors determine, in their absolute discretion at the time of closing the relevant Placing, to be the appropriate maximum size of such Placing, applications under the Placing will be scaled back at the Placing Agent's discretion (after consultation with the Company and the AIFM). Accordingly, applicants for Placing Shares may, in certain circumstances, not be allotted the number of Placing Shares for which they have applied. The Placing Agent reserves the right, at its sole discretion but after consultation with the Company and the AIFM, to scale back applications for Placing Shares received pursuant to any Placing in such amounts as it considers appropriate. The Placing Agent on behalf of the Company reserves the right to decline in whole or in part any application for Placing Shares received pursuant to any Placing.

The Company will notify investors of the number of Placing Shares successfully applied for and the results of a Placing will be announced by the Company via an RIS announcement.

Subscription monies received for unsuccessful applications (or to the extent applications are scaled back) will be returned without interest at the risk of the applicant to the bank account from which the money was received forthwith following the relevant Subsequent Admission.

4. DILUTION IN CONNECTION WITH PLACINGS

If 25 million Placing Shares were to be issued pursuant to Placings, being the target number of Placing Shares that the Directors intend to issue under the Placing Programme (and assuming: (i) 7,643,782 Scheme Shares were issued pursuant to the Scheme; (ii) no other Shares had been issued other than the Scheme Shares and the Placing Shares; (iii) the relevant investor did not participate in any Placings; and (iv) the Tender Offer is fully taken up), an investor holding 1 per cent. of the Enlarged Company's issued share capital after the Issue would then hold 0.65 per cent. of the Enlarged Company's issued share capital following completion of all the Placings. The potential dilution in any Placing will be communicated by a RIS announcement in connection with such Placing.

5. PLACING PRICE AND EXPENSES OF PLACINGS

Subject to the requirements of the Listing Rules, the price at which Placing Shares will be issued pursuant to Placings will be calculated by reference to the most recently estimated Net Asset Value per Share plus issue expenses. The premium at which Placing Shares are issued has the potential ultimately to provide an enhancement to the Net Asset Value attributable to the Shares.

As at the date of this Prospectus, it is not possible to ascertain the exact costs and expenses of any Placing and such costs and expenses may or may not be capped. The expected expenses of a Placing will be announced by way of RIS announcement at the time of the relevant Placing. No Placing Shares issued pursuant to a Placing will be issued at a Placing Price (net of the expenses pertaining to that Placing) that is less than the most recently published Net Asset Value per Share.

Fractions of Shares will not be issued.

6. DEALINGS IN PLACING SHARES

Applications will be made to each of the FCA and the London Stock Exchange for Placing Shares issued pursuant to any Placing to be admitted to the premium listing category of the Official List under Chapter 15 of the Listing Rules and to trading on the premium segment of the Main Market.

It is anticipated that dealings in the Placing Shares will commence no more than three Business Days after the trade date for each issue of Placing Shares. If the Company decides to issue any Placing Shares in certificated form, it is expected that share certificates would be dispatched approximately two weeks after the relevant Subsequent Admission of the relevant Shares. No temporary documents of title will be issued.

The Company does not guarantee that at any particular time any market maker(s) will be willing to make a market in the Placing Shares, nor does it guarantee the price at which a market will be made in the Placing Shares. Accordingly, the dealing price of the Placing Shares may not necessarily reflect changes in the Net Asset Value per Share. Furthermore, the level of liquidity in the Placing Shares may vary significantly and liquidity on the Main Market cannot be known prior to trading.

7. CREST

CREST is a paperless settlement process enabling securities to be evidenced otherwise than by a certificate and transferred otherwise than by written instrument. The Articles permit the holding of Shares under the CREST system. Accordingly, settlement of transactions in the Shares may take place within the CREST system if any Shareholder so wishes.

CREST is a voluntary system and Shareholders who wish to receive and retain share certificates will be able to do so. An investor applying for Placing Shares in any Placing may elect to receive such Placing Shares in uncertificated form if such investor is a system-member (as defined in the CREST Regulations) in relation to CREST.

8. LEGAL IMPLICATIONS OF THE CONTRACTUAL RELATIONSHIP ENTERED INTO FOR THE PURPOSE OF INVESTMENT

The Company is a non-cellular investment company limited by shares, incorporated in Guernsey under the Companies Law. While investors acquire an interest in the Company on subscribing for or purchasing Shares, the Company is the sole legal and/or beneficial owner of its investments. Consequently, Shareholders have no direct legal or beneficial interest in those investments. The liability of Shareholders for the debts and other obligations of the Company is limited to the amount unpaid, if any, on the Shares held by them. Shareholders' rights in respect of their investment in the Company are governed by the Articles and the Companies Law. Under Guernsey law, the following types of claim may in certain circumstances be brought against a company by its shareholders: contractual claims under its articles of incorporation; claims in misrepresentation in respect of statements made in its prospectus and other marketing documents; unfair prejudice claims; and derivative actions. If a Shareholder considers that it may have a claim against the Company in connection with such investment in the Company, such Shareholder should consult its own legal advisers.

Jurisdiction and applicable law

As noted above, Shareholders' rights are governed principally by the Articles and the Companies Law. By subscribing for Shares, investors agree to be bound by the Articles which are governed by, and construed in accordance with, the laws of Guernsey.

Recognition and enforcement of foreign judgments

A final and conclusive judgment under which a sum of money is payable (not being a sum payable in respect of taxes or other charges of a like nature or in respect of a fine or penalty) obtained in the superior courts in the reciprocating countries set out in the Judgments (Reciprocal Enforcement) (Guernsey) Law, 1957 (the "**1957 Law**") (which includes the Supreme Court and the Senior Courts of England and Wales, excluding the Crown Court), after a hearing on the merits would be recognised as a valid judgment by the Guernsey courts and would be enforceable in accordance with and subject to the provisions of the 1957 Law.

The Guernsey courts would also recognise any final and conclusive judgment under which a sum of money is payable (not being a sum payable in respect of taxes or other charges of a like nature or in respect of a fine or other penalty) obtained in a court not recognised by the 1957 Law provided such court is deemed to have jurisdiction in accordance with the principles of private international law as applied by Guernsey law (which are broadly similar to the principles accepted under English law) and such judgment would be sufficient to form the basis of proceedings in the Guernsey courts for a claim for liquidated damages in the amount of such judgment. In such proceedings, the Guernsey courts would not re-hear the case on its merits save in accordance with such principles of private international law.

9. OVERSEAS PERSONS AND TERRITORIES

The attention of potential investors who are not resident in, or who are not citizens of, the UK is drawn to the sections below.

The offer of Placing Shares under any Placing to Overseas Persons may be affected by the laws of other relevant jurisdictions. Such persons should consult their professional advisers as to whether they require any government or other consents or need to observe any applicable legal requirements to enable them to acquire Placing Shares under any Placing. It is the responsibility of all Overseas Persons receiving this Prospectus and/or wishing to subscribe for Placing Shares under any Placing to satisfy themselves as to full observance of the laws of the relevant territory in connection therewith, including obtaining all necessary governmental or other consents that may be required and observing all other formalities needing to be observed and paying any issue, transfer or other taxes due in such territory.

None of the Placing Shares have been or will be registered under the laws of any overseas territory. Accordingly, the Placing Shares may not be offered, sold, issued or delivered, directly or indirectly, within any overseas territory unless an exemption from any registration requirement is available.

No person receiving a copy of this Prospectus in any territory other than the UK may treat the same as constituting an offer or invitation to them, unless in the relevant territory such an offer can lawfully be made to them without compliance with any material further registration or other legal requirements.

Persons (including, without limitation, nominees and trustees) receiving this Prospectus should not distribute or send it to any person or in or into any other jurisdiction where to do so would or might contravene local securities laws or regulations. Investors should additionally consider the provisions set out under the heading “*Important Information*” on pages 29 to 36 of this Prospectus.

The Company reserves the right to treat as invalid any agreement to subscribe for Placing Shares under any Placing if it appears to the Company or its agents to have been entered into in a manner that may involve a breach of the securities legislation of any jurisdiction.

10. UNITED STATES TRANSFER RESTRICTIONS

The Company has elected to impose the restrictions described in the section below entitled “*Representations, warranties and undertakings*” (in particular, see item (d) below) on offers and sales of and the future trading in the Placing Shares: (i) so that the Company will not be required to register any offering of the Placing Shares under the US Securities Act; (ii) so that the Company will not have an obligation to register as an “investment company” under the US Investment Company Act and related rules; and (iii) to address certain ERISA, US Tax Code and other considerations. These restrictions, which will remain in effect until the Company determines in its sole discretion to remove them, may adversely affect the ability of Shareholders to trade in the Placing Shares. The Company and its agents will not be obliged to recognise any resale or other transfer of the Placing Shares made other than in compliance with the restrictions described below.

Unless otherwise agreed with the Company in writing, the Placing Shares may not be acquired by:

- investors using assets of: (A) an “employee benefit plan” as defined in Section 3(3) of ERISA that is subject to Title I of ERISA; (B) a “plan” as defined in Section 4975 of the US Tax Code, including an individual retirement account or other arrangement that is subject to Section 4975 of the US Tax Code; or (C) an entity whose underlying assets are considered to include “plan assets” by reason of investment by an “employee benefit plan” or “plan” described in preceding clause (A) or (B) in such entity pursuant to the US Plan Assets Regulations, unless its purchase, holding and disposition of Placing Shares will not constitute or result in a non-exempt prohibited transaction; or
- a governmental, church, non-US or other employee benefit plan that is subject to any federal, state, local or non-US law that is substantially similar to the provisions of Title I of ERISA or Section 4975 of the US Tax Code, unless its purchase, holding, and disposition of Placing Shares will not constitute or result in a violation of any such substantially similar law.

Representations, warranties and undertakings

Unless otherwise expressly agreed with the Company, each acquirer of the Placing Shares and each subsequent transferee, by acquiring such Placing Shares or any beneficial interest therein, will be deemed to have represented, warranted, undertaken, agreed and acknowledged to the Company and Shore Capital as follows:

- (a) it is located outside the United States, it is not a US Person, it is acquiring the Placing Shares in an “offshore transaction” meeting the requirements of Regulation S, and it is not acquiring the Placing Shares for the account or benefit of a US Person;
- (b) the Placing Shares have not been and will not be registered under the US Securities Act, or with any securities regulatory authority of any state or other jurisdiction of the United States, and may not be offered, sold, resold, pledged, delivered, assigned or otherwise transferred, directly or indirectly, into or within the United States or to, or for the account or benefit of, US Persons, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the US Securities Act and in compliance with any applicable securities laws of any state or other jurisdiction of the United States and in a manner which would not require the Company to register under the US Investment Company Act. There has been and will be no public offer of the Placing Shares in the United States;

- (c) the Company has not been and will not be registered under the US Investment Company Act and, as such, investors will not be entitled to the benefits of the US Investment Company Act and the Company has elected to impose restrictions on Placings and on the future trading in the Placing Shares to ensure that the Company is not and will not be required to register under the US Investment Company Act;
- (d) if in the future it decides to offer, sell, transfer, assign, pledge or otherwise dispose of the Placing Shares or any beneficial interest therein, it will do so only: (i) outside the United States in an “offshore transaction” complying with the provisions of Regulation S to a person not known by the transferor to be a US Person, by prearrangement or otherwise; or (ii) to the Company or a subsidiary thereof. It acknowledges and agrees that any offer, sale, transfer, assignment, pledge or other disposal made other than in compliance with the foregoing restrictions will be subject to the compulsory transfer provisions contained in the Articles;
- (e) it is not, and is not acting on behalf of, a Benefit Plan Investor, unless its purchase, holding, and disposition of the Placing Shares will not constitute or result in a non-exempt prohibited transaction or violation of any federal, state, local or non-US law that is substantially similar to the provisions of Title I of ERISA or Section 4975 of the US Tax Code;
- (f) it is acquiring the Placing Shares for its own account or for one or more investment accounts for which it is acting as a fiduciary or agent, in each case for investment only, and not with a view to or for sale or other transfer in connection with any distribution of the Placing Shares in any manner that would violate the US Securities Act, the US Investment Company Act or any other applicable securities laws;
- (g) it is aware and acknowledges that the Company reserves the right to make inquiries of any holder of the Placing Shares or interests therein at any time as to such person’s status under relevant laws and regulations (including, without limitation, US federal securities laws) and to require any such person that has not satisfied the Company that the holding by such person will not violate, require registration under, or cause the Company to lose an exemption or a status under, relevant laws or regulations to transfer such Placing Shares or interests in accordance with the Articles;
- (h) the representations, warranties, undertakings, agreements and acknowledgements contained in this Prospectus are irrevocable and it acknowledges that the Company, Shore Capital and their Affiliates and their respective directors, officers, agents, employees, advisers and others will rely upon the truth and accuracy of and compliance with the representations, warranties, undertakings, agreements and acknowledgements contained herein;
- (i) if any of the representations, warranties, undertakings, agreements or acknowledgements contained herein are no longer accurate or have not been complied with, it will immediately notify the Company and Shore Capital; and
- (j) if it is acquiring any Placing Shares as a fiduciary or agent for one or more accounts, it has sole investment discretion with respect to each such account and it has full power to make, and does make, the representations, warranties, undertakings, agreements and acknowledgements contained herein on behalf of each such account.

PART VI – TAXATION

1. GENERAL

The information below, which relates only to Guernsey and the UK, summarises the advice received by the Board and is applicable to the Company and (except in so far as express reference is made to the treatment of other persons) to persons who are resident in Guernsey or the UK for taxation purposes and who hold Shares as an investment. It is based on current Guernsey and UK tax law and published practice, respectively, which law or practice is, in principle, subject to any subsequent changes therein (potentially with retrospective effect). It is not intended to be, nor should it be construed to be, legal or tax advice. Certain Shareholders, such as dealers in securities, collective investment schemes, insurance companies and persons acquiring their Shares in connection with their employment may be taxed differently and are not considered. The tax consequences for each Shareholder of investing in the Company may depend upon the Shareholder's own tax position and upon the relevant laws of any jurisdiction to which the Shareholder is subject.

In particular, the information below does not address the US federal income tax considerations applicable to an investment in the Scheme Shares or the Placing Shares. Each prospective investor should consult its own tax advisers regarding the US federal income tax consequences of any such investment.

If you are in any doubt about your tax position, you should consult your professional adviser.

2. GUERNSEY

2.1 The Company (if maintaining its current tax exempt status in Guernsey)

The Company, as a registered closed-ended collective investment scheme, has applied to the States of Guernsey Revenue Service for exempt status under the Income Tax (Exempt Bodies) (Guernsey) Ordinance 1989, as amended, for the current year. The exemption must be applied for annually and will be granted by the Director of the Revenue Service in Guernsey, subject to the payment of an annual fee which is currently fixed at £1,200 provided that the Company continues to qualify under the applicable legislation for such exemption. It is the intention of the Directors to conduct the affairs of the Company so as to ensure that it qualifies, and continues to qualify, for exempt company status for the purposes of Guernsey taxation.

As an exempt company, the Company is and will be treated as if it were not resident in Guernsey for the purposes of liability to Guernsey income tax. Under current law and practice in Guernsey, if it qualifies as an exempt company, the Company will only be liable to tax in Guernsey in respect of income arising or accruing in Guernsey, other than bank deposit interest, from other exempt bodies or from shares in Guernsey companies.

Withholding tax

Under Guernsey tax law, no withholding of tax should be required in respect of Shareholders if, at the time a distribution is made, the Company has tax exempt status. In the event that the Company does not have tax exempt status at the time a distribution is made, it may be required to withhold tax at the applicable rate in respect of any distribution made (or deemed to have been made) to Shareholders who are Guernsey resident.

Capital taxes and stamp duty

Guernsey currently does not levy taxes upon capital inheritances, capital gains, gifts, sales or turnover (unless the varying of investments and the turning of such investments to account is a business or part of a business), nor are there any estate duties (save for registration fees and *ad valorem* duty for a Guernsey Grant of Representation where the deceased dies leaving assets in Guernsey which require presentation of such a grant).

No stamp duty is chargeable in Guernsey on the issue, transfer, disposal or redemption of shares other than Documents Duty which can apply in some instances where a company holds Guernsey situated real estate.

Goods and Services Tax

The States of Guernsey is considering options for the introduction of a system of goods and services tax (“**GST**”) and published a policy letter in August 2021 regarding the introduction of GST. However, no decision as to the introduction of GST has been made and it is unlikely that GST will be introduced in Guernsey prior to 2024.

Anti-avoidance

Guernsey has a wide ranging anti-avoidance provision. The provision targets transactions where the effect of the transaction or series of the transactions, is the avoidance, reduction or deferral of a tax liability. At their discretion, the Director of Revenue Service in Guernsey will make such adjustments to the tax liability to counteract the effect of the avoidance, reduction nor deferral of the tax liability.

In addition, Guernsey has committed to introduced mandatory disclosure rules for CRS avoidance arrangements and opaque offshore structures (“**MDR**”). These MDR rules would require promoters of avoidance arrangements and services providers to disclose information on the arrangement or structure to the Director of Revenue Service in Guernsey. Such information would include the identity of any user or beneficial owner and would then be exchanged with the tax authorities of the jurisdiction in which the users and/or beneficial owners are resident, where there is a relevant information exchange agreement.

2.2 Shareholders

Provided the Company maintains its exempt status, Shareholders who are resident for tax purposes in Guernsey (which includes Alderney and Herm for these purposes) will suffer no deduction of tax by the Company from any distributions payable by the Company, but the Administrator may provide details of distributions made to Guernsey resident Shareholders to the Director of Revenue Service in Guernsey, including the names and addresses of the Guernsey resident Shareholders, the gross amount of any distribution paid and the date of the payment. The Director of Revenue Service can require the Company to provide the name and address of every Guernsey resident who, on a specified date, has a beneficial interest in the shares of the Company, with details of the interest. Such information is not required to be delivered to the Director of Revenue Service in respect of distributions payable to Shareholders not resident in Guernsey.

Shareholders resident outside Guernsey will not be subject to any tax in Guernsey in respect of distributions paid in relation to any shares in the Company owned by them or on the disposal of their holding of shares in the Company.

2.3 FATCA and CRS

The governments of the United States and Guernsey have entered into the US-Guernsey IGA related to implementing the FATCA, which is implemented through Guernsey’s domestic legislation.

Guernsey has also implemented the CRS regime with effect from 1 January 2016. Accordingly, reporting in respect of periods commencing on or after 1 January 2016 is required in accordance with the CRS (as implemented in Guernsey).

Under the CRS and legislation enacted in Guernsey to implement the CRS, certain disclosure requirements are imposed in respect of certain investors who are, or are entities that are controlled by one or more natural persons who are, residents of any of the jurisdictions that have also adopted the CRS, unless a relevant exemption applies. Where applicable, information to be disclosed will include certain information about Shareholders, their ultimate beneficial owners and/or controllers, and their investment in and returns from the Company. The CRS is implemented through Guernsey’s domestic legislation in accordance with guidance issued by the Organisation for Economic Co-operation and Development as supplemented by guidance notes in Guernsey.

Under the CRS, disclosure of information is made to the Director of Revenue Service in Guernsey for transmission to the tax authorities in other participating jurisdictions.

In subscribing for or acquiring Shares, each Shareholder is agreeing, upon the request of the Company or its delegate, to provide such information as is necessary to comply with FATCA, the CRS and other similar regimes and any related legislation, IGAs and/or regulations.

Investors should consult with their respective tax advisers regarding the possible implications of FATCA, the CRS and similar regimes concerning the automatic exchange of information or any other related legislation, intergovernmental agreements and/or regulation.

2.4 The Company (if approval as an investment trust is obtained from HMRC)

As described in further detail in paragraph 3.1 of this Part VI (*Taxation*) of this Prospectus, it is the intention of the Directors to apply for, and thereafter to continue to conduct the affairs of the Company so as to satisfy the conditions for, approval of the Company by HMRC as an investment trust under section 1158 of the UK Corporation Tax Act 2010 (as amended) and pursuant to regulations made under section 1159 of the UK Corporation Tax Act 2010 (as amended).

Subject to obtaining HMRC approval, it is the intention of the Directors to conduct the affairs of the Company so that it is resident in the United Kingdom for taxation purposes and not resident in Guernsey. If HMRC approval is granted, the Company intends to apply for non-resident status with the Guernsey Revenue Service and to the extent that an annual confirmation of non-residence may be required in Guernsey, the Directors intend to submit such application.

Upon the approval of non-resident status by the Guernsey Revenue Service, the Company will be treated as non-resident for Guernsey tax purposes and will only be subject to tax on Guernsey sourced income (excluding bank interest) and income from activities carried on from a permanent establishment in Guernsey.

Shareholders

Non-Guernsey resident Shareholders will not be subject to any income tax in Guernsey in respect of, or, in connection with the acquisition, holding or disposal of any Shares owned by them.

Distributions made by the Company to non-resident Shareholders will not be subject to withholding of any Guernsey income tax.

Distributions made by the Company to Guernsey resident Shareholders will be taxed on the Shareholder at the standard income tax rate of 20 per cent. for individuals (subject to the individual's personal circumstances, which may include payment of the tax cap or standard charge) and 0 per cent. for corporations irrespective of whether the corporation is itself taxable in Guernsey on sources of income at a rate other than 0 per cent.

Provided the Company obtains and maintains Guernsey non-resident status, there would be no requirement for the Company to withhold tax from the payment of a distribution to a Guernsey resident Shareholder.

3. UNITED KINGDOM

3.1 The Company

The Directors have been advised that, pursuant to the United Kingdom tax rules contained in section 363A TIOPA, the Company is not currently treated as resident in the United Kingdom for United Kingdom tax purposes. Accordingly, and provided that the Company does not carry on a trade in the UK (whether or not through a branch, agency or permanent establishment situated therein), the Company is not currently subject to UK income tax or corporation tax.

However, the Company intends to apply to HMRC for approval as an investment trust under Chapter 4 of Part 24 CTA 2010 and Chapter 1 of Part 2 of The Investment Trust Tax Regulations with effect from the effective date of implementation of the Scheme, which is currently scheduled for 9 November 2021, or as soon as reasonably practicable thereafter.

If the Company becomes an investment trust, section 363A of TIOPA will no longer apply so that the Company may become resident in the United Kingdom for United Kingdom tax purposes. The Company will be so resident if its place of central management and control is in the UK and provided that it is not at the same time resident in any other jurisdiction.

If and once approval as an investment trust has been obtained, the Directors intend at all times to conduct the affairs of the Company so as to enable it to satisfy the conditions necessary for it to be eligible as an investment trust under Chapter 4 of Part 24, CTA 2010 and the Investment Trust Tax Regulations, including to ensure that it is and will continue to be tax resident in the UK. However, the Directors cannot provide assurance that this eligibility will be maintained. One of the conditions for a company to qualify as an investment trust is that it is not a “close company” for UK tax purposes. The Directors consider that the Company is not and should not become a close company as a result of the Proposals.

In respect of each accounting period for which the Company is approved by HMRC as an investment trust, the Company will be exempt from UK taxation on its chargeable gains. The Company will, however be liable to pay UK corporation tax on its income in the normal way. Income arising from overseas investments may be subject to foreign withholding taxes at varying rates, but double taxation relief may be available. The Company should in practice be exempt from UK corporation tax on dividend income received, provided that such dividends (whether from UK or non-UK companies) fall within one of the “exempt classes” in Part 9A of the Corporation Tax Act 2009.

An investment trust approved under Chapter 4 of Part 24, CTA 2010 is able to elect to take advantage of modified UK tax treatment in respect of its “qualifying interest income” for an accounting period (referred to here as the “streaming” regime). The Company may, if it so chooses, designate as an “interest distribution” all or part of the amount it distributes to Shareholders as dividends out of distributable profits realised in the accounting period, to the extent that it has “qualifying interest income” for that accounting period. Were the Company to designate any dividend it pays in this manner, it should be able to deduct such interest distributions from its income in calculating its taxable profit for the relevant accounting period.

3.2 Shareholders

UK Offshore Fund Rules

If the Company meets the definition of an “offshore fund” for the purpose of UK taxation, then in order for a UK Shareholder to be taxed under the regime for tax on chargeable gains (rather than on an income basis) on a disposal of Shares, the Company must apply to HM Revenue & Customs to be treated as a reporting fund and maintain reporting fund status throughout the period in which the UK Shareholder holds the Shares.

The Directors are of the opinion that, under current law, the Company should not be an “offshore fund” for the purposes of UK taxation, and legislation contained in Part 8, TIOPA 2010 (other than section 363A referred to above) should not apply.

Accordingly, Existing Shareholders (other than those holding Shares as dealing stock, who are subject to separate rules) who are resident in the UK, or who carry on business in the UK through a branch, agency or permanent establishment with which their investment in the Company is connected, may, depending on their circumstances and subject as mentioned below, be liable to UK tax on chargeable gains realised on the disposal of their Shares.

The UK offshore fund rules will no longer be relevant if and once the Company becomes a UK investment trust and for so long as such status is maintained.

Tax on Chargeable Gains

A disposal of Shares (including a disposal on a winding-up of the Company) by a Shareholder who is resident in the UK for tax purposes, or who is not so resident but carries on a trade in the UK through a branch, agency or permanent establishment in connection with which their investment in the Company is used, held or acquired, may give rise to a chargeable gain or an allowable loss for the purposes of UK taxation of chargeable gains, depending on the Shareholder’s circumstances and subject to any available exemption or relief.

UK-resident and domiciled individual Shareholders have an annual exemption, such that capital gains tax is chargeable only on gains arising from all sources during the tax year in excess of this figure. The annual exemption is £12,300 for the tax year 2021-2022. For such individual Shareholders, capital gains tax will be chargeable on a disposal of Shares at the applicable rate (currently 10 per cent. (for basic rate taxpayers) or 20 per cent. (for higher or additional rate taxpayers)).

Generally, an individual Shareholder who has ceased to be resident in the UK for tax purposes for a period of five years or less and who disposes of Shares during that period may be liable, on their return to the UK, to UK taxation on any chargeable gain realised (subject to any available exemption or relief). Special rules apply to Shareholders who are subject to tax on a “split-year” basis, who should seek specific professional advice if they are in any doubt about their position.

Corporate Shareholders who are resident in the UK for tax purposes will generally be subject to corporation tax at the rate of corporation tax applicable to that Shareholder (currently at a rate of 19 per cent. and expected to increase to 25 per cent. from 1 April 2023) on chargeable gains arising on a disposal of their Shares.

Shareholders who are neither resident in the UK, nor temporarily non-resident for the purposes of the anti-avoidance legislation referred to above, and who do not carry on a trade in the UK through a branch, agency or permanent establishment with which their investment in the Company is connected, should not be subject to United Kingdom taxation on chargeable gains on a disposal of their Shares.

Dividends

The statements in the following three paragraphs apply in respect of dividends to which the “streaming” regime does not apply.

UK resident individuals are entitled to a nil rate of income tax on the first £2,000 of dividend income for the tax year 2021-2022 (the “**Nil Rate Amount**”). Any dividend income received by a UK resident individual Shareholder in respect of the Shares in excess of the Nil Rate Amount will be subject to income tax at a rate of 7.5 per cent. to the extent that it would (were it not dividend income) otherwise be charged to income tax at the basic rate; 32.5 per cent. to the extent that it would otherwise be charged to income tax at the higher rate; and 38.1 per cent. to the extent that it would otherwise be charged to income tax at the additional rate. For Scottish taxpayers, references to income tax that would otherwise be charged at the basic rate, higher rate and additional rate are to be read as if the individual was not a Scottish taxpayer.

Dividend income that is within the Nil Rate Amount counts towards an individual’s basic or higher rate limits – and will therefore affect the level of savings allowance to which they are entitled, and the rate of tax that is due on any dividend income in excess of the Nil Rate Amount. In calculating into which tax band any dividend income over the Nil Rate Amount falls, savings and dividend income are treated as the highest part of an individual’s income. Where an individual has both savings and dividend income, the dividend income is treated as the top slice.

On 7 September 2021 the UK Government announced its intention to increase each of the rates of dividend tax described above by 1.25 per cent from April 2022. This increase is expected to be legislated for in the next Finance Bill.

To the extent that an election is made by the Company to designate part or all of its dividends as an interest distribution in respect of an accounting period under the “streaming” regime, then the corresponding dividends paid by the Company will be taxed as interest income in the hands of UK resident individual shareholders. To the extent the Shareholder is within the basic rate band, interest received in excess of the savings allowance of £1,000 will be taxed at 20 per cent. To the extent the Shareholder is within the higher rate band, interest received in excess of the savings allowance of £500 will be taxed at 40 per cent. To the extent the Shareholder is within the additional rate band, interest received will be taxed at 45 per cent. The tax free savings income is not available for additional rate taxpayers.

The statements in the following two paragraphs apply in respect of dividends to which the “streaming” regime does not apply.

A corporate Shareholder who is tax resident in the UK or carries on a trade in the UK through a permanent establishment in connection with which its Shares are held will be subject to UK corporation tax on the gross amount of any dividends paid by the Company, unless the dividend falls within one of the exempt classes set out in Part 9A of the Corporation Tax Act 2009.

It is anticipated that dividends paid on the Shares to UK tax resident corporate Shareholders would generally (subject to anti-avoidance rules) fall within one of those exempt classes (including those which are a “small company” for the purposes of Part 9A, provided the Company is an investment trust), however, such Shareholders are advised to consult their independent professional tax advisers to determine whether such dividends will be subject to UK corporation tax. If the dividends do not fall within any of the exempt classes, the dividends will be subject to tax currently at a rate of 19 per cent. and expected to increase to 25 per cent. from 1 April 2023.

To the extent that an election is made by the Company to designate part or all of its dividends as an interest distribution in respect of an accounting period under the “streaming” regime, then the corresponding dividends paid by the Company will be taxed according to the loan relationship rules in the hands of UK resident corporate Shareholders and subject to corporation tax currently at a rate of 19 per cent. and expected to increase to 25 per cent. from 1 April 2023.

Stamp Duty and Stamp Duty Reserve Tax (“SDRT”)

No UK stamp duty or SDRT should generally arise on the issue of Shares pursuant to the Issue or Placing Programme.

No UK stamp duty should generally be payable on a transfer of Shares in certificated form, on the basis that, although a technical charge to stamp duty is likely to arise on the instrument of transfer, it should not be necessary for such stamp duty to be paid in order to register a transfer of the Shares, and provided that the instrument of transfer is not required to be given in evidence in the UK.

Provided that the Shares are not registered in any register kept in the UK by or on behalf of the Company and that the Shares are not paired with shares issued by a company incorporated in the UK, any agreement to transfer the Shares, including the transfer of Shares in uncertificated form, should not be subject to UK SDRT.

ISAs

Shares acquired by a UK resident individual Shareholder may be eligible to be held in a stocks and shares ISA, subject to applicable annual subscription limits (£20,000 in the tax year 2021-2022). Investments held in ISAs will be free of UK tax on both capital gains and income. The opportunity to invest in shares through an ISA is restricted to certain UK resident individuals aged 18 or over. Junior ISAs are available to children under the age of 18 who are resident in the UK subject to the annual allowance of £9,000 for the 2021-2022 tax year. Sums received by a Shareholder on a disposal of Shares would not count towards the Shareholder’s annual limit; but a disposal of Shares held in an ISA will not serve to make available again any part of the annual subscription limit that has already been used by the Shareholder in that tax year.

3.3 Other UK Tax Considerations

The attention of individuals resident in the UK for taxation purposes is drawn to Chapter 2, Part 13 of the Income Tax Act 2007, which may render them liable to income tax in respect of the undistributed income of the Company.

The UK “controlled foreign company” provisions subject UK resident companies to tax on the profits of companies not so resident in which they have certain interests and which are controlled by UK persons, subject to certain “gateway” provisions and exemptions. UK corporate Shareholders are advised to consult their own professional tax advisers as to the implications of these provisions.

The attention of persons resident in the UK for taxation purposes is drawn to the provisions of sections 3-3G Taxation of Chargeable Gains Act 1992 under which, in certain circumstances, a portion of chargeable gains made by a non-UK resident company can be attributed to UK resident participators to whom more than one quarter of any gain made by the company would be attributable. This applies if the non-UK resident company would be a close company were the company to be resident in the United Kingdom for taxation purposes.

These provisions should no longer be relevant to Shareholders if and once the Company becomes an investment trust and for so long as such status is maintained.

5. REDEMPTIONS AT THE OPTION OF SHAREHOLDERS

There is no right or entitlement attaching to the Shares that allows them to be redeemed or repurchased by the Company at the option of the Shareholder.

6. MEMORANDUM AND ARTICLES OF INCORPORATION

6.1 Memorandum

The Memorandum does not restrict the objects of the Company.

6.2 Articles of incorporation

The Articles contain (among others) provisions to the following effect:

6.2.1 **Issue of shares**

Subject to the provisions of the Companies Law and the Articles, the unissued Shares shall be at the disposal of the Board which is authorised to allot, grant options over or otherwise dispose of them to such person on such terms and conditions and at such times as the Board determines but so that no Share shall be issued at a discount except in accordance with the Companies Law and so that the amount payable on application on each share shall be fixed by the Board.

6.2.2 **Alteration to share capital**

The Company may by ordinary resolution consolidate and divide all or any of its share capital into shares of larger amounts than its existing shares, and sub-divide its shares, or any of them, into shares of a smaller amount than its existing shares and determine that, as between the shares resulting from that sub-division, any of them may have any preference or advantage as compared with the others.

6.2.3 **Redemption of shares**

The Company may, at the discretion of the Board, purchase any of its own shares, whether or not they are redeemable, and may pay the purchase price in respect of such purchase to the fullest extent permitted by the Companies Law.

6.2.4 **Dividends and distributions**

(A) Subject to the provisions of the Companies Law and the Articles, the Company may at any time declare and pay such dividends as appear to be justified by the position of the Company. No dividend or other distribution shall exceed the amount recommended by the Directors or permitted by the Companies Law. Subject to the provisions of the Companies Law and the Articles, the Directors may declare and pay any fixed dividend which is payable on any shares of the Company half-yearly or otherwise on fixed dates whenever the position in the opinion of the Board so justifies.

(B) Subject to the provisions of the Companies Law and the Articles, all dividends and distributions shall be declared and paid *pro rata* according to the number of shares held by each Shareholder. If any share is issued on terms that it ranks for dividend or other distribution as from a particular date, it shall rank for dividend or other distribution accordingly.

(C) No dividend or other distribution or other money payable in respect of a share shall bear interest against the Company.

6.2.5 **Distribution of assets on a winding up**

If the Company is wound up, the liquidator may, with the sanction of a special resolution and any other sanction required by law, divide among the Shareholders, *in specie*, any part of the assets of the Company. The liquidator may, with the like sanction, vest the whole or any part of the assets in trustees upon such trusts for the benefit of the Shareholders as the liquidator may with the like sanction determine. Lastly, any assets available for distribution to the Shareholders shall, subject to any special terms of issue, be distributed according to the number of shares held by each Shareholder.

6.2.6 **Voting rights**

(A) Subject to sub-paragraph 6.2.6(B) below and any rights or restrictions attached to any class of shares, at a general meeting, on a show of hands:

- (1) every Shareholder present in person has one vote;
- (2) every proxy present who has been duly appointed by a Shareholder entitled to vote has one vote; and
- (3) every corporate representative present who has been duly authorised by a corporation has the same voting rights as the corporation would be entitled to,

and on a poll every Shareholder (whether present in person or by proxy or corporate representative) has one vote for every share of which they are the holder or in respect of which they have been appointed the proxy or corporate representative. A Shareholder entitled to more than one vote need not, if they vote, use all their votes or cast all the votes they use the same way. In the case of joint holders, the vote of the joint holder whose name appears first on the Register in respect of the joint holding shall be accepted to the exclusion of the vote of the other joint holders.

- (B) No Shareholder shall have any right to vote at any general meeting or at any separate meeting of the holders of any class of shares, either in person or by proxy, in respect of any share held by them unless all amounts presently payable by them in respect of that share have been paid.

6.2.7 **General meetings**

- (A) All general meetings other than AGMs shall be called extraordinary general meetings.
- (B) The Directors may call general meetings and, on the requisition of Shareholders pursuant to the provisions of the Companies Law, will convene and hold a general meeting within certain time limits. If there are not sufficient Directors to form a quorum in order to call a general meeting, any Director may call a general meeting.
- (C) A general meeting of the Company shall be called by at least 14 clear days' notice, unless called on shorter notice by agreement of all Shareholders entitled to attend and vote at the general meeting.
- (D) The quorum for a general meeting shall be two or more Shareholders present in person or by proxy provided that, if the Company shall have only one Shareholder entitled to attend and vote at the general meeting, that Shareholder shall constitute a quorum.
- (E) A Shareholder is entitled to appoint another person as his proxy to exercise all or any of his rights to attend and to speak and vote at a meeting of the Company. A Shareholder may appoint more than one proxy in relation to a meeting, provided that each proxy is appointed to exercise the rights attached to a different share or shares held by him. Subject to the provisions of the Companies Law, any corporation (other than the Company itself) which is a Shareholder may, by resolution of its directors or other governing body, authorise any person(s) to act as its representative(s) at any meeting of the Company, or at any separate meeting of the holders of any class of shares. Delivery of an appointment of proxy shall not preclude a Shareholder from attending and voting at the meeting or at any adjournment of it.
- (F) The Directors may make arrangements for simultaneous attendance of and participation in any general meeting at other places by Shareholders and proxies and others entitled to attend the general meeting but excluded from the Principal Place.
- (G) Directors may attend and speak at general meetings and at any separate meeting of the holders of any class of shares, whether or not they are Shareholders.
- (H) A resolution put to the vote of a general meeting must be decided on a show of hands unless a poll is validly demanded. A poll on a resolution may be demanded either before a vote on a show of hands on that resolution or on the declaration of the result of such vote.

6.2.8 **Restrictions on rights: Prohibited Shares**

If one of the following comes to the notice of the Directors, namely:

- (I) that a Prohibited Person holds or is a beneficial owner of shares;

- (II) that any shares are held or beneficially owned in a manner that would, in the Directors' absolute discretion, prevent the Company from relying on the exemption from the obligation to register as an "investment company" under the US Investment Company Act; or
- (III) the holding or beneficial ownership of any shares would, in the absolute discretion of the Directors, cause the assets of the Company to be considered "plan assets" within the meaning of the Plan Asset Regulations,

the Directors may decide, in their absolute discretion, that such shares are Prohibited Shares, in accordance with the Articles, and require the holder of such a share to (i) make a declaration, or to provide information within 21 days (or such other time as the Directors consider reasonable) that is relevant to the determination as to whether or not the share is a Prohibited Share; or (ii) sell or transfer (and/or procure the disposal of interests in) such share to another person so that it will cease to be a Prohibited Share and to provide the Directors with satisfactory evidence of such sale or transfer. Failure to comply with the Directors' request within 21 days (or such other time as the Directors consider reasonable) will result in the Directors either (i) imposing a penalty for each day such beneficial holder continues to hold Prohibited Shares or, (ii) to the extent permitted under the regulations of the Operator, arranging for the Company to sell such share at the best price reasonably obtainable to any other person so that the shares will cease to be Prohibited Shares.

6.2.9 **Untraced Shareholders**

Subject to certain notice requirements, the Company may sell any of a Shareholder's shares if, during a period of 12 years, at least three dividends on such shares have become payable and have not been claimed by the Shareholder and no communication has been received by the Company with regard to such Shareholder's whereabouts or existence.

6.2.10 **Borrowing powers**

The Directors may exercise all the powers of the Company to borrow money, to guarantee, to indemnify, to mortgage or charge its undertaking, property, assets (present and future) and uncalled capital, and to issue debentures and other securities whether outright or as collateral security for any debt, liability or obligation of the Company or of any third party. Under the current Articles, the Directors shall restrict the Company's borrowings to an aggregate amount equal to 15 per cent. of the NAV of the Company at the time of drawdown. However, conditional on the approval by Shareholders of the New Investment Policy and the amendments to the Articles at the Extraordinary General Meeting, the Articles will be amended to provide that the Director shall restrict the Company's borrowings to an aggregate amount equal to 20 per cent. of the gross asset value of the Company at the time of drawdown.

6.2.11 **Transfer of shares**

- (A) A share in certificated form may be transferred by an instrument of transfer, which may be in any usual or common form or in any other form approved by the Directors, executed by or on behalf of the transferor and, where the share is not fully paid, by or on behalf of the transferee.
- (B) A share in uncertificated form may be transferred by means of the relevant system approved by the Directors in such manner provided for, and subject as provided, in the Guernsey Regulations or such as may otherwise from time to time be adopted by the Directors on behalf of the Company and the rules of any relevant system.
- (C) The Directors may, in their absolute discretion, refuse to register the transfer of a share in certificated form, or uncertificated form, which is not fully paid or on which the Company has a lien, provided that, if the share has been admitted to trading on a regulated market, such refusal does not prevent dealings in the

shares from taking place on an open and proper basis. The Directors may also refuse to register a transfer of a share in certificated form unless the instrument of transfer:

- (1) is lodged at the registered office of the Company or such other place as the Directors may appoint and is accompanied by the certificate(s) for the shares to which it relates and such other evidence as the Directors may reasonably require to show the right of the transferor to make the transfer;
 - (2) is in respect of only one class of share; and
 - (3) is in favour of a single transferee or not more than four joint transferees.
- (D) The Directors may refuse to register a transfer of a share in uncertificated form which is traded through the relevant system and in accordance with the Guernsey Regulations, where, in the case of a transfer to joint holders, the number of joint holders to whom the uncertificated share is to be transferred exceeds four.
- (E) If the Directors refuse to register a transfer of a share, they shall send the transferee notice of that refusal within two months after the date on which the transfer was lodged with the Company.
- (F) No fee shall be charged for the registration of any instrument of transfer or other document or instruction relating to or affecting the title to any share.

6.2.12 Appointment of Directors

- (A) Unless the Company determines otherwise by ordinary resolution, the number of Directors shall not be less than two nor more than seven.
- (B) The Directors may appoint a person who is willing to act as a Director, and is permitted by law to do so, to be a Director, either to fill a vacancy or as an additional Director. A person appointed as a Director by the other Directors is required to retire at the Company's next AGM and shall then be eligible for reappointment by Shareholders.
- (C) Until otherwise determined by the Company by ordinary resolution, there shall be paid to the Directors such fees for their services in the office of Director as the Directors may determine, not exceeding in the aggregate an annual sum of £200,000 (or such larger amount as the Company may by ordinary resolution decide).

6.2.13 Powers of Directors

- (A) The business of the Company shall be managed by the Directors who, subject to the provisions of the Companies Law, the Articles and to any directions given by the Company to take, or refrain from taking, specified action, may exercise all the powers of the Company.
- (B) The Directors may establish any local boards or committees for managing any of the affairs of the Company and may appoint any one or more of its number or any other persons to be members of such local boards or committees and may, amongst other powers, fix their remuneration.
- (C) The Directors may engage the services of such custodians or depositories for the safekeeping of the Company's assets on such terms as they may, from time to time, deem fit.
- (D) Any Director (other than an alternate Director) may appoint any other Director (whether a Shareholder of the Company or not) to be an alternate Director and may remove such an alternate Director from office.

6.2.14 **Voting at board meetings**

- (A) No business shall be transacted at any meeting of the Directors unless a quorum is present. The quorum may be fixed by the Directors from time to time, but unless so fixed at any other number, the quorum shall be two. A Director shall not be counted in the quorum present in relation to a matter or resolution on which he or she is not entitled to vote but shall be counted in the quorum present in relation to all other matters or resolutions considered or voted on at the meeting. An alternate Director who is not himself or herself a Director shall, if his or her appointor is not present, be counted in the quorum.
- (B) Questions arising at a meeting of the Directors shall be decided by a majority of votes. In the case of an equality of votes, the chairperson of the meeting shall, unless he or she is not entitled to vote on the resolution, have a second or casting vote.

6.2.15 **Restrictions on voting**

Subject to any other provision of the Articles, a Director shall not vote at a meeting of the Directors on any resolution concerning a matter in which he or she has, directly or indirectly, a material interest (other than an interest in shares, debentures or other securities of, or otherwise in or through, the Company) unless his interest arises only because the case falls within certain limited categories specified in the Articles.

6.2.16 **Directors' interests**

Provided that the Director has disclosed to the other Directors the nature and extent of any material interest of his or hers, a Director, notwithstanding his or her office, may be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is otherwise interested, and may be a director or other officer of, or employed by or hold any position with, or be a party to any transaction or arrangement with, or otherwise interested in, any body corporate in which the Company is interested.

6.2.17 **Periodic retirement**

Each Director shall retire from office at each AGM except any Director appointed by the Board after the notice of that AGM has been given and before that AGM has been held.

6.2.18 **Indemnity**

Subject to the Companies Law, the Company may: indemnify to any extent any person who is or was a Director, directly or indirectly (including by funding any expenditure incurred or to be incurred by the Director) against any loss or liability whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by them or otherwise in relation to the Company; and purchase and maintain insurance for any person who is or was a Director, against any loss or liability or any expenditure he or she may incur, whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by them or otherwise, in relation to the Company.

6.2.19 **Notice or other communication sent by electronic means**

Shareholders are deemed to have agreed to the sending of documents by electronic means in any particular electronic form and to the sending of documents by means of a website to the extent permitted under the Companies Law.

6.2.20 **Continuation**

The Company has an unlimited life. At the Company's annual general meeting to be held in 2013 and at every fifth general meeting thereafter, the Directors undertake to propose a Continuation Resolution. If such resolution is not passed within four months of the vote to continue failing the Directors shall formulate and put to Shareholders proposals relating to the future of the Company having had regard to, *inter alia*, prevailing market conditions and applicable regulations and legislation. Conditional on the approval by Shareholders of the New Investment Policy and the

amendments to the Articles at the Extraordinary General Meeting, the next annual general meeting at which such a Continuation Resolution must be proposed will take place in 2027 (and not in 2023).

7. THE CITY CODE ON TAKEOVERS AND MERGERS

7.1 Mandatory bid

The Takeover Code applies to the Company. Under Rule 9 of the Takeover Code, if:

- (a) any person acquires, whether by a series of transactions over a period of time or otherwise, an interest in shares which, when taken together with shares in which they and persons acting in concert with them are interested, carry 30 per cent. or more of the voting rights in the Company; or
- (b) any person, together with persons acting in concert with them, is interested in shares which in the aggregate carry not less than 30 per cent. of the voting rights of the Company but does not hold shares carrying more than 50 per cent. of such voting rights and such person, or any person acting in concert with them, acquires an interest in any other shares which increases the percentage of shares carrying voting rights in which they are interested,

such person would be required (except with the consent of the UK Panel on Takeovers and Mergers) to make a cash or cash alternative offer for the outstanding shares at a price not less than the highest price paid for any interests in the shares by them or their concert parties during the previous 12 months. Such an offer must only be conditional on:

- (a) the person having received acceptances in respect of shares which (together with shares already acquired or agreed to be acquired) will result in the person and any person acting in concert with them holding shares carrying more than 50 per cent. of the voting rights; and
- (b) no reference having been made in respect of the offer to the Competition and Markets Authority by either the first closing date or the date when the offer becomes or is declared unconditional as to acceptances, whichever is the later.

Any Shareholder who, together with any persons with whom it is acting in concert, holds 30 per cent. or more of the Shares will only be permitted, together with any persons with whom it is acting in concert, to acquire, as a maximum, such percentage of the Placing Shares issued pursuant to a Placing as is equal to: (i) the percentage of Shares held by that Shareholder (together with any persons with whom it is acting in concert) at the Latest Practicable Date; or (ii) if lower, the percentage of Shares held by that Shareholder (together with any persons with whom it is acting in concert) at the point at which Placing Shares are allocated pursuant to the Placing.

A person not acting, or presumed not to be acting, in concert with any one or more of the directors will not normally incur an obligation to make a mandatory offer under Rule 9 if, as a result of the redemption or repurchase of shares by a company, they come to exceed the percentage limits set out in Rule 9.

As at 29 September 2021 City of London Investment Management Limited (“**CoL**”) held 28.7 per cent. of the voting rights in the Company and 29.0 per cent. of the voting rights in ANW. CoL has signed a binding letter indicating that it will take up its full entitlement to the Cash Option to be offered by ANW and the Tender Offer to be made by the Company, and this would ensure that its holding of shares carrying voting rights in the Company following completion of the Scheme would remain below 30 per cent.

However, the Company is seeking authority from Shareholders to make market purchases of its own shares up to an amount of 14.99 per cent. of the issued ordinary share capital of the Company (excluding treasury shares) immediately following completion of the Scheme. Based on: (i) the NAV of the Company and the NAV of ANW as at 29 September 2021 resulting in the issue of 7,643,782 Scheme Shares; (ii) the assumption that the buyback authority is utilised in full by the Company; and (iii) the assumption that these shares are bought back from shareholders other than CoL, the resultant holding of CoL could increase to as high as 33.8 per cent. of the voting rights of the Company.

The Panel on Takeovers and Mergers (the “**Panel**”) must be consulted in advance in any case where Rule 9 of the Code might be relevant. The Company has consulted with the Panel in relation to the proposed buy-back authority.

On the basis that CoL has not appointed a representative to the board of the Company and that none of the directors of the Company are acting in concert with CoL, the Panel has confirmed on an ex parte basis to the Company that the increase in CoL’s shareholding, as a result of the purchase by the Company of its own shares pursuant to the authority conferred by Resolution 3, will not trigger an obligation for CoL to make a mandatory offer for the Company under Rule 9 of the Code

7.2 **Compulsory acquisition**

The Companies Law provides that if an offer is made for the shares or any class of shares in the capital of a company and, within four months after the date of the offer, the offer is approved by shareholders comprising 90 per cent. in value of the shares affected (excluding any shares held as treasury shares), then the offeror may, within a period of two months immediately after the last day on which the offer can be approved or accepted, give notice to any dissenting shareholders informing them that it wishes to acquire their shares (an “**Acquisition Notice**”). Where an Acquisition Notice is given, the offeror is then entitled and bound to acquire the dissenting shareholders’ shares on the terms of the offer approved by the shareholders comprising 90 per cent. in value of the shares affected; and where the terms of the offer provided a choice of consideration, the Acquisition Notice must give particulars of the choice and state (a) the period within which, and the manner in which, the dissenting shareholder must notify the offeror of his choice, and (b) which consideration specified in the offer will apply if he does not so notify the offeror.

 - (H) the AIFM fails to notify the Company of an FCA enquiry or other circumstances;
 - (I) the AIFM materially breaches the provisions of the Management Agreement with respect to conflicts of interest and fails to remedy such breach within 30 days after receiving notice from the Company requiring the same to be remedied;

Where information contained in this Prospectus has been so sourced, the Company confirms that such information has been accurately reproduced and, as far as the Company is aware and able to ascertain from information published by such third parties, no facts have been omitted which would render the reproduced information inaccurate or misleading.
- 17.2 Shore Capital has given and not withdrawn its written consent to the inclusion in this Prospectus of references to its name in the form and context in which it appears.
- 17.3 The AIFM and the Investment Manager have given and not withdrawn their written consent to the inclusion in this Prospectus of references to their names in the form and context in which they appear. The AIFM and the Investment Manager have given and not withdrawn their written consent to the inclusion in this Prospectus of the information and opinions contained in Part I (*Information on the Company*), Part II (*Market Opportunity and Strategy*), Part III (*Directors, Management and Administration*) and Part VII (*Additional Information on the*

Company) of this Prospectus, and any other information or opinion related to, or attributed to, them or other Investment Manager entities and the references to them in the form and context in which they appear, and have authorised such information and opinions.

18. GENERAL

18.1 The Company is not dependent on patents or licences, industrial, commercial or financial contracts or new manufacturing processes which are material to the Company's business or profitability.

18.2 In accordance with the Prospectus Regulation Rules, the Company will file with the FCA, and make available for inspection by the public, details of the number of Shares issued under this Prospectus. The Company will also notify the issue of the Shares through a RIS.

19. ADDITIONAL UK AIFMD LAWS DISCLOSURES

19.1 UK AIFMD Laws leverage limits

For the purposes of the UK AIFMD Laws, leverage is required to be calculated using two prescribed methods: (i) the gross method; and (ii) the commitment method, and expressed as the ratio between a fund's total exposure and its net asset value.

As measured using the gross method, the level of leverage to be incurred by the Investment Manager on behalf of the Company is not to exceed 200 per cent. of NAV (which is the equivalent of a ratio of 2:1).

As measured using the commitment method, the level of leverage to be incurred by the Investment Manager on behalf of the Company is not to exceed 200 per cent. of NAV (which is the equivalent of a ratio of 2:1).

19.2 Liquidity risk management

There is no right or entitlement attaching to Shares that allows them to be redeemed or repurchased by the Company at the option of the Shareholder.

Liquidity risk is therefore the risk that a position held by the Company cannot be realised at a reasonable value sufficiently quickly to meet the obligations (primarily, repayment of any debt and the fees payable to the Company's service providers) of the Company as they fall due.

In managing the Company's assets, therefore, the Investment Manager will continue to seek to ensure that the Company holds at all times a Portfolio of assets that is sufficiently liquid to enable it to discharge its payment obligations.

19.3 Fair treatment of Shareholders

The Company will ensure that it treats all holders of the same class of its shares that are in the same position equally in respect of the rights attaching to those shares.

The Investment Manager has entered into and may enter into further side letters or similar arrangements with certain institutional, governmental or regulated Shareholders to provide, to the extent permitted by any applicable law, such Shareholders with assistance with due diligence reviews, and with information and reporting that is in the possession of the Investment Manager and which is required by such Shareholders to meet specific tax, regulatory or legal or administrative requirements applicable to them.

The Company will not be party to or participate in the performance of any side letter or arrangement with any Shareholder.

19.4 Rights against third-party service providers

The Company is reliant on the performance of third-party service providers, including the AIFM, the Investment Manager, Shore Capital, the Depositary, the Receiving Agent, the Administrator and the Registrar. Without prejudice to any potential right of action in tort that a Shareholder may have to bring a claim against a service provider, each Shareholder's

contractual relationship in respect of its investment in Shares is with the Company only. Accordingly, no Shareholder will have any contractual claim against any service provider with respect to such service provider's default.

If a Shareholder considers that it may have a claim against a third-party service provider in connection with such Shareholder's investment in the Company, such Shareholder should consult its own legal advisers.

The above is without prejudice to any right a Shareholder may have to bring a claim against an FCA authorised service provider under section 138D of FSMA (which provides that breach of an FCA rule by such service provider is actionable by a private person who suffers loss as a result), or any tortious cause of action. Shareholders who believe they may have a claim under section 138D of FSMA, or in tort, against any service provider in connection with their investment in the Company, should consult their legal adviser.

19.5 Professional liability risks

The AIFM is authorised under the UK AIFMD Laws and is therefore subject to the detailed requirements set out therein in relation to liability risks arising from professional negligence. The AIFM will maintain such additional own funds as are sufficient at all times to satisfy the requirements under the UK AIFMD Laws.

20. EU SFDR DISCLOSURE ON INTEGRATION OF SUSTAINABILITY RISKS

The AIFM integrates sustainability risks and opportunities into its research, analysis and investment decision-making processes. The AIFM believes that the consideration of sustainability risks and opportunities can have a material impact on long-term returns for investors. The Company is managed using an investment process integrating ESG factors but does not promote ESG characteristics or have specific sustainable investment objectives. This means that whilst ESG factors and risks are considered, they may or may not impact portfolio construction. The AIFM's ESG integration requires, in addition to its inclusion in the investment decision making process, appropriate monitoring of sustainability considerations in risk management, portfolio monitoring, engagement and stewardship activities. The AIFM also engages with policymakers on ESG and stewardship matters. Combining the integration of sustainability risks and opportunities with broader monitoring and engagement activities may affect the value of investments and therefore returns. Furthermore, investments within the Company's portfolio do not take into account the EU Taxonomy criteria for environmentally sustainable economic activities.

21. EXTRAORDINARY GENERAL MEETING

The Company will publish the Circular on or around the date of this Prospectus, containing the Resolutions to be tabled at the Extraordinary General Meeting of the Company to be held at 2 p.m. on 26 October 2021.

The Resolutions will propose that:

- (i) the Company adopts the New Investment Policy;
- (ii) the Company be authorised to make market purchases of its Shares in order to effect the proposed Tender Offer;
- (iii) the Company be generally authorised to make market purchases of its Shares of up to 14.99% of its issued share capital immediately following completion of the Scheme (in substitution for the existing authority granted at the 2021 AGM);
- (iv) Shareholders' pre-emption rights be disapplied in respect of Placings under the Placing Programme;
- (v) the Company's name be changed to "abrdn China Investment Company Limited"; and
- (vi) the Articles be amended so that the Company's borrowing limit is in line with the New Investment Policy and the next Continuation Resolution of the Company is not required to be put to Shareholders until the Company's annual general meeting in 2027.

The adoption of the New Investment Policy will not be conditional on approval of the other Resolutions. However, the Scheme (and therefore the Issue) will not proceed should the adoption of the New Investment Policy not be approved by Shareholders at the EGM.

PART IX – TERMS AND CONDITIONS OF THE PLACING PROGRAMME

1. INTRODUCTION

- 1.1 Each person who is invited to and who chooses to participate in a Placing (including individuals, funds or others) (a “**Placee**”) confirms its agreement (whether orally or in writing) to the Placing Agent to subscribe for Placing Shares under the relevant Placing and that it will be bound by these terms and conditions and will be deemed to have accepted them.
- 1.2 The Company and/or the Placing Agent may require any Placee to agree to such further terms and/or conditions and/or give such additional warranties and/or representations as it (in its absolute discretion) sees fit and/or may require any such Placee to execute a separate placing letter (a “**Placing Letter**”). The terms of this Part IX (*Terms and Conditions of the Placing Programme*) will, where applicable, be deemed to be incorporated into any such Placing Letters. Any references in this Prospectus or a Placing Letter to a Placee shall, in the context of a fund manager applying on behalf of its underlying discretionary clients, be deemed to be a reference to the relevant fund manager and not to its underlying discretionary clients.

2. AGREEMENT TO SUBSCRIBE FOR SHARES

Conditional on:

- the relevant Subsequent Admission occurring and becoming effective by 8:00 a.m. (London time) on such dates as may be agreed between the Company, the AIFM and the Placing Agent prior to the closing of each Placing, not being later than the Final Closing Date;
- the Placing Agreement becoming unconditional in all respects (save for any condition relating to the relevant Subsequent Admission);
- a special resolution disapplying Shareholders’ pre-emption rights under the Articles being passed by the requisite majority at a general meeting of the Company held prior to the relevant Subsequent Admission;
- the Placing Agreement not having been terminated prior to the date of the relevant Subsequent Admission;
- the Placing Agent confirming to the Placees their allocation of Placing Shares; and
- a valid supplementary prospectus being published by the Company (if such is required by the UK Prospectus Regulation),

a Placee agrees to become a member of the Company and agrees to subscribe for those Placing Shares allocated to it by the Placing Agent at the applicable Placing Price. To the fullest extent permitted by law, each Placee acknowledges and agrees that it will not be entitled to exercise any remedy of rescission at any time. This does not affect any other rights the Placee may have.

3. PAYMENT FOR SHARES

- 3.1 Prospective investors will only be able to subscribe for Placing Shares issued under a Placing in Sterling. The relevant Placing Price will be announced in Sterling, through a RIS announcement as soon as practicable in conjunction with each Placing. Fractions of Shares will not be issued.
- 3.2 Each Placee must pay the Placing Price for the Placing Shares allocated to the Placee in the manner and by the time directed by the Company and/or Shore Capital. If any Placee fails to pay as so directed and by the time required, the relevant Placee’s application for Placing Shares may, at the discretion of the Company or the Placing Agent (as appropriate), either be rejected or accepted. In the case of acceptance, paragraph 3.3 of these terms and conditions shall apply.
- 3.3 Each Placee is deemed to agree that if it does not comply with its obligation to pay the Placing Price for the Placing Shares allocated to it in accordance with paragraph 3.2 of these terms and conditions and the Company or the Placing Agent (as appropriate) elects to accept that Placee’s application, the Company or the Placing Agent (as appropriate) or, as applicable, any nominee of the Company or the Placing Agent (as appropriate), may sell all or any of the

Placing Shares allocated to the Placee on such Placee's behalf and retain from the proceeds, for the Company's or the Placing Agent's (as appropriate) own account and profit, an amount equal to the aggregate amount owed by the Placee plus any interest due. The Placee will, however, remain liable for any shortfall below the aggregate amount owed by such Placee and it may be required to bear any tax or other charges (together with any interest or penalties) which may arise upon the sale of such Placing Shares on such Placee's behalf.

4. REPRESENTATIONS AND WARRANTIES

By agreeing to subscribe for Placing Shares, each Placee which enters into a commitment to subscribe for Placing Shares will (for itself and any person(s) procured by it to subscribe for Placing Shares and any nominee(s) for any such person(s)) be deemed to agree, represent and warrant to each of the Company, the AIFM, the Investment Manager, the Placing Agent, the Receiving Agent and the Registrar that:

- (a) in agreeing to subscribe for Placing Shares, it is relying solely on this Prospectus and any supplementary prospectus published by the Company subsequent to the date of this Prospectus and prior to the relevant Subsequent Admission and not on any other information given, or representation or statement made at any time, by any person concerning the Company, the Placing Shares or any Placing. It agrees, to the fullest extent permissible under law, that none of the Company, the Registrar, the Placing Agent, the AIFM or the Investment Manager, nor any of their respective Affiliates, officers, agents or employees, will have any liability for any other information or representation. To the fullest extent permissible under law, it irrevocably and unconditionally waives any rights it may have in respect of any other information or representation;

If the Company, the AIFM, the Investment Manager, the Placing Agent or the Registrar, or any of their agents, request any information in connection with a Placee's agreement to subscribe for Placing Shares under a Placing or to comply with any relevant legislation, such Placee must promptly disclose it to them.

6. DATA PROTECTION

- 6.1 Each Placee acknowledges that it has been informed of the privacy notice that is available for review at <https://www.aberdeenemergingmarkets.co.uk/en/privacy> (the “Privacy Notice”) and that the Company and the AIFM will process personal data at all times in compliance with DP Legislation and the Privacy Notice.
- 6.2 The Placee represents and warrants that either: (i) it does not act as controller of personal data of any data subject in the UK, the EU or Guernsey (in which case paragraphs 6.3 and 6.4 below shall not apply), or (ii) if and insofar as it acts as controller in respect of any personal data of any data subject in the UK, the EU or Guernsey, it shall comply with its obligations under DP Legislation.
- 6.3 Each Placee acknowledges that, by submitting personal data to the Registrar (acting for and on behalf of the Company), it represents and warrants that:
- it has notified any underlying data subject of the purposes for which personal data will be used and by which parties it will be used; and
 - it has brought the Privacy Notice to the attention of any underlying data subjects on whose behalf or account the Placee may act or whose personal data will be disclosed to the Company and the AIFM as a result of the Placee agreeing to subscribe for Placing Shares under a Placing.

- comply with all applicable DP Legislation;
 - take appropriate technical and organisational measures against unauthorised or unlawful processing of the personal data and against accidental loss or destruction of, or damage to the personal data;
 - if required, agree with the Company, the AIFM and the Registrar (as applicable), the responsibilities of each such entity as regards relevant data subjects’ rights and notice requirements; and
