abrdn ESG Analysis

Asia Dragon Trust plc

Fund ESG Quality Score Distribution

As part of their company research, our stock analysts evaluate the ownership structures, governance and management quality of the companies they cover. They also assess potential environmental and social risks that the companies may face. These insights are captured in our company research with every company that we invest in given a proprietary overall Quality rating and a component of this is the ESG Quality rating. Companies are ranked from Laggards (5) to Best in class (1).

Portfolio scores continue to improve, with 12% of the companies in the portfolio assessed to be Best in Class, and 49% of the companies in the portfolio assessed to be Leaders, consistent with the portfolio's focus on quality. A further 38% of the companies are assessed to be Average. We continue to see generally positive momentum from companies in the portfolio in terms of ESG, in terms of both practices and disclosure, and we were encouraged that the second half of the year saw a number of upgrades to our scores, often following extensive engagement. None of the portfolio is assessed to be Below Average, and the portfolio does not hold any companies assessed to be a Laggard.

Benchmarking: MSCI ESG Ratings

Asia Dragon Trust plc

MSCI company ratings are provided to enable comparisons with investments held elsewhere in a standardised format. We conduct our own proprietary research which may lead us to have a view different to that expressed by the MSCI score.

MSCI rates companies on a AAA-CCC scale according to their exposure to ESG risks and how well they manage those risks relative to peers.

The Fund MSCI ESG Quality Score assesses the resilience of a fund's aggregate holdings to long term ESG risks and is provided on a 0-10 scale, with 10 being the highest possible fund score. The Fund MSCI ESG Rating measures the resiliency of portfolios to long term risks and opportunities arising from environmental, social, and governance factors. The Fund ESG Rating is calculated as a direct mapping of "Fund MSCI ESG Quality Score" to letter rating categories.

The fund MSCI ESG Rating is **A**

MSCI Fund ESG Quality Scores

	Fund	Benchmark
MSCI data coverage (by market value)	100%	99.5%

MSCI company ratings are provided to enable comparisons with investments held elsewhere in a standardised format. We conduct our own proprietary research which may lead us to have a view different to that expressed by the MSCI score.

MSCI ESG Rating: This is sourced direct from the vendor and includes MSCI adjustments incorporating positive & negative ESG trends and ESG laggard metrics in the calculation of the rating. MSCI ESG Rating Distribution: The fund and benchmark averages are calculated based on the individual security level MSCI scores. Therefore the ratings are not directly comparable. In both calculation methodologies Portfolio and Benchmark positions are reweighted on a pro rata basis to reflect holdings where MSCI data is available.

Active Ownership

Asia Dragon Trust plc

Engagement Activity

We actively undertake informed constructive engagement to generate better performance from our investments. This helps enhance the value of our clients' assets. We engage, manage and vote for either insight or influence. Engagement activity may be undertaken by any of our investment teams with a holding in the company, or by our dedicated stewardship team. Time period referenced is preceding 6 months.

Please note this page references abrdn ESG engagements conducted with the investment desk and does not cover all company meetings by the investment desk where ESG issues were discussed. The case studies section in this report details a sample of further engagements relevant to the fund.

Voting

We draw on the resources in our ESG Investment Team and stock analysts to vote consistently on behalf of all client assets in line with the abrdn voting policy. Time period referenced is preceding 12 months.

There were 66 holdings in the portfolio as of the 31 December 2023

Our Engagement Activity

We regularly engage with companies we invest in. The below shows the engagements that have included ESG topics. Over the period we met with 21 portfolio companies on ESG topics and had 42 engagements with them. This does not include positions we have moved out of or are considering. Below are the themes engaged on :

Our Voting Activity

Voting Summary	Total
How many meetings were you eligible to vote at?	102
How many meetings did you vote at?	100
How many resolutions were you eligible to vote on?	868
What % of resolutions did you vote on for which you were eligible?	98.5%
Of the resolutions on which you voted, what % did you vote with management?	94.3%
Of the resolutions on which you voted, what % did you vote against management?	4.7%
Of the resolutions on which you voted, what % did you abstain from voting?	1%
In what % of meetings, for which you did vote, did you vote at least once against management?	25%

During an ESG engagement meeting / call with a portfolio company multiple themes and issues might be discussed. At abrdn we endeavour to vote at all meetings for which our clients have delegated us voting authority. Where we do not have voting authority, no voting data will be included in this report. We have disclosed the number of meetings and resolutions for which the fund was eligible to vote and the remaining statistics reflect data for the votes which have been successfully processed. The number of meetings voted compared to eligible meetings may differ due to the impact of market specific obstacles which could impact liquidity, for example shareblocking, and rejected votes due to local Power of Attorney requirements. Full details of our voting activity is disclosed on our website.

Active Ownership: Case Studies

Asia Dragon Trust plc

We include a selection of case studies to demonstrate engagement style and investment management approach. These are not an indication of future performance or investment recommendation on the companies themselves.

Company Topic	Lifecycle Status	Engagement Summary	Investment View Change
AIA Group Ltd Corporate Behaviour, Corporate Gov & Disclosure	Execute	We met with AIA as part of our UN SDG and Impact work, and to probe more on alignment with our Impact Pillars. Life insurance penetration in China has grown from 1.9% to 2.8% over the last decade, but remains well below developed markets. AIA also has a 24.9% stake in China Post Life, a mass market insurer with 40k outlets across China that can reach 600mn retail customers, and has bancassurance partners in Myanmar, Indonesia and Cambodia. We've found the company's ESG team very receptive to our asks for disclosure around materiality of the various initiatives and asked for our opinion on best-in-class publicly listed insurance players that they could look to for exemplary disclosure.	None
Aier Eye Hospital Group Co Ltd Labour Management, Human Rights & Stakeholders, Corporate Behaviour, Corporate Gov & Disclosure	Execute	We discussed ESG reporting with the company at our recent meeting. The company is continuously working to improve ESG ratings and was keen to hear feedback and advice from us. We provided some suggestions around reporting on medical quality and cross subsidies, which the company were interested to adopt. Another good engagement with the company, who were receptive to our views.	None
Andes Technology Corp Labour Management	Execute	The IR estimates Andes' yearly attrition rate to be between 8- 10%, which is likely to improve as: (1) a major competitor recently cut 20% of its headcount; and (2) weak macro in China (i.e. employees are more likely to stay, easier to hire people from China if needed). Andes has met its hiring target and will pause hiring temporarily, except for engineers from the US for HPC-related development (HPC: high-performance compute).	None
ASM International NV Environment, Corporate Gov & Disclosure	Execute	We attended the company's investor day. The company expanded on it's sustainability strategy as part of this, noting that their vision is to develop differentiated products while maximising energy saving through product innovation.	Enhances
Ayala Land Inc Climate Change, Corporate Behaviour, Corporate Gov & Disclosure	Execute	We discussed green buildings with the company. All of the company's property assets are already net zero, having made this commitment in 2017. The new target is to get to net zero by 2030 on Scope 1 & 2. Getting to net zero on Scope 3 is a much bigger challenge given the carbon intensity of steel and cement, and the associated need for green solutions like green hydrogen to mature. Management were of the view that the incremental costs to get to zero on Scope 1 & 2 are relatively small given energy efficiency.	Reinforces
Bharti Airtel Ltd Environment, Corporate Gov & Disclosure	Execute	During our engagement with Bharti Airtel, we found satisfaction in the company's dedication to ESG factors. Bharti Airtel demonstrates a commitment to ESG with clear objectives and a robust system for measuring progress. Additionally, we noted that the management is held accountable by the Board, ensuring the fulfilment of commitments and progress in environmental, social, and governance initiatives.	None
Chacha Food Co Ltd Labour Management, Corporate Gov & Disclosure	Execute, Acknowledge	During a one-on-one meeting with the Chairman - our first - we discussed a range of management topics, including succession planning, bench strength, talent retention, co-ordination, and training. We also discussed supply chain management, and the company's efforts on sustainability. A very encouraging conversation.	None
Cochlear Ltd Corporate Behaviour	Execute	We talked though the company's recent Oticon acquisition, in part motivated by a desire to ensure continuity of service to Oticon's customers. An encouraging development which reflects well on the company.	Reinforces

We include a selection of case studies to demonstrate engagement style and investment management approach. These are not an indication of future performance or investment recommendation on the companies themselves.

Company Topic	Lifecycle Status	Engagement Summary	Investment View Change
Contemporary Ampere Technology Co Ltd	Execute	We engaged with CATL to understand its ESG practices in its European capacity expansion, and its stance towards the risks around Xinjiang and the Uyghur Forced Labor Prevention Act (UFLPA). CATL provided us with reassuring responses. Its ESG risk management framework includes a transparent materials tracing mechanism that allows it to provide a robust response to any concerns about its lithium supply. Hence, we are confident that CATL has a solid base in which to defend and address any ESG controversies that could impact its fundamentals.	Enhances
Environment, Labour Management, Human Rights & Stakeholders, Corporate Behaviour			
LG Chem Ltd	Execute	We discussed capital allocation with the company, and in particular management's view on using LG Energy Solution (LGES) shares to fund growth at LG Chem. Management reassured us that they were not opposed to monetising LGES shares in order to fuel LG Chem's new avenues of growth.	Reinforces
Environment, Corporate Behaviour			
Maruti Suzuki India Ltd	Execute	The company is the lowest emitting manufacturer in Indian in terms of weighted average sales fleet, and had an average emission of 111gCO ₂ /km last year, and 105gCO ₂ /km this. Corporate Average Fuel Efficiency (CAFE) regulation in India is tightening at a fast pace, with CAFE 2 introduced in 2022/3, CAFE 3 to be introduced in 2027 and CAFE 4 in 2032. We'll continue to engage on emissions.	Reinforces
Climate Change, Environment			
Samsung Biologics Co Ltd	Acknowledge	A project is underway with KPMG, MSCI's licensed advisor in Korea, to evaluate Samsung Bio's B-rating. The company is pleased to have found some areas for improvement, will share more information in 1Q24, and is hopeful of an improved MSCI rating in Sept '24. Management are also receptive to requests around better evidencing intentionality (i.e. SDG alignment, intentionality meeting an unmet need, and their role in improving access to medicine), be it through statements or empirical evidence. This is an area we'll continue to discuss with management.	Reinforces
Corporate Gov & Disclosure			
SBI Life Insurance Co Ltd	Execute	We engaged the company on the implementation and disclosure of a responsible investment framework, and were pleased to hear that the company is adopting stewardship principles and have a process to analyse, engage, and exercise voting rights for their portfolio companies. They understand the need for better disclosures, and are working with various regulators to understand the requirements for the insurance industry, and are mapping GRI G4 framework/principles to their business. We also spoke about agent retention rates, and are glad to hear that they are running 50% lower turnover rates versus the industry due to the initiatives they have made, including training and incentivisation.	Enhances
Climate Change, Environment, Labour Management, Corporate Gov & Disclosure			
Shenzhen Mindray Bio-Medical Electronics Co Ltd	Execute	We discussed business ethics at our recent meeting. Management reiterated the same message from prior meeting, stating that they believe Mindray to have the highest standard in distributor management. They have annual training, audit and agreed terms in contracts to prevent distributors from corrupt behaviour. We'll continue this engagement, but are encouraged by management's comments.	None
Corporate Behaviour			
Shenzhen Mindray Bio-Medical Electronics Co Ltd	Execute	We discussed business ethics, and the way the company manages this risk at distributors. Management were clear that they have a high standard and expectations, and provide annual training, audit and agreed terms in contracts to guard against breaches of ethical expectations.	Reinforces
Corporate Behaviour			
Sungrow	Execute	We engaged Sungrow on the issue of Forced Labour. The company maintains a commitment to ethical practices by ensuring no exposure to Xinjiang or forced labor in its operations. Rigorous supply chain audits are in place to uphold strict standards and verify compliance with ethical sourcing practices.	None
Human Rights & Stakeholders

Asia Dragon Trust plc

We include a selection of case studies to demonstrate engagement style and investment management approach. These are not an indication of future performance or investment recommendation on the companies themselves.

Company Topic	Lifecycle Status	Engagement Summary	Investment View Change
Telkom Indonesia Persero Tbk PT	Execute	We discussed the recent IndoHome related party transaction. This was a complicated deal, but one we supported, given the synergies it created.	None
Human Rights & Stakeholders, Corporate Behaviour, Corporate Gov & Disclosure			
Tencent	Execute	We engaged with the company due to the dynamic and uncertain government policies surrounding the internet and gaming sectors. Tencent, however, expresses confidence that government policies have become more supportive.	None
Corporate Gov & Disclosure			
UltraTech Cement Ltd	Execute	At our recent meeting, we were pleased to note that Ultratech has committed to producing carbon-neutral concrete by 2050. The key hurdles are around carbon capture technology and the kiln. Ultratech is running a pilot study on the electrification of the kiln, but the costs are prohibitive currently and will require policy support, and so it is engaging the government on this. On the governance front, we learnt that the audit committee is now 100% independent and that there will be material board refreshment next year with three directors retiring.	Enhances
Climate Change, Environment, Corporate Behaviour, Corporate Gov & Disclosure			
Woodside Energy Group Ltd	Execute	We discussed progress on environmental approvals relating to the company's Scarborough project, where they have been making progress. They are now awaiting a response from the regulator.	Reinforces
Environment			
Woodside Energy Group Ltd	Execute	We discussed possible strike action at the company's NWS facility, and sought an update on how discussions have been progressing with the unions. Discussions appear to be positive, with agreement on a number of points, albeit with a few points left to agree on. We also sought an update on Scarborough environmental approvals, an area with no additional clarity for now.	Reinforces
Environment, Labour Management			
Wuxi Biologics Cayman Inc	Execute	We spoke with an independent director of Wuxi Biologics as part of our ongoing active ownership strategy with the company. We had a very open and candid meeting, and discussed board / management interaction, board recruitment and refreshment, skill-set gaps, succession planning, and risk management. We'll look to continue this conversation, but this was a good first meeting.	Enhances

Glossary

Asia Dragon Trust plc

Data Point	Definition
Avoided Emissions	Greenhouse gas emissions avoided by being invested in the portfolio in lieu of the benchmark.
Carbon Emissions	Carbon emissions is used as a generic term for the main greenhouse gas (GHG) emissions (carbon dioxide, methane, nitrous oxide, F-gases) in our reporting.
Carbon Footprint	The total set of greenhouse gas emissions caused directly and indirectly by an [individual, event, organisation, product] expressed as CO ₂ e.
Carbon Intensity	Carbon emissions relative to a specific activity. For company carbon footprinting, the carbon intensity reflects the CO ₂ e emissions divided by revenue in million US\$. For countries, the standard intensity metric is the ratio of greenhouse gas emissions produced to gross domestic product (GDP).
CO ₂ e	The term CO ₂ e stands for CO ₂ equivalent and relates to the CO ₂ equivalent warming potential of the main greenhouse gases listed above.
ESG Integration	The inclusion of ESG considerations as part of investment analysis and decision making. It involves assessing both the risks and opportunities of a range of ESG-related factors that may affect the performance of our investments.
Exclusions	Companies and sectors that will not be invested in by the portfolio due to business activities that are deemed unsuitable for the portfolio outcome or underlying investor. For example the makers of controversial weapons like cluster bombs.
MSCI Fund ESG Quality Score	The Fund ESG Quality Score (10-0) assesses the resilience of a fund's aggregate holdings to long term industry specific ESG risks. Highly rated funds tend to consist of issuers with leading or improving management of key ESG risks according to MSCI's methodology.
MSCI Fund ESG Rating	The Fund ESG Rating (AAA-CCC) assesses the resilience of a fund's aggregate holdings to long term industry specific ESG risks. Highly rated funds tend to consist of issuers with leading or improving management of key ESG risks according to MSCI's methodology.
Peer Group MSCI Percentile Rating	The Fund ESG Score - Peer Percentile is a percentile rank (1-100) that measures how the Fund ESG Score ranks relative to other funds in the same peer group.
Pillars	Using the SDGs for guidance on where the world should allocate capital, we identified eight pillars of impact that address three key issues: climate change, social inequalities and unsustainable consumption patterns.
PRI Rating	The Principles for Responsible Investment (PRI) is a global initiative founded by the United Nations. The PRI scorecard rating aims to measure the success of implementation of responsible investment practices across the investment process.
UN Global Compact	A global corporate sustainability initiative, calling on companies, investors and other participants to align their strategies and operations with universal principles on human rights, labour, environment and anti-corruption.
UN Sustainable Development Goals	The Sustainable Development Goals or Global Goals are a collection of 17 interlinked global goals designed to be a "blueprint to achieve a better and more sustainable future for all". The SDGs were set in 2015 by the United Nations General Assembly and are intended to be achieved by the year 2030.
Weighted Average Carbon Intensity	Average carbon intensity of the portfolio weighted by the weight of the company in the portfolio. This measure is recommended by TCFD.

Past performance is not a guide to future results. The value of investments, and the income from them, can go down as well as up and clients may get back less than the amount invested.
