Anti-money laundering legislation allows for simplified due diligence for pension schemes when the pension scheme is HMRC registered and has appropriate conditions in terms of assignment rights.

To let us apply simplified due diligence, we need to know the following information:

Please confirm if the
scheme is registered
with HMRC

Yes

No

If the scheme is registered with HMRC, please
also confirm its Pension Scheme Tax Number
(PSTR) here

Providing this information also means you are confirming that this scheme does not permit the assignment of the member's rights except by way of a court order (ie a pension sharing order on the grounds of divorce).

Note: If the pension scheme does not meet the above criteria please instead complete the section of the beneficial ownership form relevant to the legal form of the scheme.

Beneficial owners of a Trust

Under anti-money laundering legislation the beneficial owners of a trust are the natural person(s) (individuals) who ultimately own or control the trust through direct or indirect ownership.

In the case of a trust, those natural person(s) linked to the trust hold any of the following roles:

- Trustee
- Beneficiary
- Settlor
- Protector
- Appointer

Please note not all trusts will hold the above roles. Please refer to the relevant trust deed(s) in the first instance; however, it would be expected in normal circumstances that settlor, trustee and beneficiary information is provided.

An individual can hold multiple roles; if this is the case, please ensure all relevant roles are indicated.

Beneficiaries

There may or may not be named beneficiaries to the trust. This depends on the type of trust.

- Where individual(s) are identified as beneficiary to the trust, their details must be provided.
- Where the beneficiary to the trust is another entity, rather than an individual(s), we require full shareholder/beneficial ownership details of that entity, and any further entities in the corporate ownership structure, in addition to any individual(s) who then ultimately are beneficiary of the trust's holdings via shareholding through the corporate structure.
- Where no individual(s) are identified as beneficiary to the trust, please instead indicate the "class of beneficiaries".
- A trust may also name both individual beneficiaries and additional class(es) of beneficiaries. Where this is the case, please provide details in the relevant sections of the form.

Where a complex ownership structure exists, please provide us with an organisational chart (where applicable). If required, additional details in regards to a trust's structure and/or its beneficial owners can also be provided in a supplementary letter to the form or by supplying copies of the most up to date trust deed.

Settlors

A settlor is the person(s) who funds the trust. Where there is no individual settlor, as in the case of some charities, details as to the type of trust and the source of the funding must be provided.

When there is a Will Trust, please identify the settlor(s) who have died marking them as deceased. Note: there is no need to provide a date of birth and/or address details for a deceased person.

Protector

A Protector is someone who can be appointed by the Settlor to oversee the trustee.

The role of protector is usually, but not always, an office defined in the original trust instrument in order to confer specific powers to someone who is not also a trustee.

It is most commonly found in the context of offshore trusts, where the trustee is a professional.

Appointer

An Appointer is someone who has the power to remove a trustee and appoint a new one. Appointers cater for situations such as the death or insolvency of a trustee.

The appointer may be an existing trustee, a named beneficiary or any other third party (excluding the Settlor).

Section 2: Trusts – continued

Source of Wealth

Source of Wealth is different to Source of Funds as it is where all your clients accumulated wealth across all of their products have come from. For example Source of Funds could be accumulated from income on your clients ISA but Source of Wealth could be accumulated from income, inheritance and the sale of a business across multiple products.

Please provide details of how the wealth was acquired for the trust?

Source of Funds

Source of Funds is where the money invested in a product has come from. For example it could be savings your clients have accumulated from a fixed portion of their income every month for investment purposes and/or inherited wealth. It is not the bank account where the money has come from.

Please explain the nature of how it was funded?

Please confirm if the funds used for the investment come from the UK?

Yes

No

If no please specify the origin country

TRS Trust Register

Please confirm if the trust is registered on the TRS Trust Register. Certain trusts need to be registered before we can accept new business. Details of trusts that need to be registered can be found here gov.uk/hmrc-internal-manuals/trust-registration-service-manual/trsm10030

Yes

No

If yes, please provide proof of registration. The proof must be the excerpt of the register. HMRC state a PDF can be downloaded/printed at the end of the application. New Trusts must use the date of the deed for the registration of the trust. www.gov.uk/guidance/manage-your-trusts-registration-service

If No, please provide rationale why the trust is excluded from the TRS.

Where the trustee of the trust is a company, please also complete the Professional Trustee section below.

We therefore require information for:

- Beneficial owners: Individual shareholders who own 25% or more of the shares or voting rights of the investing entity either directly or indirectly through ultimate ownership.

Related Parties of an entity

We need to gather information on related parties these are directors or any other authorised signatories of an entity

Therefore we will require information for:

- Directors or equivalent of the investing entity; and
- Primary and Secondary Authorised Signatories (if applicable). This is a person who's been given the right authority to sign document on behalf of the entity.

Corporate or Trust ownership

Where companies or trusts own the shares, we will need the complete ownership structure of the company or trust; we also need details of the individuals who ultimately have beneficial ownership of the investment.

Where a complex corporate structure exists, please provide us with a full organisational chart and we can help you to complete the form. Additional details regarding corporate shareholder and the ultimate beneficial owners can be sent in a supplementary letter.

If the investing entity's securities are listed on a regulated market that is subject to disclosure requirements consistent with UK law or subject to equivalent international standards which ensure adequate transparency of ownership information (e.g. the London Stock Exchange), we do not require the details of beneficial owners of the investing entity. We only require confirmation of the name of the market on which the securities are admitted to trading and the listing authority identification number/ticker.

Section 4: Regulated companies

Regulated companies are registered and regulated by a financial regulatory body e.g. the Financial Conduct Authority ('FCA'). Companies of this nature may invest via the Platform. Investments may either be made in the company's name or by the company on behalf of their underlying clients.

It is important to understand in which capacity regulated companies are investing and to seek appropriate information on the beneficial owners accordingly.

Beneficial owners of a company investing on behalf of underlying clients in a regulated capacity

If the regulated entity is investing on behalf of others in their capacity as a regulated company then we are required to identify any natural person(s) who ultimately have beneficial ownership of 25% or more of the investments placed on their behalf (an Ultimate Beneficial Owner ('UBO')).

Beneficial owners of a company investing on its own behalf

Under anti-money laundering legislation, a beneficial owner of a company is any natural person (s) who ultimately owns or controls the company through direct or indirect ownership of a sufficient percentage of the shares or voting rights or ownership interests in the company, including through bearer shareholdings, or control by other means.

We therefore require information for both:

- Directors (or persons otherwise in control) of the investing entity: and
- Individual shareholders who own 25% or more of the shares or voting rights of the investing entity, either directly or indirectly through ultimate ownership.

Corporate or Trust ownership

Where companies or trusts own the shares, we will need the complete ownership structure for the investing entity; we also need details of the individuals who ultimately have beneficial ownership of the investment.
