

For adviser use only.

# Wrap adviser charges and options

[abrndn.com](http://abrndn.com)

This guide shows the actions you need to take to ensure you receive your adviser charge by keeping cash healthy within your clients' Wrap account. Consideration must be given to the tax consequences when funding OAC from a clients Wrap account for ISA and Bonds. We recommend you use Personal Portfolio where possible to fund withdrawals to pay AC on these wrap products.

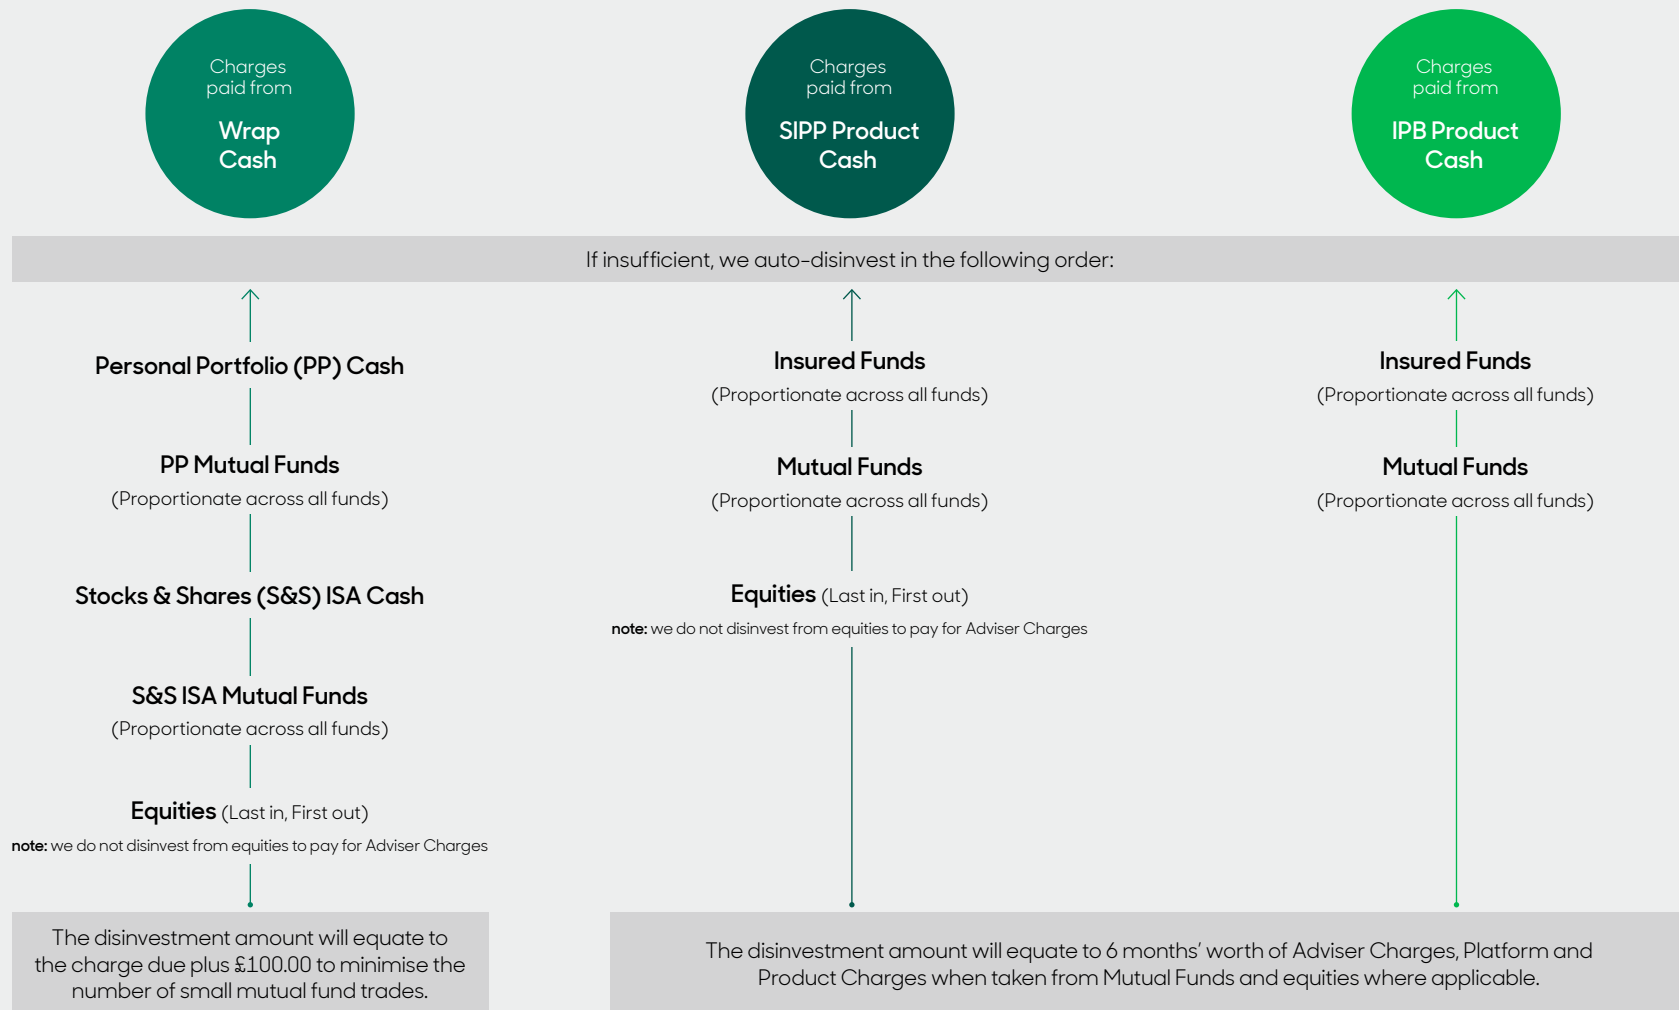

**TIP for IAC from Wrap Cash** - Where you have set up as £ amount for IAC we will attempt to pay this immediately from wrap cash. Where this has been set up as a % then we will wait for the transfer and/or new monies to be applied and then attempt to deduct this from wrap cash.

IAC - Initial adviser charge OAC - Ongoing adviser charge RIAC - Regular initial adviser charge

# Auto-disinvestment Process – Adviser Charges, Platform, & Product Charge

We only carry out auto-disinvestment for the following charges: Platform Charges, Product Charges, OAC taken from Wrap Cash, SIPP Cash or IPB Cash and RIAC taken from SIPP Cash. If there is insufficient cash to cover charges then we will automatically disinvest through the following routine:

Onshore Bond platform and product charges are deducted by cancellation of units across all policies in the Onshore Bond.
