What does MyFolio invest in?

Each MyFolio fund range invests in a mix of defensive and growth asset classes. Defensive assets include cash, government bonds, corporate and global index linked bonds. Meanwhile, growth assets encompass equities, high yield bonds, emerging market debt and property¹. We believe that there are benefits from exploring additional diversifying assets in the MyFolio Managed, Multi-Manager and Monthly Income ranges.

Defensive

Growth

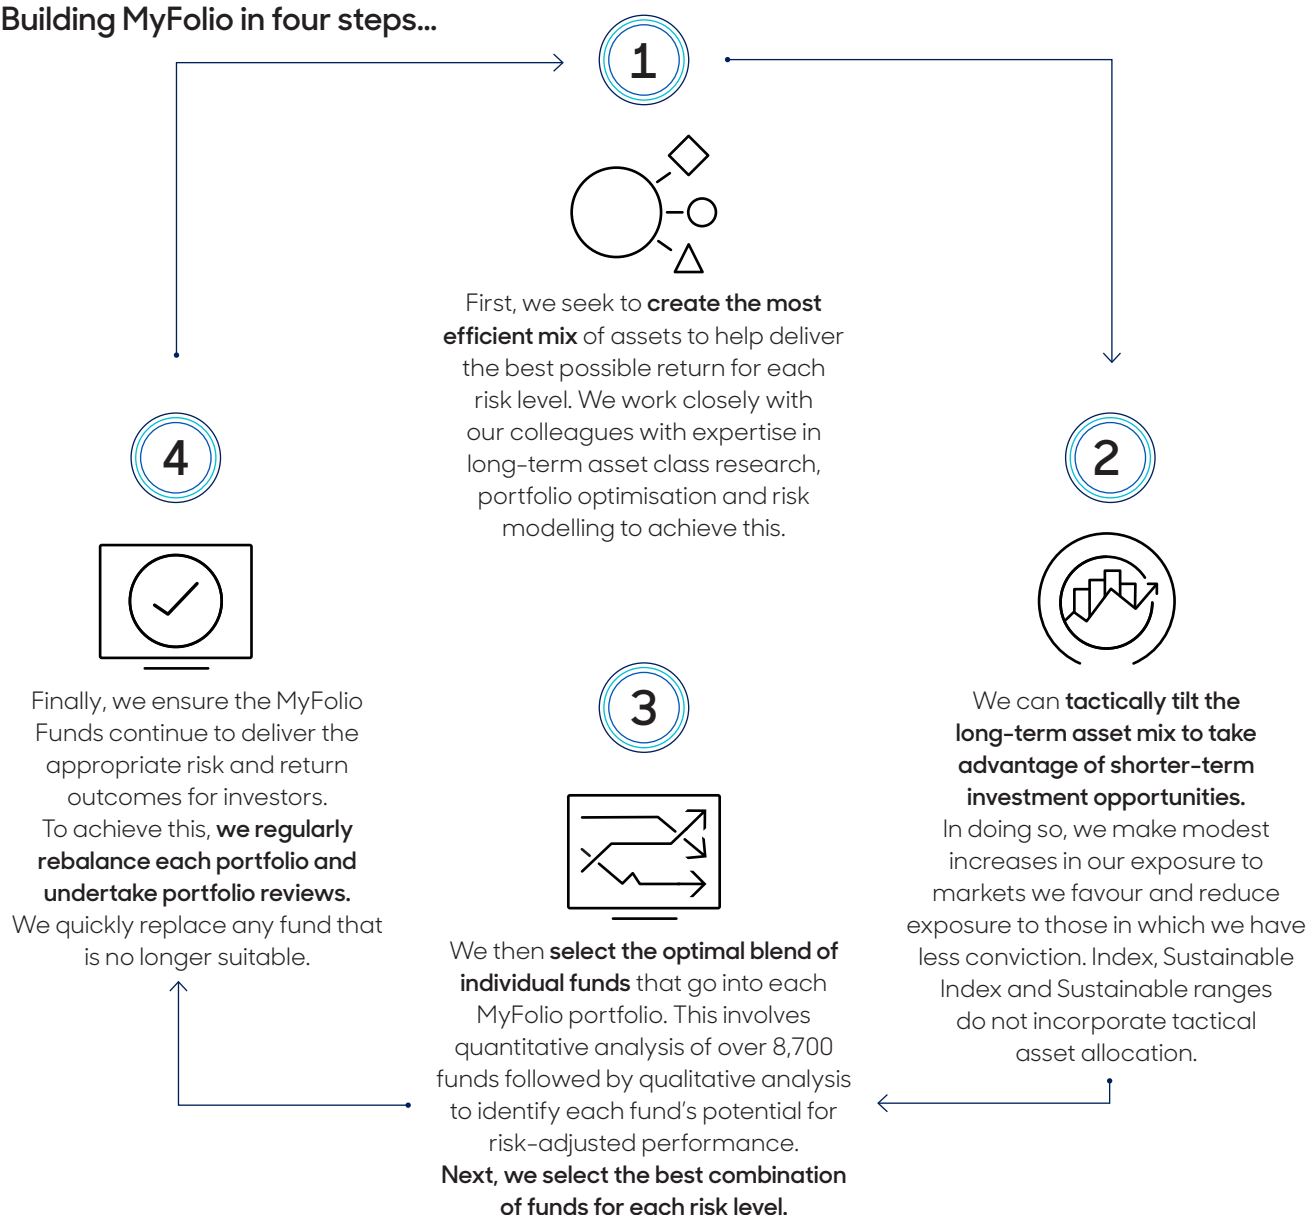

As you move up the risk levels, you would typically expect to see a higher proportion of the portfolio invested in growth assets and less in defensive assets.

¹ MyFolio Index invests in real estate through Global Real Estate Investment Trusts.
