2. How the Fund works

The Fund is an Australian unit trust, registered as a managed investment scheme under the Corporations Act.

Unit trusts are vehicles that allow investors to pool their money with that of other investors and this pooled money is then managed by a fund manager in this case by abrdn and the Investment Manager, abrdn Investments Limited based in the United Kingdom, in accordance with the investment objective, guidelines and strategies of the Fund. Investing in the Fund allows investors to access what they may otherwise not be able to access independently, including the services of the Investment Manager. The price of interests in the Fund will vary as the market value of assets in the Fund rises or falls.

When you invest, your money buys units in the Fund, which represent your holding in the Fund, and your name is entered on the Fund's register as a holder of units. Each unit in the Fund confers an equal and proportionate beneficial interest in the net assets of the Fund. The number of units you receive depends on the amount you invest and the current unit price. You can increase your units in the Fund by reinvesting distributions or making additional investments, or in normal circumstances, decrease your units by making a withdrawal.

The Fund currently has a single class of units called Class A. Different classes of units in the Fund may be created and issued, in which case unitholders will be notified and unitholders in the different classes must be treated fairly.

The Fund was admitted as an mFund product under the ASX Operating Rules on 1 September 2014.

While the Fund is admitted as an mFund product under the ASX Operating Rules, individuals and superannuation funds only (or as otherwise advised)² will be able to buy and sell units in the Fund through mFund.

mFund uses CHES, ASX's electronic settlement system, allowing automated application and withdrawal of units in the Fund through your ASX broker (or your financial adviser who uses a stockbroking service on your behalf).

Unit prices

The application price of a unit is calculated by taking the net asset value of the Fund, divided by the number of units in the Fund on issue, then adding a buy spread which is an amount representing the estimated cost to convert application monies to investments.

While the Scheme is Liquid (as defined in the Corporation Act), the withdrawal price of a unit is calculated by dividing the net asset value of the Fund by the number of units in the Fund on issue, then deducting a sell spread which is an amount representing the estimated cost to convert investments to cash for withdrawal purposes. When the Scheme is not Liquid, the withdrawal price of a unit will be specified in any withdrawal offer. However, there is no obligation to make such offers.

Investing in the Fund

Who can invest in the Fund

The offer made in this PDS is available only to persons over 18 receiving the PDS within Australia. Units cannot be offered or sold within the United States (US) or offered or sold to, or for the account or benefit of, any 'US Person' as defined in Regulation S of the US Securities Act 1933. In very limited circumstances and at the Trustees' discretion, persons in other jurisdictions who meet applicable local regulatory requirements may be able to invest in the Fund (please contact the Client Services team for further information).

The Fund can be accessed through an IDPS Provider with which abrdn has entered into an agreement to allow units in the Fund to be offered through this service.

Minimum investment

The minimum initial investment is \$20,000. Your investment may be fully redeemed if a withdrawal request would result in your holding falling below \$20,000. Lesser amounts may be accepted into the Fund by prior arrangement at the Trustees' discretion.

Additional investments

The minimum additional investment is \$5,000. If you are already a unitholder in the Fund, you can make additional investments at any time. Lesser amounts may be accepted into the Fund at the Trustees' discretion. No contribution fees are payable. However, the normal buy spread applies.

Any additional investments must be made in accordance with the PDS current at the time of the addition. You can make the additional investment by direct credit, together with an Application Form.

Processing of applications and additional investments

The Fund's processing cut-off time is 2pm (Sydney time) on each Business Day (any day other than Saturday or Sunday on which banks are open for general banking business in Sydney).

The Trustee reserves the right to accept or reject all or part of an application at its discretion and suspend applications in certain circumstances in accordance with the Constitution, including for example where it is reasonably considered to be in the interests of unitholders.

Investing through an IDPS Provider

This PDS has been authorised as disclosure to direct investors and investors of an IDPS (commonly known as a master trust or wrap account). If you invest through an IDPS Provider, your rights and liabilities will be governed by the terms and conditions of the disclosure document provided by them. Investors should carefully read those terms and conditions before investing.

Anti-Money Laundering and Counter-Terrorism Financing laws

MSC Trustees is required to comply with these laws, including the need to establish your identity (and, if relevant, the identity of other persons associated with your account) including any appointed representative and/or under Power of Attorney.

Withdrawals

You can decrease your units by making a withdrawal from the Fund. In some circumstances, such as when withdrawals have been suspended, unitholders may not always be able to withdraw their funds within the usual period on request.

Minimum withdrawal

The minimum withdrawal amount from the Fund is \$5,000, unless the entire investment is withdrawn. No withdrawal fees are payable on a withdrawal. However, the normal sell spread applies.

Your investment may be fully redeemed in Class A if a withdrawal request would result in your holding falling below \$20,000 in the Fund.

Processing of withdrawal requests

The Fund's processing cut-off time is 2pm (Sydney time) on each Business Day (any day other than Saturday or Sunday on which banks are open for general banking business in Sydney).

Payment of withdrawal proceeds

Your withdrawal proceeds will be electronically deposited into your nominated Australian bank account, normally within 7 Business Days of the receipt and acceptance of the withdrawal request.

However, in some circumstances, for example, where the assets of the Fund are not readily realisable so as to meet withdrawals requests, the constitution permits withdrawal requests to be suspended for up to 180 days.

If the Scheme is not Liquid, you may not withdraw from the Fund unless a withdrawal offer is made to you in accordance with the Corporations Act. There is no obligation to make such offers. As at the date of the PDS the Scheme is Liquid.

Withdrawing through an IDPS Provider

If you gain exposure to the Fund through an IDPS Provider, to withdraw, you will need to complete the documents which the IDPS Provider requires.

² Under certain circumstances, investors other than individuals and superannuation funds may be able to invest in the Fund through mFund. Please contact your licensed broker for further information.

Distributions

Frequency of distributions

The Fund generally pays distributions annually.

Distribution amounts will vary from year to year and there may be times when there is no distribution paid.

How distributions are calculated

Distributions are generally calculated based on the Fund's net income at the end of the distribution period divided by the number of units on issue. The Fund will generally distribute all taxable income to unitholders each year, including the net capital gains of the Fund. Net realised capital gains are typically distributed in the final distribution of the financial year.

Distribution payments are normally made within 30 days of the end of the relevant distribution period. If you do not make a choice on the Application Form, you will be deemed to have elected to have your distributions reinvested and your distributions will be reinvested.

You should read the important information about 'How the Fund works' in section 1 of the Additional Information Booklet before making a decision to invest in the Fund. Go to: www.abrdn.com/au/howtoinvest. This information may change between the time you read this PDS and the day you acquire the product.

3. Benefits of investing in the Fund

Significant features

The Fund is a high conviction actively managed emerging market equity portfolio managed using a bottom-up approach with little reference to a benchmark.

Utilising the proven equity investment philosophy and approach of the abrdn Group, that is replicated and consistent across all equity investment desks, abrdn seek to identify quality companies trading at reasonable valuations through abrdn's own firsthand research.

Refer to 'How we invest your money' in section 5 of this PDS for more information on the Fund's investments.

Significant benefits

Investing in the Fund offers a number of benefits, including:

- Access to investment opportunities and diversification that individual investors usually cannot achieve on their own.
- Investment professionals who are part of a globally integrated network with global research capabilities delivering their best investment ideas and capabilities to clients around the world.
- The integration of environmental, social and governance factors into every stage of the investment process. abrdn Group's goal is to reduce risk, enhance potential value for our investors and foster companies that can contribute positively to the world.
- Participation in any income distributions from the Fund.

4. Risks of managed investment schemes

All investments carry risk. The likely investment return and the risk of losing money is different for each managed scheme, as different strategies carry different levels of risk based on the underlying mix of assets. Generally, the higher the level of risk you are prepared to accept, the higher potential returns or losses. Assets with the highest long-term returns may also carry the highest level of short-term risk, particularly if you do not hold your investment for the minimum suggested time frame. Growth assets, such as shares and property, are generally considered the most volatile assets, as they are likely to experience greater fluctuations in value than defensive assets, such as fixed income and cash.

The significant risks for the Fund are as follows:

- Market risk – investment returns are influenced by the performance of the market as a whole. Changes in economic, technological, environmental, or political conditions, and even market sentiment can (and do) arise. These changes can lead to changes in prices and overall market volatility. This means that the assets in the Fund can fluctuate in value.

- Security and investment-specific risk – within each asset class, individual securities can be affected by risks that are specific to that investment or that security. For example, the value of a company's shares can be influenced by changes in company management, its business environment or profitability. These risks can also impact on the company's ability to repay its debt.
- Performance risk – the Fund may fail to perform as expected in which case the Fund's investment objective may not be achieved.
- Structural and fund risk – investing in a managed fund is not like investing directly in securities, and can result in a different outcome, including in relation to income and capital gains. We are required to take into consideration the Fund as a whole, and all unitholders. The Constitution of the Fund, subject to the Corporations Act, allows MSC Trustees to terminate the Fund in certain circumstances.
- Liquidity risk – refers to the difficulty in selling an asset for cash quickly without an adverse impact on the price received. Under abnormal or difficult market conditions some normally liquid assets may become illiquid, restricting abrdn's ability to sell them and to make withdrawal payments for investors without a potentially significant delay. In circumstances where the Fund's portfolio ceases to be 'Liquid' for Corporations Act purposes, there may be significant delays, or a freeze on withdrawal requests.
- Interest rate risk – changes to interest rates can directly and indirectly impact investment value and returns.
- International investing risk – investing internationally carries additional risks due to differences between countries relating to accounting, auditing, financial reporting, government regulation, securities exchanges and transactional procedures. Foreign markets may also have different levels of liquidity, pricing availability, settlement and clearance procedures. The actions of foreign governments, exchange controls, defaults on government securities, political and social instability can also affect investments.
- Currency risk – changes in the value of the Australian dollar relative to other currencies can cause changes to the value of the Fund's overseas investments. Currency hedging involves buying and selling currencies or currency derivatives to mitigate the impact of currency movements on the value of the Fund's foreign investments. The profit/loss on hedging is planned to offset the loss/profit of investment value caused by currency movements. The Fund is managed on an unhedged basis, so it is fully exposed to currency movements.
- ESG investment risk – applying ESG considerations in the investment process may result in the Fund excluding securities within the Fund's benchmark or universe of potential investments. The interpretation of ESG considerations is subjective meaning that the Fund may invest in companies which similar funds do not (and thus perform differently) and which do not align with the personal views of any given individual investor.

Risk can be managed but it cannot be completely eliminated. It is important to understand the following:

- The value of your investment will go up and down.
- Past performance is not an indicator of future performance.
- The level of returns will vary, and future returns may differ from past returns. Returns are not guaranteed and there is always the chance you may lose money on any investment you make in the Fund.
- Laws affecting your investment in a managed scheme may change in the future.
- The level of risk for you will vary depending on a range of factors, including your age, investment time frame, where other parts of your wealth are invested, and your risk tolerance.

You should read the important information about 'Risks of managed investment schemes' in section 2 of the Additional Information Booklet before making a decision to invest in the Fund. Go to: www.abrdn.com/au/howtoinvest. This information may change between the time you read this PDS and the day you acquire this product.

5. How we invest your money

You should consider the likely investment return, risk and your investment time frame when choosing to invest in the Fund.

abrdn Sustainable Emerging Opportunities Fund

Fund description	The Fund invests primarily in a concentrated portfolio of around 40-70 emerging market listed securities with the potential for capital growth and increased earning potential.
Investment objective	To provide investors with high capital growth over the medium to long term (3-5 years) by seeking exposure to emerging stock markets worldwide or companies with significant activities in emerging markets, adjusted to take into account certain ESG considerations.
Fund strategy	<p>The Fund aims to generate strong long term total returns by investing primarily in equities and equity related securities of companies that are listed, incorporated or domiciled in Emerging Market Countries or companies that derive a significant proportion of their revenues or profits from Emerging Market Countries operations or have a significant proportion of their assets there.</p> <p>The Fund is actively managed. The Fund aims to outperform the MSCI Emerging Markets Index (AUD Unhedged) benchmark before fees and costs. The benchmark is also used as a reference point for portfolio construction and as a basis for setting risk constraints but does not incorporate any sustainable criteria.</p> <p>In order to achieve its investment objective, the Fund will take positions whose weightings diverge from the benchmark and may invest in securities which are not included in the benchmark or exclude securities that are included in the benchmark. The investments of the Fund may deviate significantly from the components of and their respective weightings in the benchmark. Due to the active and sustainable nature of the management process, the Fund's performance profile may deviate significantly from that of the benchmark.</p> <p>The Fund utilises abrdn Group's equity investment process, which enables portfolio managers to qualitatively identify and focus investment in sustainable leaders and improvers. Sustainable leaders are viewed as companies with the best in class ESG credentials or products and services which address global environmental and societal challenges, whilst improvers are typically companies with average governance, ESG management practices and disclosure with potential for improvement.</p> <p>Investment in all equity and equity-related securities will follow the Fund's 'Investment Approach'. The Fund looks to exclude at least the bottom 10% of companies with the lowest ESG House Score in the benchmark. If investing in a company that is not in the benchmark, the company must have an ESG House Score that is equal to or higher than the minimum acceptable score within the benchmark. The Fund will also target a weighted average carbon intensity at least 20% lower than the benchmark for the Fund³</p> <p>Additionally, abrdn apply a set of company exclusions which are related to the UN Global Compact, State Owned Enterprises (SOE), Weapons, Tobacco, Gambling, Thermal Coal, Oil & Gas and Electricity Generation. Further detail as how these exclusions are applied and the revenue thresholds applying to them are set out in section 5 of the Additional Information Booklet. Engagement with external company management teams is used to evaluate the ownership structures, governance and management quality of those companies in order to inform portfolio construction. It is expected that the Investment Approach reduces the benchmark investable universe by a minimum of 20%, through a combination of in-house proprietary scoring tools and abrdn use negative criteria to avoid investing in certain industries and activities that customers are concerned with. More detail on this overall process is captured within the Fund's 'Investment Approach' is set out in section 5 of the Additional Information Booklet and published at www.abrdn.com/au under 'Fund Centre'.</p>

Changes to fund details and investments	Changes may be made to the Fund at any time, and in some cases without prior notice. This could include closing or terminating the Fund, amending its investment parameters, including the investment objective and strategy, or changing the asset class allocation ranges and currency strategy (if applicable). You will be informed about any material change to the Fund's details in your next regular communication or as otherwise required by law. Details of any change will be available on abrdn website, www.abrdn.com/au .

6. Fees and costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns. For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed investment fee calculator to help you check out different fee options.

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your account or from investment units.

The information in the fees and costs summary can be used to compare the costs between different simple managed investment schemes.

Additional explanation of fees and costs

Management fees and costs

Management fees and costs comprise the management fee, recoverable expenses and indirect costs that you incur by investing in the Fund.

The management fee is paid from the assets of the Fund. It comprises remuneration for managing and overseeing the operations of the Fund. The management fee is calculated as a percentage of the Fund's NAV and is reflected in the Fund's unit price. The routine costs of running the Fund, including investment management, responsible entity, custodian, registry, and administration costs (excluding transactional and operational costs as detailed below) are paid from the management fee.

However, the Trustee reserves the right to be additionally reimbursed from the Fund for any items and expenses of an extraordinary nature.

Changing the fees

Fees may be increased, or new fees introduced without unitholder consent. Investors will be provided with at least 30 days' advance notice of any increase to fees. Reasons for increasing fees might include changing economic conditions or changes in regulations or to the Fund's Constitution. The fees described in this PDS can be waived or reduced without prior notice.

Indirect costs

In investing the assets of the Fund in accordance with its investment objective and strategy, the Fund can incur indirect costs. Indirect costs are any amounts that are known or reasonably ought to be known, or where this is not the case, reasonably estimate has or will reduce, whether directly or indirectly, the return of the Fund or the amount or value of the income of, or assets attributable to the Fund or an interposed vehicle in which the Fund invests other than the management fee and recoverable expenses. Indirect costs are reflected in the Fund's daily unit price and can include any underlying (indirect) management fees and costs, and other indirect costs (including the cost of certain types of derivatives used for trading activity other than hedging, if applicable). Indirect costs are not paid to abrdn or MSC Trustees.

The indirect costs may vary from year to year, including to the extent that they rely on estimates. These amounts are not an indication or guarantee of the amount that may be charged in the future. From time to time, a notification of updates to the estimated indirect costs will be made on the website at www.abrdn.com/au

Transaction costs

In operating the assets of the Fund, the Fund may incur transaction costs when assets are bought and sold, including brokerage, clearing and settlement costs, buy/sell spreads and applicable stamp duty. These costs, which are reflected in the daily unit price, are recovered in part by the buy/sell spread charged on applications and withdrawals.

The Fund may also incur other transaction costs through the day-to-day trading activity required to execute the Fund's

¹² In estimating the buy/sell spread for the Fund, it has been assumed that the applications or withdrawals are made during normal market conditions, as in times of stressed or dislocated market conditions (which are not possible to predict) the buy/sell spread may increase significantly and it is not possible to reasonably estimate the buy/sell spread that may be applied in such situations. The buy/sell spreads may be varied for the Fund from time to time, including increasing these costs without notice when it is necessary to protect the interests of existing investors and if permitted by law. The updated information will be disclosed on abrdn's website. Please refer to the 'Additional explanation of fees and costs' section for further details.

¹³ See 'Buy/sell spread' in this section for more details.

¹⁴ The additional management fees and costs will be on a pro-rata basis and will vary depending on when you have made the additional investment during the year. This example is prescribed by the Corporations Act, and is based on an assumption that the \$5,000 investment in the Fund occurs on the last business day of the year (and therefore, the management fees and costs are calculated using an investment balance of \$50,000 only). This example also assumes that the value of your investment in the Fund remains the same during the year. Please note that this is just an example. In practice, actual investment balances will vary daily and actual fees and costs charged are based on the value of the Fund, which also fluctuates daily.

¹⁵ All estimates of fees and costs in this section are based on information available as at the date of this PDS. All fees reflect the Responsible Entity's reasonable estimates of the typical fees for the Fund for the current financial year. All costs reflect the actual amount incurred for the last financial year and may include the Responsible Entity's reasonable estimates where the Responsible Entity was unable to determine the exact amount or information was not available at the date of this PDS. Please refer to the 'Additional explanation of fees and costs' section for more information on fees and costs that may be payable.

¹⁶ The amount of the management fee may be negotiated if you are a wholesale client pursuant to the Corporations Act. For further information refer to 'Differential fees' in the 'Additional explanation of fees and costs' section.

investment strategy (and can include the cost of derivatives used for hedging purposes, if applicable). These costs, which are reflected in the daily unit price, are an additional implicit cost to unitholders in the Fund. Transaction costs are paid out of the Fund's assets as and when incurred and are shown in the fees and costs summary net of any amount recovered by the Fund from the buy/sell spread. Transaction costs are not paid to abrdn or MSC Trustees.

The estimated gross transaction costs, the amount recovered through the buy/sell spread and the net transactional costs (that are not recovered through the buy/sell spread) are detailed in the Additional Information Booklet. These costs may vary from year to year.

Buy/sell spread

Buy/sell spreads are an amount representing the estimated costs arising from applications and withdrawals made by investors moving into and out of the Fund.

The buy/sell spreads for the Fund current at the issue date of the Additional Information Booklet (AIB) are set out in the AIB.

A notification of the current buy/sell spread for the Fund will be provided on the website at www.abrdn.com/au.

The buy/sell spreads may be waived or varied without notice when it is appropriate to protect the interests of existing investors and if permitted by law.

Service fees

If you consult a financial adviser or broker, and/or access the Fund via mFund or an IDPS Provider, advice or special request fees may be payable to them by you, or on your behalf under your arrangements with them. You should refer to their Statement of Advice, or speak to them directly regarding these fees.

Differential fees

A rebate of part of the management fee or a lower management fee may be negotiated with investors who are wholesale clients for the purposes of the Corporations Act. Under the constitution, the maximum management fee able to be charged is 2% p.a. of the daily average of the net asset value of the Fund. Further information can be obtained by contacting SGH. See page 1 of this PDS for the Client Services contact details.

You should read the important information about 'Fees and costs' in section 3 of the Additional Information Booklet before making a decision to invest in the Fund. Go to:

7. How managed investment schemes are taxed

It is important to note that investing in the Fund is likely to have tax consequences. It is strongly advised that you seek professional tax advice before investing in the Fund.

Generally, it is policy to full attribute the taxable income of the Fund to investors every year. As a result, unitholders will be liable to pay income tax on their attributed share of the taxable income of the Fund and income tax should not generally be payable by the Fund. Investors should obtain advice from professional tax advisers about their individual circumstances as the tax consequences will vary depending on their individual circumstances. Investors who invest in the Fund through an IDPS Provider should seek separate tax advice.

You should read the important information about 'How managed investment schemes are taxed in Australia' in section 4 of the Additional Information Booklet before making a decision to invest in the Fund. Go to: www.abrdn.com/au/howtoinvest. This information

¹⁷ Professional Investor is as defined in the Corporations Act and generally includes an investor in relation to whom one or more of the following applies: holder of an Australian financial services license (other than for claims handling and settlement services); trustee of a superannuation fund, an approved deposit fund, a pooled superannuation trust or a public sector superannuation scheme, within the meaning of the Superannuation Industry (Supervision) Act 1993 and the fund, trust or scheme has net assets of at least \$10 million; a body regulated by APRA; a listed entity, or a related body corporate of a listed entity; an exempt public authority; a body that carries on an investment business and raises funds pursuant to an offer or invitation to the public; a foreign entity that, if established in Australia, would be covered by one of these. Individuals, small businesses and personal superannuation funds are generally not included.

¹⁸ Under certain circumstances, investors other than individuals and superannuation funds may be able to invest in the Fund through mFund. Please contact your licensed broker for further information.

8. How to apply

Direct investor

Direct investors making an initial or additional investment in the Fund should read this PDS together with the 'Additional Information Booklet' then complete the relevant sections of the Application Form and sign it. All investors applying for a new abrdn account must also complete an Identification Form (for the purposes of Anti-Money Laundering and Counter-Terrorism Financing laws). Identification Forms can be downloaded from the 'How to Invest' page at www.abrdn.com/au. Initial and additional investment payments can be made by direct credit to the registrar.

Account name: abrdn Applications Trust Account

Name of institution: Citibank NA, Australia

BSB: 242-000

Account number: 218500269

Swift code: CITIAU2X

Reference: Please quote the investor name as per your Application Form

Please note that cash or cheques cannot be accepted.

If investing via direct credit, confirmation that the funds have been received is required prior to units being issued.

The completed Application Form and Identification Form (if applicable) can be forwarded to the Client Services team in accordance with the instruction on the Application Form.

Alternatively, an initial investment in the Fund can be made online at the website, www.abrdn.com/au/howtoinvest. Please contact the Client Services team for further information.

The Target Market Determination for the Fund can be found at www.abrdn.com/au and includes a description of who the product is suitable for. A direct retail investor determined to be outside the target market for the Fund will not be able to invest unless they are a Professional Investor¹⁷ or investing on the recommendation of their financial adviser.

Investing through an IDPS Provider

If you intend to invest in the Fund through an IDPS Provider, you will need to give a direction to the IDPS Provider to invest in the Fund and complete the documents provided by them. Please contact the Client Services team for a current list of IDPS Providers through which the Fund is available.

Investing through mFund

While the Fund is admitted as an mFund product, individuals and superannuation funds only (or as otherwise advised)¹⁸ will be able to make an initial and/or additional investment in the Fund through mFund using your ASX broker (or your financial adviser who uses a stockbroking service on your behalf).

Cooling-off rights

If you invest in the Fund as a Retail Client (as defined in section 761G of the Corporations Act), you have 14 days from the earlier of 5 business days after units are issued to you or receipt by you of a confirmation statement to have your investment repaid (cooling-off period). The amount repaid will be adjusted to take into account any transaction costs (including buy/sell spreads) and administration costs and increase/ decrease in the value of your investment.

Your right to be repaid during this cooling-off period does not apply:

- where your units have been issued due to a reinvestment of your distribution;
- if you are a Wholesale Client;
- if you invested through an IDPS Provider; or
- if you have exercised your rights as a unitholder in the Fund.

To have your investment repaid, please contact the Client Services team setting out your account details and stating that you wish to redeem your holding.

Complaints resolution

An internal complaints handling procedure has been established. Complaints can be made in writing and forwarded to the Client Services team. Alternatively, you can contact the client services team by phone on 1800 636 888 (Australian Investors), or +61 3 9612 4646 (if calling from outside Australia or New Zealand). Your complaint will be acknowledged in writing and resolution provided within 30 days. If an issue has not been resolved to your satisfaction, you may lodge a complaint with the Australian Financial Complaints Authority (AFCA), of which MSC Trustees is a member.

Online: www.afca.org.au

Email: info@afca.org.au

Phone: 1800 931 678 (free call with Australia)

Mail: Australian Financial Complaints Authority GPO Box 3
Melbourne VIC 3001

AFCA is only available to retail clients and may not be available to wholesale clients. If you are investing through an IDPS Provider, the enquiries and complaints should be directed to the operator of the service.

9. Other information

Continuous disclosure documents

As a 'disclosing entity' as defined in the Corporations Act the Fund may be subject to certain regular reporting and disclosure obligations. We will meet our continuous disclosure obligations by publishing material information on the website www.abrdn.com/au. Copies of documents lodged with ASIC in relation to the Fund may be obtained from, or inspected at, any ASIC office.

You may obtain a copy of the following documents from us by visiting the abrdn website (in accordance with ASIC's good practice guidance for website disclosure) or from our Client Services team free of charge on request (where relevant):

- the Fund's annual financial report most recently lodged with ASIC;
- any half-yearly financial reports lodged with ASIC by the Fund after lodgement of the latest annual report and before the date of this PDS (where applicable);
- any continuous disclosure notices given by the Fund after that date of lodgement of the latest annual report and before the date of this PDS;
- and any other material updates.

Updated information

Information in this PDS and the terms of your investment are subject to change from time-to-time. In the case of material changes investors will be given notice in the timeframes provided for in the relevant legislation. Updated information that is not materially adverse can be obtained by:

- Contacting your financial adviser;
- Contacting your IDPS Provider (for indirect investors);
- Visiting the abrdn website, www.abrdn.com/au; and/or calling the Client Services team by phone on 1800 636 888 (Australian Investors), or +61 3 9612 4646 (if calling from outside Australia or New Zealand);
- Visiting www.mFund.com.au (mFund investors only).

A paper copy of updated information that is not materially adverse, or an electronic copy, will be provided free of charge on request.

You should read the important information about 'Other information' in section 5 of the Additional Information Booklet before making a decision to invest in the Fund. Go to: www.abrdn.com/au/howtoinvest. This information may change between the time you read this PDS and the day you acquire the product.
